Clarke, 2023-09-01 What did sex mean to the ancient Romans In this lavishly illustrated study John R Clarke investigates a rich assortment of Roman erotic art to answer this question and along the way he reveals a society quite different from our own Clarke reevaluates our understanding of Roman art and society in a study informed by recent gender and cultural studies and focusing for the first time on attitudes toward the erotic among both the Roman non elite and women This splendid volume is the first study of erotic art and sexuality to set these works many newly discovered and previously unpublished in their ancient context and the first to define the differences between modern and ancient concepts of sexuality using clear visual evidence Roman artists pictured a great range of human sexual activities far beyond those mentioned in classical literature including sex between men and women men and men women and women men and boys threesomes foursomes and more

Roman citizens paid artists to decorate expensive objects such as silver and cameo glass with scenes of lovemaking Erotic works were created for and sold to a broad range of consumers from the elite to the very poor during a period spanning the first century B C through the mid third century of our era This erotic art was not hidden away but was displayed proudly in homes as signs of wealth and luxury In public spaces artists often depicted outrageous sexual acrobatics to make people laugh Looking at Lovemaking depicts a sophisticated pre Christian society that placed a high value on sexual pleasure and the art that represented it Clarke shows how this culture evolved within religious social and legal frameworks that were vastly different from our own and contributes an original and controversial chapter to the history of human sexuality
