Romanian Civilization, 2000

Securing the Communist State Liesbeth van de Grift, 2012 From Berlin to Bucharest from Warsaw to Sofia Soviet tanks crossed national borders across East Central Europe at the end of the Second World War The arrival of the Red Army marked an important turn in history Within only a few years the often unpopular communist parties developed into political organizations with mass followings They managed to seize power eliminate political opposition to their rule and purge the state apparatus of undesirable personnel In *Securing the Communist State* Liesbeth van de Grift provides a new understanding of these organizations using recently disclosed material from the communist archives in Berlin and Bucharest She reveals how these communist parties gained control over the security apparatus after 1945 in East Central Europe from a transitional justice perspective focusing on purges and personnel policies This book shows that the personal break after 1945 was not as radical as is often thought

Cold War Spencer C. Tucker, Priscilla Roberts, 2007-09-10 The most comprehensive and up to date student reference on the Cold War offering expert coverage of all aspects of the conflict in a richly designed format fully illustrated to give students a vivid sense of life in all countries affected by the war ABC CLIO is proud to announce the latest addition to its widely acclaimed legacy of historical reference works for students Under the direction of internationally known expert Spencer Tucker *Cold War A Student Encyclopedia* captures the vast scope day to day drama and lasting impact of the Cold War more clearly and powerfully than any other student resource ever published Ranging from the end of the Second World War to the collapse of the Soviet Union *Cold War A Student Encyclopedia* offers vivid portrayals of leading individuals significant battles economic developments societal cultural events changes in military technology and major treaties and diplomatic agreements The nearly 1 100 entries plus topical essays and a documents volume draw heavily on recently opened Russian Eastern European and Chinese archives Enhanced by a rich program of maps and images it is a comprehensive current and accessible student reference on the dominant geopolitical phenomenon of the late 20th century

Cold War Perceptions Elena Dragomir, 2015-01-12 This book investigates Romania's early 1960s change in policy towards the Soviet Union focusing on two questions in particular namely what actually changed and why this change occurred Drawing from recently declassified archive materials this book utilises a perceptual approach and a paradigm which argues that post war Romania allied not against the threat but with the perceived threat the USSR Focusing on the proximate causes triggering this policy change it investigates the emergence of Romania's opposition to the USSR predominantly through two case studies the CMEA reform process and the Sino Soviet dispute The book focuses on the period between 1960 and 1964 between Romania's first categorical albeit non public and indirect opposition to the USSR and the issuing of the declaration marking Romania's first public and official although indirect acknowledgement of disagreements with the USSR This book examines the proximate causes of Romania's policy change towards the Soviet Union and their roots in Romanian leaders' perceptions of the threats posed to the nation's interests by various specific Soviet policies such as the attempts to impose

the CMEA integration or a strong collective riposte against China Through its findings the book provides new research perspectives on Romanian Soviet post war relations and on the role of the leaders beliefs in Romania s foreign policy choices It will also serve as a starting point for a more detailed understanding of the unusual present day relations between Romania and the Russian Federation *A Marketplace Without Jews* Rory Yeomans,2024-11-11 This book examines the economics of everyday life and the Final Solution in Southeastern Europe specifically the role that the mass confiscation of Jewish property and exclusion of Jews as well as other undesired population groups from the national marketplace in Southeastern Europe played in transforming economic life and social relations It aims to understand how ordinary people in the region responded as beneficiaries bystanders perpetrators rescuers and above all victims to Aryanization and how regimes and governments adapted its basic principles to their specific national contexts and ideological and ethnic agendas Aryanization appeared in some of its most radical accelerated and yet idiosyncratic forms in Southeastern Europe representing a staging post or parallel process on the journey to the Final Solution At the same time it represented a modernizing project through which states on the periphery of Hitler s new Europe could not only catch up with the rest of the continent but also seek to gain legitimacy among their own citizens by using systems of mass robbery to satisfy consumer demand and aspirations of social mobility in economies of want and scarcity This volume is aimed at scholars and students of the Second World War and European fascism genocide and occupation politics Jewish studies and Southeastern Europe *Six Months in 1945* Michael Dobbs,2012-10-16 When Franklin Roosevelt Winston Churchill and Joseph Stalin met in Yalta in February 1945 Hitler s armies were on the run and victory was imminent The Big Three wanted to draft a blueprint for a lasting peace but instead they set the stage for a forty four year division of Europe into Soviet and Western spheres of influence After fighting side by side for nearly four years their political alliance was beginning to fracture Although the most dramatic Cold War confrontations such as the Berlin airlift were still to come a new struggle for global hegemony had got underway by August 1945 when Truman used the atomic bomb on Hiroshima *Six Months in 1945* brilliantly captures this momentous historical turning point while illuminating the aims and personalities of larger than life political giants **From the Vanguard to the Margins: Workers in Hungary, 1939 to the Present** Mark Pittaway,2014-06-05 *From the Vanguard to the Margins* is dedicated to the work of the late British historian Dr Mark Pittaway 1971-2010 a prominent scholar of post war and contemporary Central and Eastern Europe CEE Breaking with orthodox readings on Eastern bloc regimes which remain wedded to the totalitarianism paradigm of the Cold War era the essays in this volume shed light on the contradictory historical and social trajectory of real socialism in the region Mainstream historiography has presented Stalinist parties as omnipotent effectively stripping workers and society in general of its relative autonomy Building on an impressive amount of archive material Pittaway convincingly shows how dynamics of class gender skill level and rural versus urban location shaped politics in the period The volume also offers novel insights on historical and sociological roots of fascism in Hungary and the

politics of legitimacy in the Austro Hungarian borderlands The Encyclopedia of the Cold War Spencer C.

Tucker, 2007-09-12 A comprehensive five volume reference on the defining conflict of the second half of the 20th century covering all aspects of the Cold War as it influenced events around the world The conflict that dominated world events for nearly five decades is now captured in a multivolume work of unprecedented magnitude from a publisher widely acclaimed for its authoritative military and historical references Under the direction of internationally known military historian Spencer Tucker ABC CLIO's The Encyclopedia of the Cold War A Political Social and Military History offers the most current and comprehensive treatment ever published of the ideological conflict that not so long ago enveloped the globe From the Second World War to the collapse of the Soviet Union The Encyclopedia of the Cold War provides authoritative information on all military conflicts battlefield and surveillance technologies diplomatic initiatives important individuals and organizations national histories economic developments societal and cultural events and more The nearly 1 300 entries plus topical essays and an extraordinarily rich documents volume draw heavily on recently opened Russian Eastern European and Chinese archives The work is a definitive cornerstone reference on one of the most important historical topics of our time **A**

History of Political Trials John Laughland, 2008 This is a formidable and well documented counterblast to a developing modern orthodoxy expressing a point of view that many readers will not even have suspected existed let alone read Anthony Daniels Spectator A useful and controversial contribution to the debate about victor's justice and a valuable warning that international war crimes tribunals need to operate with precision and care Jonathan Steele Guardian The rapid development of the use of international courts and tribunals to try heads of state for genocide and other crimes against humanity has been welcomed by most people because they think that the establishment of international tribunals and courts to try notorious dictators represents a triumph of law over impunity In A History of Political Trials John Laughland takes a very different and controversial view namely that political trials are inherently against the rule of law and almost always involve the abuse of process as well as being seriously hypocritical By means of detailed consideration of the trials of figures as disparate as Charles I Louis XVI Erich Honecker and Saddam Hussein Laughland shows that the guilt of the accused has always been assumed in advance that the judges are never impartial that the process is always unfair and biased in favor of the prosecution that the defense is not permitted to use all the arguments at its disposal and that often the accusers have done exactly what they accuse the defence of having done All the trials he recounts were marked by arbitrariness and injustice often gross injustice Although the chapters are short and easy to read they are the fruit of formidable erudition and wide reading The general reader will be forced by this book to re-examine the ideas on this subject and will be much less sanguine about the possibility of bringing dictators and other leaders to genuine justice John Laughland lives in Bath and is an author journalist and has been a university lecturer in France He has published The Tainted Source The Undemocratic Origins of the European Idea Time Warner Paperbacks and has written for the Spectator the Economist and The New York Times Table of
