Sources of Irish Traditional Music c. 1600-1855 Aloys Fleischman,2016-12-05 First Published in 1998 Irish traditional music is one of the richest treasuries of folk music in the world Being an oral tradition much of it has already been lost and what has been recorded is only partially available in isolated collections Until now no composite picture has yet been presented showing its remarkable range and diversity over four centuries This volume covers Irish materials in general collections up to 1800 and in Irish collections up to and including Petrie s Ancient Music of Ireland 1855 The purposes of the project are to identify Irish dance tunes and songs to present the scholar with a mass of material showing the evolution of the Irish vocal and instrumental folk style period by period from the earliest recorded tune up to the middle of the last century to put into circulation many of the splendid airs which were lost but have now been located Some 6 000 songs and dance tunes are presented also including Scottish and English tunes Included are Scottish tunes that were used by 18th century Irish poets for their verses and both English and Scottish tunes that are still current among Irish traditional musicians Tunes of present day currency which do not seem to be included may still be located by comparing their first 12 notes in the thematic index at the end of the volume To make the vast array of material readily available an index allows readers to locate a tune by its melodic incipit by any of its titles or by the first line of its text Unfortunately the vast majority of Irish songs noted up to the end of the last century lack texts since the collectors were ignorant of the Irish language But almost every other facet is covered provenance tonality structure and variants **The Granger Collection** Bill Nicholson,2022-08-17 Adam Granger self published the first edition of Granger s Fiddle Tunes for Guitar in 1979 A second edition was published in 1994 Now in 2022 Mel Bay Publications presents the third edition of the book now in standard notation This 248 page book is the most extensive and best documented collection of fiddle tunes in existence and includes reels hoedowns hornpipes rags
