Mimesis and Its Romantic Reflections Frederick Burwick, 2010-11-01 In Romantic theories of art and literature the notion of mimesis defined as art's reflection of the external world became introspective and self-reflexive as poets and artists sought to represent the act of creativity itself Frederick Burwick seeks to elucidate this Romantic aesthetic first by offering an understanding of key Romantic mimetic concepts and then by analyzing manifestations of the mimetic process in literary works of the period Burwick explores the mimetic concepts of art for art's sake Idem et Alter and palingenesis of mind as art by drawing on the theories of Philo of Alexandria Aristotle Immanuel Kant Friedrich Schiller Friederich Wilhelm Joseph von Schelling Thomas De Quincey and Germaine de Staël Having established the philosophical

bases of these key mimetic concepts Burwick analyzes manifestations of mimesis in the literature of the period including ekphrasis in the work of Thomas De Quincey mirrored images in the poems of Samuel Taylor Coleridge and William Wordsworth and the twice told tale in the novels of Charles Brockden Brown E T A Hoffmann and James Hogg Although artists of this period have traditionally been dismissed in discussions of mimesis Burwick demonstrates that mimetic concepts comprised a major component of the Romantic aesthetic

Wordsworth's Unremembered Pleasure Alexander Freer, 2020-10-29 Wordsworth has traditionally been understood as the poet of memory This book argues that unremembered pleasure an idea Wordsworth formulates in Tintern Abbey but is often overlooked by modern readers is central to understanding his writing Wordsworth's poems discover and articulate a broad range of previously unfelt unnoticed and unconscious satisfactions As well as providing new interpretations of major and under studied writing by Wordsworth this volume challenges a long tradition of psychoanalytic reading of romanticism which uses trauma to explain the limits of literary memory The book contests key psychoanalytic concepts in literary criticism including repression sublimation mourning and pleasure It asks what it would mean for us to be surprised by joy

The Imprint of the Picturesque on Nineteenth-Century British Fiction Alexander M. Ross, 2006-01-01 Despite the negative criticism directed at its sentiment its heartlessness its superficiality the picturesque remained in both art and fiction of Victorian England a mode of seeing that even the greatest of the artists and novelists relied upon from time to time so that their viewers and readers could rejoice in the instant recognition of place and character distinctly limned and sometimes subtly enough to elicit sympathy Preface After briefly tracing the development of the theory of the picturesque in the eighteenth century writings of William Gilpin Sir Uvedale Price and Richard Payne Knight and examining how nineteenth century novelists accommodated aesthetic theory to the practice of fiction Ross focuses on the use of the picturesque in the works of Sir Walter Scott Charlotte Bronte Charles Dickens George Eliot and Thomas Hardy The persistence of the picturesque through novels ranging from Waverley to Jude the Obscure and in writers like Dickens and Eliot who had little respect for its conventions attests to its strength and attraction in nineteenth century literature

Museum of Words James A. W. Heffernan, 2004-04 Ekphrasis is the art of describing works of art the verbal representation of visual representation Profoundly ambivalent ekphrastic poetry celebrates the power of the silent image even as it tries to circumscribe that power with the authority of the word Over the ages its practitioners have created a museum of words about real and imaginary paintings and sculptures In the first book ever to explore this museum James Heffernan argues that ekphrasis stages a battle for mastery between the image and the word Moving from the epics of Homer Virgil and Dante to contemporary American poetry this book treats the history of struggle between rival systems of representation Readable and well illustrated this study of how poets have represented painting and sculpture is a major contribution to our understanding of the relation between the arts
