J. McEvoy, 2004 This volume honors the Rev Professor James McEvoy on the occasion of his sixtieth birthday The theory of friendship which has been one of McEvoy s major fields of research and publication used to be at the heart of the philosophical project and indissociable from it For Socrates philosophy was possible only as the pursuit of wisdom virtue and beauty in a community of friends engaged in an erotic quest for the good The present volume wants to make a contribution to the recovery of the friendship theme in its central importance to philosophy It contains eighteen contributions by colleagues and pupils of Professor McEvoy from three different continents who approach the topics of friendship love and charity from a variety of different angles Several contributions are devoted to the theory of friendship in ancient and medieval thought including its Christian appropriation Others analyze friendship in modern and contemporary philosophy while two contributors introduce cross cultural perspectives Hinduism and traditional African thought This volume will help to throw into higher relief the importance of the philosophy of friendship as well as stimulating further discussion on this intriguing topic      **Art and Text in Roman Culture** Jas Elsner, 1996-06-27 This is a collection of specially commissioned essays exploring the interface between words and images in the Roman world      **The Hero Reloaded** Rosario López Gregoris, Cristóbal Macías Villalobos, 2020-03-15 What was a hero in Classical Antiquity Why is it that their characteristics have transcended chronological and cultural barriers while they are still role models in our

days How have their features changed to be embodied by comic superheroes and film How is their essence vulgarized and turned into a mass consumption product What has happened with their literary and artistic representation along centuries of elitist Western culture This book aims at posing these and other questions about heroes allowing us to open a cultural reflection over the role of the classical world in the present its meaning in mass media and the capacity of the Greek and Roman civilizations to dialogue with the modern world This dialogue offers a glimpse into modern cultural necessities and tendencies which can be seen in several aspects such as the hero's vulnerability the archetype's banalization the possibility to extend the heroic essence to individuals in search of identities vital as well as gender or class identities In some products videogames heavy metal music our research enables a deeper understanding of the hero's more obvious characteristics such as their physical and moral strength All these tendencies contemporary and consumable contradictory with one another yet vigorous above all acquire visibility by means of a polyhedral vehicle which is rich in possibilities of rereading and reworking the Greco Roman hero In such a virtual and postmodern world as the one we inhabit it comes not without surprise that we still resort to an idea like the hero which is as old as the West
