Rome the Cosmopolis Catharine Edwards,Greg Woolf,2006-11-02 Rome stands today for an empire and for a city The essays gathered in this volume explore some of the many ways in which the two were interwoven Rome was fed beautified and enriched by empire just as it was swollen polluted infected and occupied by it Empire was paraded in the streets of Rome and exhibited in the city s buildings Empire also made the city ineradicably foreign polyglot an alien capital and a focus for un Roman activities The city was where the Roman cosmos was most concentrated and so was most contested Deploying a range of methodologies on materials ranging from Egyptian obelisks to human skeletal remains via Christian art and Latin poetry the contributors to this volume weave a series of pathways through the world city exploring the different kinds of

centrality Rome had in the empire The result is a startlingly original picture of both empire and city **The Lure of the Arena** Garrett G. Fagan, 2011-02-17 Were the Romans who watched brutal gladiatorial games all that different from us This book argues they were not Housing the New Romans Katharine T. von Stackelberg, Elizabeth Macaulay-Lewis, 2017-06-01 In the last twenty years reception studies have significantly enhanced our understanding of the ways in which Classics has shaped modern Western culture but very little attention has been directed toward the reception of classical architecture Housing the New Romans Architectural Reception and Classical Style in the Modern World addresses this gap by investigating ways in which appropriation and allusion facilitated the reception of Classical Greece and Rome through the requisition and redeployment of classicizing tropes to create neo Antique sites of dwelling in the 19th and early 20th centuries The volume across nine essays will cover both European and American iterations of place making including Sir John Soanes house in London the Hotel de Beauharnais in Paris and the Getty Villa in California By focusing on structures and places that are oriented towards private life houses hotels clubs tombs and gardens the volume directs the critical gaze towards diverse and complex sites of curatorial self fashioning The goal of the volume is to provide a multiplicity of interpretative frameworks e g object agency enchantment hyperreality memory infrastructure that may be applied to the study of architectural reception This critical approach makes Housing the New Romans the first work of its kind in the emerging field of architectural and landscape reception studies and in the hitherto textually dominated field of classical reception **Mapping Gender in Ancient Religious Discourses** Todd C. Penner, Caroline Vander Stichele, 2007 A collection of essays on early Christian Jewish and Greco Roman religious discourses in antiquity focusing on the construction of gender in relationship to broader cultural and religious themes argumentation and identity formation in the early centuries of the common era *Acts of the Apostles and the Rhetoric of Roman Imperialism* Drew W. Billings, 2017-07-25 Billings demonstrates that Acts was written in conformity with broader representational trends found on imperial monuments and in the epigraphic record of the early second century **Numismatics and Greek Lexicography** Michael P. Theophilos, 2019-11-28 Michael P Theophilos explores the fascinating variety of numismatic contributions to Greek lexicography pertaining to lexicographic studies of the Second Temple period in general and the New Testament in particular Theophilos considers previous scholarly attempts to grapple with and incorporate critical numismatic material into the emerging discipline of Greek lexicography including foundational work by F Preisigke and E Kiessling before outlining his own methodological approach Theophilos then examines the resources available for engaging with the numismatic material and presents a series of specific case studies throughout the New Testament material His carefully annotated images of coins draw readers in to a greater understanding of the material culture of the Greco Roman world and how this impacted upon the Greek language and the New Testament **The First Urban Churches 3** James R. Harrison, L. L. Welborn, 2018-02-23 Investigate the challenges threats and opportunities experienced by the early church in Ephesus The third installment of The

First Urban Churches focuses on the urban context of Christian churches in first century Ephesus As with previous volumes contributors illustrate how an investigation of the material evidence will help readers understand properly the challenges threats and opportunities that the early Ephesian believers faced in that city Brad Bitner James R Harrison Michael Haxby Fredrick J Long Guy M Rogers Michael Theophilos Paul Trebilco and Stephan Witetschek demonstrate decisively the difference that such an approach makes in grappling with the meaning and context of the New Testament writings particularly Ephesians Acts and Revelation Features Analysis of urban evidence of the inscriptions papyri archaeological remains coins and iconography Proposed reconstructions of the past and its social religious and political significance A nuanced informed portrait of ancient urban life in Ephesus

Hitler's State Architecture Alex Scobie,1990 Adolf Hitler admired ancient Rome as the crystallization point of a world empire a capital with massive public monuments that reflected the supremacy of the State and the political might of the ancient world's master race He also admired the way Mussolini turned the monuments of imperial Rome into validatory symbols of Fascism Hitler planned a Reich that would be as durable as the Roman Empire Its capital Berlin would surpass the architectural magnificence of ancient Rome before the advent of Christianity as its official religion This book examines Hitler's views on Roman imperialism town planning and architecture and shows how Albert Speer though a self confessed student of Doric architecture planned and sometimes built structures that were intended to rival such monuments as Nero's Golden House Hadrian's Pantheon and the Stadium of Herodes Atticus at Athens Other architects such as Ludwig Ruff and Cesar Pinnau were to plan structures inspired by the Colosseum and the Baths of Caracalla The ancient Roman obsession with order discipline and the domination of the environment is clearly reflected in the town plans and public buildings conceived by Hitler and his architects We see that neoclassical state architecture in Nazi Germany was intended to signify more than stability and the persistence of tradition It was only one aspect of the Nazi attempt to re create a pagan totalitarian state based on clearly defined forms of hierarchy that divided society into slaves and slave owners those with and those without human rights

antiquity **An Introduction to the Ancient World** , Y Max Ostrovsky,2007 Combining history archaeology sociology political science and agricultural studies Y Arctg X The Hyperbola of the World Order presents a theory claiming that any political system with a firm agricultural foundation is pre destined to reach political unity and turn this state into the norm Using the circumscription theory the idea that the phenomenon of political unification was most explicit in areas of the world where agricultural land was in short supply and exhaustive historical evidence this timely work proposes the emergence of a single world state **Introduction to the New Testament** Helmut Koester,1995 *History, Culture, and Religion of the Hellenistic Age* Helmut Koester,2012-10-25 While the first American edition of this book published more than a decade ago was a revised translation of the German book Einf hrung in das Neue Testament this second edition of the first volume of the Introduction to the New Testament is no longer dependent upon a previously published German work The author hopes that for the student of the New Testament it is a useful introduction into the many complex aspects of the political cultural and religious developments that characterized the world in which early Christianity arose and by which the New Testament and other early Christian writings were shaped
