

CAESAR'S MESSIAH

THE ROMAN CONSPIRACY TO INVENT JESUS

Roman Conspiracy

John D. Grainger

Roman Conspiracy:

Conspiracy Narratives in Roman History Victoria Emma Pagán, 2013-09-26 Conspiracy is a thread that runs throughout the tapestry of Roman history. From the earliest days of the Republic to the waning of the Empire, conspiracies and intrigues created shadow worlds that undermined the openness of Rome's representational government. To expose these dark corners and restore a sense of order and safety, Roman historians frequently wrote about famous conspiracies and about how their secret plots were detected and the perpetrators punished. These accounts reassured readers that the conspiracy was a rare exception that would not happen again if everyone remained vigilant. In this first book-length treatment of conspiracy in Roman history, Victoria Pagán examines the narrative strategies that five prominent historians used to disclose events that had been deliberately shrouded in secrecy and silence. She compares how Sallust, Livy, and Tacitus constructed their accounts of the betrayed Catilinarian, Bacchanalian, and Pisonian conspiracies. Her analysis reveals how a historical account of a secret event depends upon the transmittal of sensitive information from a private setting to the public sphere and why women and slaves often proved to be ideal transmitters of secrets. Pagán then turns to Josephus's and Appian's accounts of the assassinations of Caligula and Julius Caesar to explore how the two historians maintained suspense throughout their narratives despite readers' prior knowledge of the outcomes. *Crime, Society and the Law in Renaissance Italy* Trevor

Dean, K. J. P. Lowe, 1994-04-14 Drawing on a wide body of internationally renowned scholars, including a core of Italians, this volume focuses on new material and puts crime and disorder in Renaissance Italy firmly in its political and social context. All stages of the judicial process are addressed, from the drafting of new laws to the rounding up of bandits. Attention is paid both to common crime and to more historically specific crimes such as sumptuary laws. Attempts to prevent or suppress disorder in private and public life are analysed, and many different types of crime, from the sexual to the political and from the verbal to the physical, are considered. In sum, the volume aims to demonstrate the fundamental importance of crime and disorder for the study of the Italian Renaissance. It is the only single-volume treatment available of the subject in English. Other books have studied crime in a single city or single types of crime, but few have presented a cross-section of articles which deploy diverse methodological approaches in material from many parts of the peninsula. **The Origins Of Western Warfare**

Doyne Dawson, 2018-02-02 What is the source of the uniquely Western way of war, the persistent militarism that has made Europe the site of bloodshed throughout history and secured the dominance of the West over the rest of the world? The answer, Doyne Dawson persuasively argues in this groundbreaking new book, is to be found in the very bedrock of Western civilization: ancient Greece and Rome. *The Origins of Western Warfare* begins with an overview of primitive warfare, showing how the main motivations of prehistoric combat—revenge and honor—set the tone for Greek thinking about questions of war and morality. These ideas, especially as later developed by the Romans, ensured the emergence of a distinctive Western tradition of warfare: dynamic, aggressive, and devastatingly successful when turned against non-Western cultures. Dawson

identifies key factors that led Western culture down this particular path First the Greeks argued that war could be justified as an instrument of human and divine justice securing the social and cosmic order Second war was seen as a rational instrument of foreign policy This probably the most original contribution of the Greeks to military thought was articulated as early as the fifth century b c Finally Greek military thought was dominated by the principle of civic militarism in which the ideal state is based upon self governing citizens trained and armed for war The Roman version of civic militarism became thoroughly imperial in spirit and in general the Romans successfully modified these Greek ideas to serve their expansionist policies At the end of antiquity these traditions were passed on to medieval Europe forming the basis for the just war doctrines of the Church Later in early modern Europe they were fully revived systematized and given a basis in natural law to the benefit of absolute monarchs For centuries this neoclassical synthesis served the needs of European elites and echoes of it are still heard in contemporary justifications for war Providing a careful reconsideration of what the classical sources tell us about Western thinking on fundamental questions of war and peace *The Origins of Western Warfare* makes a lasting contribution to our understanding of one of the most persistent and troubling aspects of Western culture *The Historians' History of the World* Henry Smith Williams,1907 *The French Nobility in the Eighteenth Century* Jay M. Smith,2006-10-03 Historians have long been fascinated by the nobility in pre Revolutionary France What difference did nobles make in French society What role did they play in the coming of the Revolution In this book a group of prominent French historians shows why the nobility remains a vital topic for understanding France s past *The French Nobility in the Eighteenth Century* appears some thirty years after the publication of the most sweeping and influential revisionist assessment of the French nobility Guy Chaussinand Nogaret s *La noblesse au dix huiti me si cle* The contributors to this volume incorporate the important lessons of Chaussinand Nogaret s revisionism but also reexamine the assumptions on which that revisionism was based At the same time they consider what has been gained or lost through the adoption of new methods of inquiry in the intervening years Where in other words should the nobility fit into the twenty first century s narrative about eighteenth century France *The French Nobility in the Eighteenth Century* will interest not only specialists of the eighteenth century the French Revolution and modern European history but also those concerned with the differences in and the developing tensions between the methods of social and cultural history In addition to the editor the contributors are Rafe Blaufarb Gail Bossenga Mita Choudhury Jonathan Dewald Doina Pasca Harsanyi Thomas E Kaiser Michael Kwass Robert M Schwartz John Shovlin and Johnson Kent Wright *The Reformation World* Andrew Pettegree,2000 The most ambitious one volume survey of the Reformation yet this book is beautifully illustrated throughout The strength of this work is its breadth and originality covering the Church art Calvinism and Luther *Contemporary Esotericism* Egil Asprem,Kennet Granholm,2014-09-11 The study of contemporary esoteric discourse has hitherto been a largely neglected part of the new academic field of Western esotericism *Contemporary Esotericism* provides a broad overview and assessment of the complex world of Western esoteric

thought today Combining historiographical analysis with theories and methodologies from the social sciences the volume explores new problems and offers new possibilities for the study of esoterica Contemporary Esotericism studies the period since the 1950s but focuses on the last two decades The wide range of essays are divided into four thematic sections the intricacies of esoteric appeals to tradition the role of popular culture modern communication technologies and new media in contemporary esotericism the impact and influence of esotericism on both religious and secular arenas and the recent demarginalization of the esoteric in both scholarship and society

Cobbett's Parliamentary Debates Great Britain. Parliament,1859 **Hansard's Parliamentary Debates** Great Britain. Parliament,1875 **The Parliamentary Debates (official Report[s])** ... Great Britain. Parliament,1851 *The Jew of Verona* Antonio Bresciani,1854 *Shakespeare and the Problem of Meaning* Norman Rabkin,1981-10 Rabkin selects *The Merchant of Venice* Henry V Antony and Cleopatra Julius Caesar Richard III Macbeth Coriolanus *The Winter's Tale* and *The Tempest* as the plays on which to build his argument and he teaches us a great deal about these plays To convince the unbelieving that that the plays do mean but that the meaning is coterminous with the experience of the plays themselves Rabkin finds a strategy more subtle than thesis and rational argument a strategy designed to make us see for ourselves why thematic descriptions are inadequate see for ourselves that the plays mean more than and statement about them can ever suggest Barbara A Mowat Auburn University

Norman Rabkin's new book is a very different kind of good book Elegantly spare sharp undogmatic The relationship between the perception of unity and the perception of artistic achievement is a basic conundrum and it is one that Mr Rabkin has courageously placed at the center of his discussion G K Hunter Sewanee Review Rabkin's book is brilliant taut concise beautifully argued and sensitively responsive to the individuality of particular Shakespeare plays Anne Barton New York Review of Books *Wicca and the Christian Heritage* Joanne Pearson,2007-05-03 Pearson uncovers the untold history of Wicca and analyzes the role of Christianity in its development

Rome in Australia Christopher Dowd,2008-07-15 Based on extensive archival research this study shows how in the age of ultramontaniam nineteenth century Australian Catholicism was shaped by successive Roman interventions in local conflicts sometimes ill informed and harsh but tending towards a judicious balance of forces

An Academic Life Over Continents Hercules Booyesen,2007 *A Fatal Thing Happened on the Way to the Forum* Emma Southon,2021-03-09 An entertaining and informative look at the unique culture of crime punishment and killing in Ancient Rome In Ancient Rome all the best stories have one thing in common murder Romulus killed Remus to found the city Caesar was assassinated to save the Republic Caligula was butchered in the theater Claudius was poisoned at dinner and Galba was beheaded in the Forum In one 50 year period 26 emperors were murdered But what did killing mean in a city where gladiators fought to the death to sate a crowd In *A Fatal Thing Happened on the Way to the Forum* Emma Southon examines a trove of real life homicides from Roman history to explore Roman culture including how perpetrator victim and the act itself were regarded by ordinary people Inside Ancient Rome's darkly fascinating history we

see how the Romans viewed life death and what it means to be human **A Medieval Caesar** Jeanette M. A. Beer,1976
 The London and Paris Observer ,1839 **outlines of ancient history** , **The League of the Aitolians** John D. Grainger,2018-07-17 The Aitolians have had a bad press regarded as pirates and brigands and their state as a pirate state built on terrorist tactics This book treats them as what they really were a normal Hellenistic state They constructed an original and successful polity which provided peace and prosperity for its inhabitants and played a major part in Greek history for a century and a half The approach is chronological beginning with the origin and formation of the league and its early expansion and then dealing with its long duel with Macedon and concluding with its destruction by Rome This is the first full account of the history of the league which approaches it as an independent state rather than as the enemy of other states and peoples It complements the standard histories of the other Hellenistic states

Reviewing **Roman Conspiracy**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is really astonishing. Within the pages of "**Roman Conspiracy**," an enthralling opus penned by a highly acclaimed wordsmith, readers embark on an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Throughout this assessment, we shall delve into the book's central motifs, appraise its distinctive narrative style, and gauge its overarching influence on the minds of its readers.
