Catholic Progressives in England after Vatican II Jay P. Corrin, 2013-11-30 In Catholic Progressives in England after Vatican II Jay P Corrin traces the evolution of Catholic social and theological thought from the end of World War II through the 1960s that culminated in Vatican Council II He focuses on the emergence of reformist thinking as represented by the Council and the corresponding responses triggered by the Church s failure to expand the promises or expectations of reform to the satisfaction of Catholics on the political left especially in Great Britain The resistance of the Roman Curia the clerical hierarchy and many conservative lay men and women to reform was challenged in 1960s England by a cohort of young Catholic intellectuals for whom the Council had not gone far enough to achieve what they believed was the central message of the social gospels namely the creation of a community of humanistic socialism This effort was spearheaded by members of the English Catholic New Left who launched a path breaking journal of ideas called Slant What made Slant revolutionary was its success in developing a coherent philosophy of revolution based on a synthesis of the New Theology fueling Vatican II and the New Left s Marxist critique of capitalism Although the English Catholic New

Left failed to meet their revolutionary objectives their bold and imaginative efforts inspired many younger Catholics who had despaired of connecting their faith to contemporary social political and economic issues Corrin s analysis of the periodical and of such notable contributors as Terry Eagleton and Herbert McCabe explains the importance of Slant and its associated group within the context of twentieth century English Catholic liberal thought and action **Rome in Australia: The**

Communicating Catholicism Craig T. Maier,2016-09-12 Fr Thomas Reese has observed that American Catholic dioceses are simultaneously mysterious and essential to the institutional health and vitality of American Catholicism In recent years as American Catholicism increasingly finds itself embroiled in scandal and conflict this mysteriousness has given way to feelings of suspicion frustration and even contempt How can American dioceses navigate this complex and often hostile social cultural and political environment Several decades ago J Michael Sproule invited rhetorical and communication scholars to focus on institutions to increase our understanding of the profound role complex organizations play in contemporary life assess the purpose and significance of communication in pursuit of their missions and give a human face to the otherwise institutional voice of corporate suasion Following Sproule this book defines a new field called diocesan institutional rhetoric that strives to transform dioceses from structures characterized by closure and adversity into sites of hope full response able Spirit led opportunity Today rhetorical and communication issues emerge everywhere in American Catholicism Drawing together relevant literature in Catholic theology philosophy of communication and corporate communication scholarship as well as over twelve years experience working as a communication professional in a diocesan chancery this book helps diocesan leaders scholars and observers to think differently and more fruitfully about the future of American Catholic ecclesial leadership Faith in the family Alana Harris,2015-11-01 Drawing upon a multi disciplinary methodology employing diverse written sources material practices and vivid life histories Faith in the family seeks to assess the impact of the Second Vatican Council on the ordinary believer alongside contemporaneous shifts in British society

In Search of Foundations for African Catholicism Mika Vähäkangas, 2016-05-18 This study deals with the interaction between neo Thomism and African traditional thinking in Charles Nyamiti's theological methodology The approach of the study is groundbreaking as it is the first monograph published on the theological method of any African theologian The question about the position and relevance of Western philosophical theological systems in a non Western context also has a wider relevance concerning contextual theologies in general Nyamiti's theology is a germane and a fruitful choice for the study of this issue because of his programmatic attempt to build a coherent African Roman Catholic theological system His theology is also well known for its strong African flavor in elaborating theological questions within the framework of orthodox Roman Catholic doctrine
