Pursuing Justice, 2nd Edition Margot Hurlbert, 2020-07-25T00:00:00Z Pursuing justice is daunting It plays out in a variety of contexts like the environment employment the criminal justice system and raises tough issues like racism gender discrimination and poverty But ultimately the aim of studying justice is to achieve it This book is about justice in Canada its definition its boundaries its contradictions and its nuances It is also about the mechanisms and practices that enable the pursuit of justice It problematizes the notion of justice while defining and pursuing the illusive notion of justice in Canadian society This second edition features updated content from the popular first edition as well as new content about social justice and racism the experiences of racialized persons with police settler colonialism and issues of justice for gender and sexual minorities all from a Canadian perspective Additionally each chapter contains objectives of the chapter case studies and discussion questions

Private Prisons Charles H. Logan, 1990-07-26 American prisons and jails are overflowing with inmates To relieve the pressure courts have imposed fines on overcrowded facilities and fiscally strapped governments have been forced to release numerous prisoners prematurely In this study noted criminologist Charles Logan makes the case for commercial operation of prisons and jails as an alternative to the government's monopoly On philosophical economic legal and practical grounds Logan argues a compelling case for the private and commercial operation of prisons He critically examines all objections raised by opponents and concludes that while private prisons face many potential problems they do so primarily because they are prisons not because they are private Historically

the record of private ownership and operation of corrections facilities has been bleak ridden with political corruption physical abuse of prisoners and the single minded pursuit of profits This study demonstrates that this need not be the case Critiquing the tendency to contrast private prisons with a hypothetical ideal Logan instead compares them with existing public institutions arguing that the potential problems attributed to private prisons are experienced by their public counterparts The work examines ten sets of issues including the propriety cost security and quantity of prisons to set out a strong case for the viability of proprietary prisons

Friedrich A. Hayek John Cunningham Wood, Robert D. Wood, 2004

The Political Economy of Soviet Socialism: the Formative Years, 1918-1928 Peter J. Boettke, 2013-03-14 This book presents a narrative of one of the more interesting utopian experiments in comparative political and economic history the first decade of the Soviet experience with socialism 1918 1928 Though historical and textual analysis the book's goal is to render this experience intelligible to get at the meaning of the Soviet experience with socialism for comparative political economy today The book examines the texts of Lenin Bukharin and other revolutionaries as well as the interpretations of contemporary historians of the revolution and the writings of more recent interpreters of Soviet political and economic history Arguing that the first three years of the Bolshevik regime 1918 1921 constitute an attempt to carry out the Marxian ideal of comprehensive central planning and that the disastrous results which all commentators agree occurred were the inevitable outcome of this Marxian ideal coming into conflict with the economic reality of the coordination problem that all economic systems face the book draws clear conclusions and elucidates the air of mystery that often surrounds the subject Offering a radical challenge to contemporary comparative political economy at the level of high theory applied research and public policy this book is appropriate for students and scholars interested in Marxism economic history political economy and Austrian economics

Private Governance Edward Peter Stringham, 2015-06-01 From the world's first stock markets to private policing in San Francisco to millions of credit card transactions Private Governance makes the case that private rules and regulations are more common and effective than most people know Private governance works behind the scenes and helps make the modern economy possible

Victims and Victimhood Trudy Govier, 2015-01-01 Who is a victim Considerations of innocence typically figure in our notions of victimhood as do judgments about causation responsibility and harm Those identified as victims are sometimes silenced or blamed for their misfortune responses that are typically mistaken and often damaging However other problems arise when we defer too much to victims being reluctant to criticize their judgments or testimony Reaching a sensitive and yet critical stand on victims credibility is a difficult matter In this book Trudy Govier carefully examines the concept of victimhood and considers the practical implications of the various attitudes with which we may respond to victims These issues are explored with reference to a range of complex examples including child victims of institutional abuse and the famed Rigoberta Mench controversy Further topics include the authority of personal experience restorative justice restitution forgiveness and closure

The Libertarian Reader David Boaz, 2015-02-17 The most

magnificent collection of libertarian writings ever published Laissez Faire Books An important collection of seminal writings on a movement that is rapidly changing the face of American politics The Libertarian Reader links some of the most fertile minds of our time to a centuries old commitment to freedom self determination and opposition to intrusive government This is the first comprehensive anthology of libertarian thought from the Bible and Lao Tzu to Hayek and Milton Friedman to be published in one volume The 68 selections from great libertarian writers are an intellectual feast covering such key libertarian themes as skepticism about power individual rights spontaneous order free markets and peace For all independent thinkers this unique sourcebook will stand as a classic reference for years to come and a reminder that libertarianism is one of our oldest and most venerable American traditions *A Measure of Freedom* Ian Carter,1999-03-25

It is often said that one person or society is freer than another or that people have a right to equal freedom or that freedom should be increased or even maximized Such quantitative claims about freedom are of great importance to us forming an essential part of our political discourse and theorizing Yet their meaning has been surprisingly neglected by political philosophers until now Ian Carter provides the first systematic account of the nature and importance of our judgements about degrees of freedom He begins with an analysis of the normative assumptions behind the claim that individuals are entitled to a measure of freedom and then goes on to ask whether it is indeed conceptually possible to measure freedom Adopting a coherentist approach the author argues for a conception of freedom that not only reflects commonly held intuitions about who is freer than whom but is also compatible with a liberal or freedom based theory of justice **Anarchy and the Law** Edward P. Stringham,2017-07-05 Private property anarchism also known as anarchist libertarianism individualist anarchism and anarcho capitalism is a political philosophy and set of economic and legal arguments that maintains that just as the markets and private institutions of civil society provide food shelter and other human needs markets and contracts should provide law and that the rule of law itself can only be understood as a private institution To the libertarian the state and its police powers are not benign societal forces but a system of conquest authoritarianism and occupation But whereas limited government libertarians argue in favor of political constraints anarchist libertarians argue that to check government against abuse the state itself must be replaced by a social order of self government based on contracts Indeed contemporary history has shown that limited government is untenable as it is inherently unstable and prone to corruption being dependent on the interest group politics of the state s current leadership **Anarchy and the Law** presents the most important essays explaining debating and examining historical examples of stateless orders Section I Theory of Private Property Anarchism presents articles that criticize arguments for government law enforcement and discuss how the private sector can provide law In Section II Debate limited government libertarians argue with anarchist libertarians about the morality and viability of private sector law enforcement Section III History of Anarchist Thought contains a sampling of both classic anarchist works and modern studies of the history of anarchist thought and societies Section IV Historical Case

Studies of Non Government Law Enforcement shows that the idea that markets can function without state coercion is an entirely viable concept Anarchy and the Law is a comprehensive reader on anarchist libertarian thought that will be welcomed by students of government

Seeking Justice for the Holocaust Graham B. Cox, 2019-09-12 The Nuremberg War Crimes Trial has become a symbol of justice the pivotal moment when the civilized world stood up for Europe's Jews and ultimately for human rights Yet the world represented at the time by the Allied powers almost did not stand up despite the magnitude of the horrors perpetrated by the Nazis Seeking justice for the Holocaust had not been an automatic or an obvious mission for the Allies to pursue In this book Graham Cox recounts the remarkable negotiations and calculations that brought the United States and its allies to this point At the center of this story is the collaboration between Franklin D Roosevelt and Herbert C Pell Roosevelt's appointee as U S representative to the United Nations War Crimes Commission in creating an international legal protocol to prosecute Nazi officials for war crimes and genocide Pell emerges here as an unheralded force in pursuing justice and in framing human rights as an international concern The book also enlarges our perspective on Roosevelt's policies regarding European Jews by revealing the depth of his commitment to postwar justice in the face of staunch opposition even from some within his administration What made the international effort especially contentious was a debate over its focus how to punish for aggressive warfare and crimes against humanity Cox exposes the internal contradictions and contortions behind the U S position and the maneuverings of numerous officials negotiating the legal parameters of the trials Most telling perhaps were the efforts of Robert H Jackson the chief U S prosecutor at Nuremberg to circumscribe the scope of new international law for fear of setting precedents that might boomerang on the United States because of its own racial segregation practices With its broad new examination of the background and context of the Nuremberg trials and its expanded view of the roles played by Roosevelt and his unlikely deputy Pell Seeking Justice for the Holocaust offers a deeper and more nuanced understanding of how the Allies came to hold Nazis accountable for their crimes against humanity

Markets, Planning, and Democracy David L. Prychitko, 2002-01-01 Markets planning and democracy essays after the collapse of communism edited by David L Prychitko

The Economic Anatomy of a Drug War David W. Rasmussen, Bruce L. Benson, 1994 This book explores the economics of illicit drug markets the connection between these markets and other crime and the adjustments these markets make when faced with changes in drug enforcement Focusing specifically on the most recent escalation of drug enforcement during the period from 1984-1989 Rasmussen and Benson adopt an economic perspective to explore the origins and effects of American drug policy Rasmussen and Benson argue that effective drug policy is only possible if we realize that increasing drug enforcement can be a tragedy of the commons because criminal justice resources are diverted from other uses and many unintended consequences are generated by politically popular drug enforcement initiatives

A Life for Liberty Randy Barnett, 2024-06-18 A law professor's memoir of his own ascendancy from prosecutor to influential legal thinker From prosecuting murderers in Chicago to arguing before the

Supreme Court to authoring more than a dozen books Georgetown University law professor Randy Barnett has played an integral role in the rise of originalism the movement to identify restore and defend the original meaning of the Constitution Thanks in part to his efforts by 2018 a majority of sitting Supreme Court justices self identified as originalists After writing seminal books on libertarianism and contract law Barnett pivoted to constitutional law His mission to restore the lost Constitution took him from the schoolhouse to the courthouse where he argued the medical marijuana case of *Gonzales v Raich* in the Supreme Court a case now taught to every law student Later he devised and spearheaded the constitutional challenge to Obamacare All this earned him major profiles in such publications as the *Washington Post* *Wall Street Journal* and *New York Times* Now he recounts his compelling journey from a working class kid in Calumet City Illinois to Washington Power Breaker as the *Congressional Quarterly Weekly* called him In *A Life for Liberty* Barnett writes candidly about his career strategies and how he overcame his outsider status his insecurities and the mistakes he made along the way The engaging story of his rise from obscurity to one of the most influential thinkers in America is an inspiring how to guide for anyone seeking real world advancement of justice and liberty for all

Muslim Women Seeking Power, Muslim Youth Seeking Justice Mahmoud Abubaker, Christopher Adam-Bagley, 2019-06-20 This volume explores the two themes of equity in employment for Muslim women and the identity and aspirations of Muslim youth in an age of Islamophobia in Western countries through conceptual and empirical studies of employment discrimination and alienation in the UK and the Netherlands To these accounts are added a worldwide perspective on how women and especially ethnic minority and Muslim women experience and try to overcome ethno religious discrimination in entry to employment The themes of Muslim women and youth struggling to survive are illustrated by accounts of teachers from Gaza who are providing alternative families for children traumatised and orphaned through Israeli attacks The idea of peaceful resistance and Islamic patience in the face of persecution is developed throughout the book and applied in a variety of settings
