Philosophy And Democracy An Anthology:

Philosophy and Democracy Thomas Christiano, 2003 This volume collects some of the leading essays in contemporary democratic theory published since 1970 The anthology presents the work of a select group of contributors and covers many foundational approaches defended by scholars from a range of different disciplines *Contemporary Political Philosophy* Robert E. Goodin, Philip Pettit, 2005-09-23 This authoritative collection of the seminal texts in post war political philosophy has now been updated and expanded Reprints key articles mainly unabridged touching upon the nature of the state democracy justice rights liberty equality and oppression Includes work from politics law and economics as well as from continental and analytic philosophy Now includes thirteen additional texts taking account of recent developments in the field and reflecting the most pressing concerns in international affairs Can be used alongside *A Companion to Contemporary Political Philosophy* Blackwell Publishing 1993 second edition in preparation as the basis for a systematic introduction to the subject The Ideology of Democratism Emily B. Finley, 2022 In *The Ideology of Democratism* Emily B Finley argues that history's most vocal champions of democracy from Jean Jacques Rousseau and Thomas Jefferson to John Rawls put forth an interpretation of democracy that effectively transforms the meaning of rule by the people into nearly its opposite Making use of democratic language and claiming to speak for the people elites of one sort or another politicians philosophers academics religious and many others advocate what they take to be the genuine will of the people even if it defies the actual historical popular will This book examines the origins underlying assumptions and major thrust of this powerful ideology This Obscure Thing Called Transparency Emmanuel Alloa, 2022-03-31 The paradoxical logic of transparency and mediation Transparency is the metaphor of our time Whether in government or corporate governance finance technology health or the media it is ubiquitous today and there is hardly a current debate that does not call for more transparency But what does this word actually stand for and what are the consequences for the life of individuals Can knowledge from the arts and its play of visibility and invisibility tell us something about the paradoxical logics of transparency and mediation This *Obscure Thing Called Transparency* gathers contributions by international experts who critically assess the promises and perils of transparency today Political Epistemology Michael Hannon, Elise Woodard, 2025-05-06 The New Scientist recently declared that Philosophers of knowledge your time has come and even Barack Obama has warned of an epistemological crisis Following the election of Donald Trump for the second time the rise of populism and the proliferation of misinformation and conspiracy theories epistemological questions are now forefront in our political lives Can epistemology explain the challenges of post truth Does voter ignorance threaten democracy Is political disagreement epistemically valuable or harmful This extremely timely introduction to political epistemology tackles these questions and many more In a clear and engaging style Michael Hannon and Elise Woodard examine the following key topics the relation between truth and politics including the arguments of Plato Mill and Rawls the epistemology of democracy including questions about how democracies must be fair

and representative and also make good decisions how political ignorance may undermine democracy irrationality and partisan bias political belief and group loyalty political disagreement and polarization and the potential conflict between democracy and expert authority With the inclusion of chapter summaries and further reading Political Epistemology An Introduction is the ideal starting place for anyone studying this fascinating and rapidly growing topic whether in epistemology political philosophy or applied ethics It will also be of interest to students and researchers in related fields such as political science law and public policy

[The Cambridge Companion to Liberalism](#) Steven Wall, 2015-02-19 An expert survey of liberal approaches and liberal responses to diverse topics and controversies in contemporary political thought and practice

Liberalism as Ideology Ben Jackson, Marc Stears, 2012-02-16 Liberalism is the dominant ideology of our time yet its character remains the subject of intense scholarly and political controversy Debates about the liberal political tradition about its history its central philosophical commitments its implications for political practice lie at the very heart of the discipline of political theory Many outstanding political theorists have contributed to the growing sophistication of these debates in recent years but the original voice of Michael Freeden deserves particular attention In the course of a body of work that spans over thirty years Freeden's iconoclastic contributions have posed important challenges to the dominant understandings of liberal ideology history and theory Such work has sought to redefine the very essence of what it is to be a liberal This book brings together an international group of historians philosophers and political scientists to evaluate the impact of Freeden's work and to reassess its central claims

A Liberal Theory of International Justice Andrew Altman, Christopher Heath Wellman, 2011-05-26 A Liberal Theory of International Justice advances a novel theory of international justice that combines the orthodox liberal notion that the lives of individuals are what ultimately matter morally with the putatively antiliberal idea of an irreducibly collective right of self governance The individual and her rights are placed at center stage insofar as political states are judged legitimate if they adequately protect the human rights of their constituents and respect the rights of all others Yet the book argues that legitimate states have a moral right to self determination and that this right is inherently collective irreducible to the individual rights of the persons who constitute them Exploring the implications of these ideas the book addresses issues pertaining to democracy secession international criminal law armed intervention political assassination global distributive justice and immigration A number of the positions taken in the book run against the grain of current academic opinion there is no human right to democracy separatist groups can be morally entitled to secede from legitimate states the fact that it is a matter of brute luck whether one is born in a wealthy state or a poorer one does not mean that economic inequalities across states must be minimized or even kept within certain limits most existing states have no right against armed intervention and it is morally permissible for a legitimate state to exclude all would be immigrants

The ECHR and Human Rights Theory Alain Zysset, 2016-10-04 The European Convention of Human Rights ECHR has been relatively neglected in the field of normative human rights theory This book

aims to bridge the gap between human rights theory and the practice of the ECHR In order to do so it tests the two overarching approaches in human rights theory literature the ethical and the political against the practice of the ECHR system The book also addresses the history of the ECHR and the European Court of Human Rights ECtHR as an international legal and political institution The book offers a democratic defence of the authority of the ECtHR It illustrates how a conception of democracy more specifically the egalitarian argument for democracy developed by Thomas Christiano on the domestic level can illuminate the reasoning of the Court including the allocation of the margin of appreciation on a significant number of issues Alain Zysset argues that the justification of the authority of the ECtHR its prominent status in the domestic legal orders reinforces the democratic process within States Parties thereby consolidating our status as political equals in those legal and political orders

Liberal Neutrality Alexa Zellentin, 2012-08-31 Liberal neutrality has two underlying intuitions and therefore two distinct elements On the one hand it refers to the intuition that there are matters the state has no business getting involved in On the other hand it is motivated by the idea that the state ought to treat citizens as equals and show equal respect for their different conceptions of the good life This book defends this two fold understanding of neutrality with reference to Rawls conception of citizens as free and equal persons Treating citizens as equals requires the state to grant its citizens equal political rights and also to ensure that these rights have fair value Given the danger that cultural bias undermines the equal standing of citizens the state has to ensure procedures of political decision making that are able to take citizens different conceptions into account

The Theory and Practice of Legislation Luc J. Wintgens, 2017-03-02 This work provides a rational framework for legislation The unifying premise behind the essays is that although legislation and regulation are the result of a political process legislation and regulation can be the object of theoretical study The volume focuses on problems that are common to most European legal systems and the approach involves applying to legislative problems the tools of legal theory hence legisprudence Whereas traditional legal theory deals predominantly with the application of law by the judge legisprudence enlarges the field of study so as to include the creation of law by the legislator The original essays published in this collection expose and develop a range of new insights into the relationship between legislative problems and legal theory in a way which will engage and interest legal scholars throughout the world

Democratic Theory Naturalized Walter Horn, 2020-10-05 To some the word populism suggests the tyranny of the mob to others it suggests a xenophobic nativism It is often even considered conducive to if not simply identical to fascism In *Democratic Theory Naturalized The Foundations of Distilled Populism* Walter Horn uses his theory of CHOICE Voluntarism to offer solutions to some of the most perplexing problems in democratic theory and distill populism to its core premise giving people the power to govern themselves without any constraints imposed by those on the left or the right Beginning with explanations of what it means to vote and what makes one society better off than another Horn analyzes what makes for fair aggregation and appropriate deliberative representation Through his examination of the American government Horn

suggests solutions to contemporary problems such as gerrymandering immigration control and campaign finance and offers answers to age old questions like why dissenters should obey the majority and who should have the right to vote in various elections

Debates in Contemporary Political Philosophy Derek Matravers,Jonathan Pike,2005-06-27 This textbook reflects the buoyant state of contemporary political philosophy and the development of the subject in the past two decades It includes seminal papers on fundamental philosophical issues such as the nature of social explanation distributive justice liberalism and communitarianism citizenship and multiculturalism nationalism democracy criminal justice A range of views is represented demonstrating the richness of the philosophical contribution to some of the most contested areas of public policy and political decision making Each section has an introduction by the editors that situates the papers in the ongoing debate Further Reading sections feature at the end of each chapter Readings from the following thinkers are included Steven Lukes Robert Nozick John Rawls Bhikhu Parekh Antony Duff G A Cohen Derek Parfit Roger Scruton Michael Sandel Alasdair MacIntyre Debates in Contemporary Political Philosophy will be a valuable resource for upper level students interested in current thinking in this area

The Rule Of The Many Thomas Christiano,2018-02-06 There is no problem more crucial to contemporary political thought than the status of democracy its role and its problems in the contemporary world In this survey of democratic theory Thomas Christiano introduces the reader to the principles underlying democracy and to the problems involved in applying these principles to real life situations Beginning with the simple democratically inspired presumption that the interests of all citizens are to be treated equally Christiano argues that the implications of such a minimal commitment clarify the nature of democracy and what must be demanded of democratic institutions He argues that it is the collision of this demand for equality with the fact of pluralism of interests that determines how democratic institutions ought to be designed This strong sense of reality will be welcomed by those interested in practical questions of transition in newly democratizing states Christiano combines a broad coverage of important positions taken by others with the exposition of his own ideas allowing his text to appeal to a wide range of readers from introductory students to experienced scholars Clear accessible and often elegant The Rule of the Many is a splendid introduction to democratic theory one that will take its place as both an important scholarly contribution and as an effective text

Contemporary Political Philosophy Robert E. Goodin,Philip Pettit,2009 This monumental volume provides the most comprehensive and authoritative collection of the essential primary readings in post war political philosophy The anthology includes classic articles on the nature of the state democracy justice rights liberty equality and oppression It sets work in politics law and economics alongside philosophical texts work of continental philosophers alongside analytic philosophers work of feminists marxists and other radicals alongside that of more traditional liberals This new edition updates the existing sections taking into account recent developments in the field and adds a new section of articles reflecting the pressing interests in international affairs just war self determination and the nation state and global governance Together with the Companion to Contemporary

Political Philosophy Blackwell 1993 this volume forms the basis for a truly systematic introduction to political philosophy as it is practiced today **Social and Political Philosophy** John Arthur, William H. Shaw, 1992 This anthology presents classical and contemporary readings on the major issues in social and political philosophy obligation democracy rights freedom equality justice **Encyclopedia of Global Justice** Deen K. Chatterjee, 2012-01-23 This two volume Encyclopedia of Global Justice published by Springer along with Springer's book series Studies in Global Justice is a major publication venture toward a comprehensive coverage of this timely topic The Encyclopedia is an international interdisciplinary and collaborative project spanning all the relevant areas of scholarship related to issues of global justice and edited and advised by leading scholars from around the world The wide ranging entries present the latest ideas on this complex subject by authors who are at the cutting edge of inquiry The Encyclopedia sets the tone and direction of this increasingly important area of scholarship for years to come The entries number around 500 and consist of essays of 300 to 5000 words The inclusion and length of entries are based on their significance to the topic of global justice regardless of their importance in other areas

Pragmatism, Spirituality and Society Ananta Kumar Giri, 2020-12-02 This book explores border crossing among pragmatism spirituality and society It opens up American pragmatism to dialogues with pragmatism and spiritual quest from other traditions such as India and China thus making contemporary pragmatism a part of much needed planetary conversations It cultivates new visions and practices of spiritual pragmatism building upon the seminal works of Charles Sanders Pierce William James Sri Aurobindo John Dewey Martin Heidegger Mahatma Gandhi B R Ambedkar Ludwig Wittgenstein and Luce Irigaray which can help us rethink and transform conventional conceptions and constructions of practice pragmatism language religion politics society culture and democracy and create new relationships of pragmatism spirituality and society *Politics and Development* M.R. Biju, M.R.B. Anantha Padmanabha, 2021-01-01 After the attainment of independence we adopted the British model of parliamentary democracy Naturally we continued the colonial model of legislative administrative and judicial institutions and practices developed on the Indian soil by the British colonial masters In fact masters changed from white to brown but the style of governance remained as such The public component in our democratic republic was the least remembered except during the election time In political debates when one side accuses the other of corruption the response is not denial or defence but of counter charges saying you too Justice education and healthcare are all too expensive to be within the reach of the poor who constitute the lion's share of Indian democracy Keeping this background in view an attempt has been made in this volume to address the issues pertaining to a wide ranging areas and aspects of the recent Indian Politics viz Constitution and Democracy 70 Years of Experience Lok Sabha Polls 2019 in India in Kerala and in Maharashtra Citizenship Amendment Act 2019 RTI Amendment Act 2019 Gandhian Sarvodaya Concepts of Democracy Role of the State in Governance Economic Status and Living Standards of Agricultural Sector Reproduction of Marginality through Developmentalism Gender Inequality Gender and Development Maternal and Child

Health Care Subaltern Resistance CSR Practices in relation to Corona Virus Pandemic Threats to Indian Democracy
Interrogating Citizenship and Political Economy The chapters are contributed by senior academics and development experts with rich experience on the core areas of the study In their submission the authors have highlighted the existing problems faced by Indian polity economy and society and put forward solid suggestions to revamp the system **Research**
Handbook on Human Rights Law and Health Elizabeth Wicks,Nataly Papadopoulou,2025-09-10 This Research Handbook examines the many ways in which health engages human rights law It also explores current debates which challenge traditional perspectives of rights and identifies potential new directions in which human rights law might venture Elizabeth Wicks and Nataly Papadopoulou bring together renowned experts who pose important questions about the limits of human rights and the law more broadly as new threats and opportunities related to health emerge

Unveiling the Energy of Verbal Art: An Emotional Sojourn through **Philosophy And Democracy An Anthology**

In a world inundated with displays and the cacophony of instant communication, the profound power and mental resonance of verbal beauty usually fade in to obscurity, eclipsed by the continuous barrage of noise and distractions. However, situated within the lyrical pages of **Philosophy And Democracy An Anthology**, a captivating function of literary beauty that pulses with fresh emotions, lies an wonderful trip waiting to be embarked upon. Composed with a virtuoso wordsmith, this exciting opus courses viewers on an emotional odyssey, lightly exposing the latent potential and profound impact stuck within the elaborate web of language. Within the heart-wrenching expanse of this evocative evaluation, we will embark upon an introspective exploration of the book is main themes, dissect its charming writing model, and immerse ourselves in the indelible effect it leaves upon the depths of readers souls.
