Romantic West 1789 1850:

The romantic West Eugénie De Keyser, Peter Price, 1965 *The Romantic Tradition in Germany* Ronald Taylor, 2020-01-30 Originally published in 1970 this book surveys the central philosophical and aesthetic doctrines which characterize German Romanticism A selection of literary philosophical and political essays by some of the most important German Romantic thinkers illustrates the principal themes these range from philosophical idealism and aesthetic subjectivism to folklore and emergent German nationalism from exotica and medievalism to irrationality and the metaphysics of music Introductory essays explain the significance of the particular aspects of the Romantic tradition which are revealed in each passage and commentaries not only elucidate allusions and references which are not immediately identifiable but draw attention to wider issues either in the work of that author or in the context of 19th Century German culture as a whole

'Romantic' and Its Cognates Hans Eichner, 1972-12-15 Ever since the word romantic and its many cognates in European languages began to be used as technical terms towards the end of the eighteenth century the quest for a satisfactory definition of their meanings has continued unabated This collection of essays traces the history of the word in the major European languages showing how romantic and its cognates were first introduced how their usage spread and their connotations proliferated and how their present usage became established This book opens with an introduction by the editor followed by an essay in which Professor Raymond Immerwahr Chairman of the Department of German University of Western Ontario shows how romantic and its cognates became fashionable in England France and Germany and traces the extension of the meanings of these words up to 1790 The story is then taken up in individual essays on the history of the word and its cognates in the major European countries in Germany by the editor in England by Professor George Whalley FRSC of the Department of English Queen's University Kingston in France by Professor Maurice Z Shroder of the Department of French Barnard College Columbia University in Italy by Professor Olga Ragusa of the Department of Italian Columbia University in Spain by Professor Donald L Shaw of the Department of Hispanic Studies University of Edinburgh in Scandinavia by Professor P M Mitchell of the Department of Germanic Languages and Literature University of Illinois and in Russia by Professor Sigrid McLaughlin of the Department of Slavic Studies University of California at Santa Cruz The final essay by H H H Remak Professor of German and Comparative Literature at the University of Indiana reports on trends of recent research on West European romanticism and suggests fruitful avenues for further exploration The book will be of immense value to students and specialists interested in literary linguistic and cultural aspects of romanticism and to those concerned with comparative literature and the history of ideas Hans Eichner taught at Queen's University Kingston from 1950 to 1967 when he was appointed Professor and Chairman of German University of Toronto Among his published books are Thomas Mann Eine Einf hrung in sein Werk Friedrich Schlegel Literary Notebooks 1797 1801 Reading German for Scientists Kritische Friedrich Schlegel Ausgabe in four volumes Four Modern German Authors Mann Rilke Kafka Brecht In 1967 he was

elected a Fellow of the Royal Society of Canada **Encyclopedia of the Romantic Era, 1760-1850** Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism **The Romantic Movement**

Bibliography, 1936-1970 Aubrey Christian Elkins, Lorne J. Forstner, 1973 **Nonfictional Romantic Prose** Steven P. Sondrup, Virgil Nemoianu, Gerald Gillespie, 2004 Nonfictional Romantic Prose Expanding Borders surveys a broad range of expository polemical and analytical literary forms that came into prominence during the last two decades of the eighteenth century and the first half of the nineteenth They stand in contrast to better known romantic fiction in that they endeavor to address the world of daily empirical experience rather than that of more explicitly self referential fanciful creation Among them are genres that have since the nineteenth century come to characterize many aspects of modern life like the periodical or the psychological case study others flourished and enjoyed wide spread popularity during the nineteenth century but are much less well known today like the almanac and the diary Travel narratives pamphlets religious and theological texts familiar essays autobiographies literary critical and philosophical studies and discussions of the visual arts and music all had deep historical roots when appropriated by romantic writers but prospered in their hands and assumed distinctive contours indicative of the breadth of romantic thought SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including

Romanticism's own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age

The Barbaric Triumph Don Herron, 2004-06-01 The Barbaric Triumph examines all aspects of the life and work of Robert E Howard the originator of the sword sorcery fantasy genre and the creator of Conan the Barbarian Featured are essays by Leo Grin Edwrad A Waterman Charles Hoffman Paul Spencer Mark Finn Steven R Trout Lauric Guillaud Scott Connors George Knight Don Herron and more From the phantoms of Hate simmering beneath Howard's blood drenched prose to Howard's lifelong interest in philosophy from Howard's visionary use of the American Frontier Myth to his tales of boxing The Barbaric Triumph builds on the pioneering research of Heron's previous book on Howard The Dark Barbarian and takes it to new levels
