[The Origins of Cultural Differences and Their Impact on Management](#) Jack Scarborough, 1998-02-18 In cross cultural settings the author suggests it is not enough to know that behavior differs across cultures but also how differences in values drive behaviors To truly understand the differences among cultures one must understand their origins how they emerged on the world stage the various economic political physical social and religious forces that shaped them This is a unique book in that it traces the antecedents of people s behavior and shows readers why cultures differ and includes suggestions for adjusting to these differences Engrossing and revealing Scarborough s book will be essential for corporate management and others involved in international commerce but also for their counterparts in the public sector who also understand why it is necessary to get along with people from other cultures in the pursuit of mutually beneficial goals Scarborough says There may be no greater more significant void in the knowledge of educated adults than cross cultural understanding My book advances that understanding by explaining the reasons why behavior attitudes beliefs and values differ across specific cultures Its premise is that people who interact with others with different cultural backgrounds whether in international or culturally diverse domestic settings are much better prepared if they understand the reasons why people act talk think and feel as they do Instead of being left with just lessons on behavior to be learned by rote readers will be able to rely on a substantive understanding of the cultures and societies in which they find themselves as well as their own good common sense and in

The Imam of the Christians Philip Wood, 2025-07-15 How Christian leaders adapted the governmental practices and political thought of their Muslim rulers in the Abbasid caliphate. The Imam of the Christians examines how Christian leaders adopted and adapted the political practices and ideas of their Muslim rulers between 750 and 850 in the Abbasid caliphate in the Jazira, modern eastern Turkey and northern Syria. Focusing on the writings of Dionysius of Tel Mahre, the patriarch of the Jacobite church, Philip Wood describes how this encounter produced an Islamicate Christianity that differed from the Christianities of Byzantium and western Europe in far more than just theology. In doing so, Wood opens a new window on the world of early Islam and Muslims' interactions with other religious communities. Wood shows how Dionysius and other Christian clerics, by forging close ties with Muslim elites, were able to command greater power over their coreligionists such as the right to issue canons regulating the lives of lay people, gather tithes, and use state troops to arrest opponents. In his writings, Dionysius advertises his ease in the courts of Abd Allah ibn Tahir in Raqqa and the caliph al Ma'mun in Baghdad, presenting himself as an effective advocate for the interests of his fellow Christians because of his knowledge of Arabic and his ability to redeploy Islamic ideas to his own advantage. Strikingly, Dionysius even claims that like al Ma'mun, he is an imam since he leads his people in prayer and rules them by popular consent. A wide-ranging examination of Middle Eastern Christian life during a critical period in the development of Islam, *The Imam of the Christians* is also a case study of the surprising workings of cultural and religious adaptation.
