has a thematic section      **The People's Princes** John P. McCormick, 2025-08-18 A new window into Machiavelli's idea of virtuous leadership and the appropriate relationship among leaders, common citizens and elites. For more than a decade John P. McCormick has been at the forefront of a new wave of scholarship that reveals the anti-elitist and democratic commitments at the center of Niccolò Machiavelli's political thought. In *The People's Princes* McCormick turns his attention to Machiavelli's conception of virtuous leadership and Machiavelli's views on the appropriate relationships among individual leaders, common citizens and elites. While most people think of Machiavelli as a cynical advisor of tyrants, a man who counseled leaders to aggrandize themselves by any means necessary at the expense of their subjects and citizens, *The People's Princes* fundamentally challenges this understanding. Drawing from Machiavelli's major political works, a normative standard for leadership that emphasizes the mutually reinforcing relationship of civic leadership and popular government, McCormick delineates Machiavelli's method of political exemplarity by analyzing in detail the Florentine's case studies of leaders and their interactions with populaces throughout ancient and modern history. McCormick argues that Machiavelli suggests that civic leaders should enhance their reputations by providing for their own eventual obsolescence; specifically, they should establish institutional means through which common citizens rule themselves more directly and substantively. *The People's Princes* invites readers to consider Machiavelli anew and also reflect on insights that remain relevant in the twenty-first century amidst growing concerns that political leaders are not accountable or responsive to popular majorities.      [History of Rome and of the Roman People from Its Origin to the Establishment of the Christian Empire](#) Victor Duruy, 1884      [The Roman History from the Foundation of Rome to the Battle of Actium](#) Charles Rollin, 1754      **A History of the Roman People** Fritz M. Six sections running in parallel to the structure and content of Volume I explore the topics such as the building of the empire, Pax Romana, the new empire of Diocletian and Constantine, and barbarian invasions and the fall of the Western Empire.
