Masculinity, Anti-Semitism and Early Modern English Literature Matthew Biberman, 2017-03-02 Offering a profound re assessment of the conceptual rhetorical and cultural intersections among sexuality race and religion in English Renaissance texts this study argues that antisemitism is a by product of tensions between received Classical conceptions of masculinity and Christianity's strident critique of that ideal Utilizing works by Shakespeare Milton Marlowe and others Biberman illustrates how modern antisemitism develops as a way to stigmatize hypermasculine behavior thus facilitating the transformation of the culture's gender ideal from knight to businessman Subsequently the function of antisemitism changes becoming instead the mark of effeminate behavior Consequently the central antisemitic image changes from Jew Devil to Jew Sissy Biberman traces this shift's repercussions both in renaissance culture and what followed it He also contends that as a result of this linkage between Jewishness and the limits of masculine behavior the image of the Jewish woman remains especially unstable In concluding Biberman argues that the Gothic resurrects the Jew Devil bequeathing it to the Nazis and

that the horror genre is often a rewriting of Renaissance discourse about Jews In the course of making this larger argument Biberman introduces a series of more limited claims that challenge the conventional wisdom within the field of literary studies First Biberman overturns the assumption that Jewishness and femininity are always associated in the cultural imagination of Western Europe Second Biberman provides the historical context needed to understand the emergence of the stereotype of the pathological Jewish woman Third Biberman revises the incorrect notion that divorce was not practiced in Renaissance England Fourth Biberman argues for the novel claim that serial monogamy in Western culture is a practice understood to possess a Jewish taint Fifth Biberman contributes a major advance in scholarship devoted to T S Eliot illustrating how Eliot s famous critical argument against Milton is an expression of his antisemitism and a coherent compliment to the antisemitic touches in his poetry Sixth in his discussion of Gothic literature Biberman introduces novel readings of Frankenstein and Dracula persuasively arguing that Mary Shelley s monster bears the mark of the Jew according to modern antisemitic discourse and that in Stoker both the vampire and the vampire killer represent Jews executing a scenario of self policing that was realized in the ghettos and the concentration camps Biberman s final contribution in this study is to provide a definition for postmodern antisemitism and to apply it to various contemporary incidents including September 11th and the Arab Israeli conflict

Representing the National Landscape in Irish Romanticism Julia M. Wright, 2014-04-22 Ireland is a country which has come to be defined in part by an ideology which conflates nationalism with the land From the Irish Revival s celebration of the Irish peasant farmer as the ideal Irishman to the fierce history of land claim battles between the Irish and their colonizers notions of the land have become particularly bound up with conceptions of what Ireland is and what it is to be Irish In this book Wright considers this fraught relationship between land and national identity in Irish literature In doing so she presents a new vision of the Irish national landscape as one that is vitally connected to larger geographical spheres By exploring issues of globalization international radicalism trade routes and the export of natural resources Wright is at the cutting edge of modern global scholarly trends and concerns In considering texts from the Romantic era such as Leslie s Killarney Edgeworth s Limerick Gloves and Moore s Irish Melodies Wright undercuts the nationalist myth of a people of the soil using the very texts which helped to construct this myth Reigniting the field of Irish Romanticism Wright presents original readings which call into question politically motivated mythologies while energizing nationalist conceptions that reflect transnational networks and mobility

F. C. Baur's Synthesis of Böhme and Hegel Corneliu Simut, 2014-10-16 In this book Professor Simu shows how Christian theology started to be understood as a Gnostic philosophy of religion in the thought of the 19th century scholar F C Baur Although Baur was seen traditionally as a theologian and biblical exegete Simu argues that he was in fact a philosopher of religion and it was his philosophical reading of Christian theology that informed his biblical preoccupations Specifically Baur's perspective on Christian theology was heavily influenced by Jakob Böhme's esoteric theosophy and Hegel's religious philosophy in some key issues such as creation Lucifer dualism and the connection between spirit and matter coupled with that between philosophy and religion

The legacy of John Polidori Sam George, Bill Hughes, 2024-10-01 John Polidori's novella *The Vampyre* 1819 is perhaps the most influential horror story of all time Frayling Polidori's story transformed the shambling mindless monster of folklore into a sophisticated seductive aristocrat that stalked London society rather than being confined to the hinterlands of Eastern Europe Polidori's Lord Ruthven was thus the ancestor of the vampire as we know it This collection explores the genesis of Polidori's vampire It then tracks his bloodsucking progeny across the centuries and maps his disquieting legacy Texts discussed range from the Romantic period including the fascinating and little known *The Black Vampyre* 1819 through the melodramatic vampire theatricals in the 1820s to contemporary vampire film paranormal romance and science fiction The essays emphasise the background of colonial revolution and racial oppression in the early

D. Cousins, Daniel Derrin, 2020-11-29 This is the first collection of essays since George Sherburn's landmark monograph *The Early Career of Alexander Pope* 1934 to reconsider how the most important and influential poet of eighteenth century Britain fashioned his early career The volume covers Pope's writings from across the reign of Queen Anne and just beyond It focuses in particular on his interaction with the courtly culture constellated round the Queen It examines for instance his representations of Queen Anne herself his portrayals of politics and patronage under her reign his negotiations with current literary theory with the classical tradition with chronologically distant yet also contemporaneous English poets with current thought on the passions and with membership of a religious minority In doing so it comprehensively reconsiders anew the ways in which Pope increasingly supportive of Anne's rule and mindful of the Virgilian rota sought at first to realise his authorial aspirations *Gendered Pathologies* Sondra Archimedes, 2005-09-08 *Gendered Pathologies* examines nineteenth century literary representations of the pathologized female body in relation to biomedical discourses about gender and society in Victorian England According to medical and scientific views of the period the woman who did not conform to the dictates of gender ideology was biologically speaking aberrant a deviation from the norm Yet although marginalized in a social sense the deviant woman was central as a literary and cultural trope Analyzing novels by Charles Dickens H Rider Haggard and Thomas Hardy alongside Foucault's notion of perverse sexualities and Herbert Spencer's model of the social organism Archimedes argues that the pathologized female body displaces or resolves on a narrative level larger cultural anxieties about the health of the British as a species While earlier feminist investigations asserted that bourgeois ideology helped to construct scientific discourses about female sexuality and social behavior this study takes these assertions as a starting point Examining incest racial stereotyping and neurasthenia *Gendered Pathologies* attempts to shed light on the ways in which biological thinking permeated British culture in the second half of the nineteenth century
