The Vatican «Ostpolitik» 1958-1978 Autori Vari,2017-04-06T00:00:00+02:00 The appraisal of the political dialogue and negotiations with the communist regimes of East Central Europe commenced by the Holy See in the 1960s did not provoke only lively debates among contemporaries but remains to the present day one of the most debated questions of the twentieth century history should it be assessed as a fixed path to which no alternative existed or was it a flawed initiative which merely served the international legitimacy of the communist totalitarian system This volume enriches the results of earlier historiography with new perspectives and confirms inter alia that a black and white reading often based on a one sided use of sources of Ostpolitik is incorrect just as the critical assessment which frequently places local considerations at the forefront requires revision the at times apologetic outlook defending the Vatican s Eastern policy is also untenable Only a nuanced and source focused analysis of the ambitions of the Roman and Muscovite centers and of local politics and Churches as well as dialogue between the various research trends can help us to gain a more thorough knowledge of and make us

better understand those fixed paths upon which the Roman and local ecclesiastics of the era were forced to travel and which limited the possibility of success *Catalogue of the Books Relating to Architecture, Construction and Decoration* Boston Public Library,1894 *Catalogue of Scientific Papers (1800-1900): ser. 3 , 1874-1883* Royal Society (Great Britain),1896

Dalin,2010-03-16 In the brutal fight that has raged in recent years over the reputation of Pope Pius XII leader of the Catholic Church during World War II the Holocaust and the early years of the Cold War the task of defending the Pope has fallen primarily to reviewers These reviewers formulated a brilliant response to the attack on Pius but their work was scattered in various newspapers magazines and scholarly journals making it nearly impossible for the average reader to gauge the results In *The Pius War* Weekly Standard s Joseph Bottum has joined with Rabbi David G Dalin to gather a representative and powerful sample of these reviews deliberately chosen from a wide range of publications Together with a team of professors historians and other experts the reviewers conclusively investigate the claims attacking Pius XII *The Pius War* and a detailed annotated bibliography that follows will prove to be a definitive tool for scholars and students destined to become a major resource for anyone interested in questions of Catholicism the Holocaust and World War II **Dizionario di erudizione storico-ecclesiastica da s. and other bodies applying the law The characteristic feature of this transplantation of law is the borrowing by the legislative and judicial authorities of the State of various norms both of a strictly religious nature and those arising from the law of the Italian Republic the European Union the norms of international law and their creative use to produce a distinct system of law It is this creative use that constitutes the essence of the reception of law in the Vatican City State The book determines similarities and differences between the reception of law in the Vatican City State and other examples of reception of law including the implementation of European Union law by individual Member States the relationship between the reference by the Vatican legislator to the axiological foundations of the legal order and the role of legal principles in secular legislation how the confessional character of the Vatican City State affects the content of legal norms applicable in the State and whether this mechanism can be applied in secular states The book will be of interest to academics and researchers working in the areas of Law and Religion Canon Law and Legal Philosophy *Catalogue of the Petrarch Collection Bequeathed by Willard Fiske* Cornell University.
