Roman Palaeochristian Painting:

The Routledge Handbook of Early Christian Art Robin M. Jensen, Mark D. Ellison, 2018-05-20 The Routledge Handbook of Early Christian Art surveys a broad spectrum of Christian art produced from the late second to the sixth centuries. The first part of the book opens with a general survey of the subject and then presents fifteen essays that discuss specific media of visual art: catacomb paintings, sculpture, mosaics, gold glass, gems, reliquaries, ceramics, icons, ivories, textiles, silver, and illuminated manuscripts. Each is written by a noted expert in the field. The second part of the book takes up themes relevant to the study of early Christian art. These seven chapters consider the ritual practices in decorated spaces, the emergence of images of Christ's Passion and miracles, the functions of Christian secular portraits, the exemplary mosaics of Ravenna, the early modern history of Christian art and archaeology studies, and further reflection on this field called early Christian art. Each of the volume's chapters includes photographs of many of the objects discussed, plus bibliographic notes and recommendations for further reading. The result is an invaluable introduction to and appraisal of the art that developed out of the spread of Christianity through the late antique world. Undergraduate and graduate students of late classical, early Christian, and Byzantine culture, religion, or art will find it an accessible and insightful orientation to the field. Additionally, professional academics, archivists, and curators working in these areas will also find it valuable as a resource for their own research, as well as a textbook or reference work for their students.

Early Christian Painting Pierre Du Bourguet, 1966 A book dedicated to the study of early Christian painting.

Roman Art Donald Emrys Strong, Jocelyn M. C. Toynbee, Roger Ling, 1995-01-01 First published in 1976, this standard work on the subject traces the development of Roman art from its beginnings to the end of the fourth century AD, embracing the monuments of the Republic and then of the later Roman empire, demonstrating how all the arts of a given period combine to mirror its social, cultural, and ideological character. This new edition includes an emended text with full notes and references and an updated bibliography.

The Art of the Roman Empire Jas Elsner, 2018-05-02 The passage from Imperial Rome to the era of late antiquity, when the Roman Empire underwent a religious conversion to Christianity, saw some of the most significant and innovative developments in Western culture. This stimulating book investigates the role of the visual arts, the great diversity of paintings, statues, luxury arts, and masonry as both reflections and agents of those changes. Jas Elsner's ground-breaking account discusses both Roman and early Christian art in relation to such issues as power, death, society, acculturation, and religion. By examining questions of reception, viewing, and the culture of spectacle alongside the more traditional art historical themes of imperial patronage and stylistic change, he presents a fresh and challenging interpretation of an extraordinarily rich cultural crucible in which many fundamental developments of later European art had their origins. This second edition includes a new discussion of the Eurasian context of Roman art, an updated bibliography, and new full-colour illustrations.

Art and the Roman Viewer Jas Elsner, 1995 Art and the Roman Viewer presents a fresh analysis of a major intellectual problem in the

history of art why did the arts of Late Antiquity move away from classical naturalism towards spiritual abstraction Arguing from a close examination of ancient art images and texts Jas Elsner shows how an understanding of Roman viewing practices greatly deepens our insight into this fundamental transformation The sophisticated arts of the early empire such as Pompeian painting sculpted reliefs and silverware entertain the potential for irony parody and deconstruction By contrast the symbolic arts of the Christian empire notably the mosaics of Ravenna eschew irony while complexity remains indeed intensifies as multiple meanings compete to enrich a fundamentally sacred truth By addressing the subtleties inherent in ancient viewing this study embarks on a quest to enrich our understanding of an era of profound artistic change **Weaving in Stones:**

Michael Grant,2015-03-04 Byzantium was dismissed by Gibbon in the Decline and Fall of the Roman Empire and his Victorian successors as a decadent dark oriental culture given up to intrigue forbidden pleasure and refined cruelty This great empire founded by Constantine as the seat of power in the East began to flourish in the fifth century AD after the fall of Rome yet its culture and history have been neglected by scholars in comparison to the privileging of interest in the Western and Roman Empire Michael Grant s latest book aims to compensate for that neglect and to provide an insight into the nature of the Byzantine Empire in the fifth century the prevalence of Christianity the enormity and strangeness of the landscape of Asia Minor and the history of invasion prior to the genesis of the empire Michael Grant s narrative is lucid and colourful as always lavishly illustrated with photographs and maps He successfully provides an examination of a comparatively unexplored area and constructs the history of an empire which rivals the former richness and diversity of a now fallen Rome **The**
