Romanticism, Maternity, and the Body Politic Julie Kipp, 2003-08-14 In Romanticism Maternity and the Body Politic Julie Kipp examines Romantic writers treatments of motherhood and maternal bodies in the context of the legal medical educational and socioeconomic debates about motherhood so popular during the period She argues that these discussions turned the physical processes associated with mothering into matters of national importance. The privately shared space signified by the womb or the maternal breast were made public by the widespread interest in the workings of the maternal body These private spaces evidenced for writers of the period the radical exposure of mother and child to one another for good or ill Kipp's primary concern is to underline the ways that writers used representations of mother child bonds as ways of naturalizing endorsing and critiquing Enlightenment constructions of interpersonal and intercultural relations This fascinating literary and cultural study will appeal to all scholars of Romanticism If the Body Politic Could Breathe in the Age of the Refugee Julia Metzger-Traber, 2018-05-15 This book posits that the refugee crisis may actually be a crisis of identity in a rapidly changing world It argues that Western conceptions of the individual Self shape metaphors of political homes and thus the geopolitics of belonging and exclusion Metzger Traber creatively re conceives political belonging by perceiving the interconnection of each Self through its most immediate home the breathing body On an experimental literary journey through her own past and that of Germany she puts political philosophy in conversation with somatic and spiritual insight to expand notions of Self and Home Then she asks What ethical imperatives arise What kinds of homes and homelands would we create if we no longer thought we ended at our skin Scotland and the Fictions of Geography Penny Fielding, 2008-12-11 Focusing on the relationship between England and Scotland and the interaction between history and geography Penny Fielding explores how Scottish literature in the Romantic period was shaped by the understanding of place and space This book examines geography as a form of regional national and global definition addressing national surveys local stories place names and travel writing and argues that the case of Scotland complicates the identification of Romanticism with the local Fielding considers Scotland as North Britain in a period when the North of Europe was becoming a strong cultural and political identity and explores ways in which Scotland was both formative and disruptive of British national consciousness Containing studies of Robert Burns Walter Scott and James Hogg as well as the lesser known figures of Anne Grant and Margaret Chalmers this study discusses an exceptionally broad range of historical geographical scientific linguistic antiquarian and political writing from throughout North Britain Britain, France and the Gothic, 1764-1820 Angela Wright, 2013-04-18 Explores the development of the Gothic through the history of martial political and literary conflict between Britain and France **John Clare and Community** John Goodridge, 2013 John Clare 1793 1864 is one of the most sensitive poetic observers of the natural world Born into a rural labouring family he felt connected to two communities his native village and the Romantic and earlier poets who inspired him The first part of this study of Clare and community shows

how Clare absorbed and responded to his reading of a selection of poets including Chatterton Bloomfield Gray and Keats revealing just how serious the process of self education was to his development The second part shows how he combined this reading with the oral folk culture he was steeped in to create an unrivalled poetic record of a rural culture during the period of enclosure and the painful transition to the modern world In his lifelong engagement with rural and literary life Clare understood the limitations as well as the strengths in communities the pleasures as well as the horrors of isolation

Wordsworth and the Art of Philosophical Travel Mark Offord, 2016-07-07 This book offers a new interpretation of The Orient and the Young Romantics Wordsworth s poetry combining concepts of travel states of nature and language Andrew Warren, 2014-11-06 This book explores how the Romantic poetry of Byron Shelley and Keats engages with tales and themes of the Orient Embryology and the Rise of the Gothic Novel Diana Pérez Edelman, 2021-07-02 This book argues that embryology and the reproductive sciences played a key role in the rise of the Gothic novel in the eighteenth and nineteenth centuries Diana P rez Edelman dissects Horace Walpole's use of embryological concepts in the development of his Gothic imagination and provides an overview of the conflict between preformation and epigenesis in the scientific community The book then explores the ways in which Gothic literature can be read as epigenetic in its focus on internally sourced modes of identity monstrosity and endless narration The chapters analyze Horace Walpole's The Castle of Otranto Ann Radcliffe's A Sicilian Romance The Italian and The Mysteries of Udolpho Mary Shelley's Frankenstein Charles Robert Maturin's Melmoth the Wanderer and James Hogg's Confessions of a Justified Sinner arguing that these touchstones of the Gothic register why the Gothic emerged at that time and why it continues today the mysteries of reproduction remain unsolved the Revolutionary Sublime Cian Duffy, 2005-10-06 Offering a genuinely fresh set of perspectives on Shelley's texts and contexts Cian Duffy argues that Shelley's engagement with the British and French discourse on the sublime had a profound influence on his writing about political change in that age of revolutionary crisis Examining Shelley's extensive use of sublime imagery and metaphor Duffy offers not only a substantial reassessment of Shelley's work but also a significant re appraisal of the sublime s role in the cultural history of Britain during the Romantic period as well as Shelley's fascination with natural phenomena Romanticism and Childhood Ann Wierda Rowland, 2012-05-24 How and why childhood became so important to such a wide range of Romantic writers has long been one of the central questions of literary historical studies Ann Wierda Rowland discovers new answers to this question in the rise of a vernacular literary tradition In the Romantic period the child came fully into its own as the object of increasing social concern and cultural investment at the same time modern literary culture consolidated itself along vernacular national lines Romanticism and Childhood is the first study to examine the intersections of these historical developments and the first study to demonstrate that a rhetoric of infancy and childhood the metaphors images figures and phrases repeatedly used to represent and conceptualize childhood enabled Romantic writers to construct a national literary history and culture capable of embracing a wider range of literary

Romanticism, Self-Canonization, and the Business of Poetry Michael Gamer, 2017-02-17 Michael Gamer explodes the myth of the unworldly Romantic poet showing writers interest in public presence and profit and loss **Honor**,

Romanticism, and the Hidden Value of Modernity Jamison Kantor, 2023-01-19 Despite our preconceptions Romantic writers artists and philosophers did not think of honor as an archaic or regressive concept but as a contemporary even progressive value that operated as a counterpoint to freedom a well known preoccupation of the period s literature Focusing on texts by William Godwin William Wordsworth Jane Austen Walter Scott Mary Prince and Mary Seacole this book argues that the revitalization of honor in the first half of the nineteenth century signalled a crisis in the emerging liberal order one with which we still wrestle today how can political subjects demand real materialist forms of dignity in a system dedicated to an abstract and often impoverished idea of liberty Honor Romanticism and the Hidden Value of Modernity presents both a theory and a history of this question in the media of the Black Atlantic the Jacobin novel the landscape poem and the financial romance **Pathological Bodies** Corinna Wagner, 2015-06-09 This book explores the important connections between

medicine and political culture that often have been overlooked In response to the French revolution and British radicalism political propagandists adopted a scientific vocabulary and medical images for their own purposes New ideas about anatomy and pathology sexuality and reproduction cleanliness and contamination and diet and drink migrated into politics in often startling ways and to significant effect These ideas were used to identify individuals as normal or pathological and as naturally suitable or unsuitable for public life This migration has had profound consequences for how we measure the bodies practices and abilities of public figures and ourselves Women Wanderers and the Writing of Mobility, 1784-1814 Ingrid Horrocks, 2017-03-23 In the last days of the Scandinavian journey that would become the basis of her great post Revolutionary travel book Mary Wollstonecraft wrote I am weary of travelling yet seem to have no home no resting place to look to I am strangely cast off From this starting point Ingrid Horrocks reveals the significance of representations of women wanderers in the late eighteenth and early nineteenth centuries particularly in the work of women writers She follows gendered frequently reluctant wanderers beyond travel narratives into poetry gothic romances and sentimental novels and places them within a long history of uses of the more traditional literary figure of the male wanderer Drawing out the relationship between mobility and affect and illuminating textual forms of wandering Horrocks shows how paying attention to the figure of the woman wanderer sheds new light on women and travel and alters assumptions about mobility s connection Reproduction and the Maternal Body in Literature and Culture Jennifer S. Henke, 2025-05-13 This book with freedom examines a selection of texts to discuss how midwifery obstetrics and women s bodies were constructed during the long eighteenth century and how these material discursive entanglements between science medicine literature and culture have shaped society s views of pregnancy childbirth and reproduction Drawing on theories from disciplines such as feminist new materialism this book traces the history of both the reproductive body and the pluralistic medical knowledges that attended to pregnancy and childbirth during the Enlightenment and early Romanticism in Britain It identifies the significance of literary and cultural artefacts in this knowledge formation including the materiality of the female reproductive body itself and raises awareness of myths about pregnancy and childbirth that persist today This book features chapters exploring Jonathan Swift's Gulliver's Travels John Cleland's Fanny Hill Laurence Sterne's Tristram Shandy Eliza Fenwick's Secresy Or The Ruin on the Rock Mary Wollstonecraft's Maria Or The Wrongs of Woman and Mary Shelley's Frankenstein Reproduction and the Maternal Body in Literature and Culture is an innovative and interdisciplinary contribution to the medical humanities and feminist philosophy of science and will interest scholars from a range of backgrounds including literature and cultural studies midwifery medicine and history Women, Epic, and Transition in British Romanticism Elisa Beshero-Bondar, 2011 Women Epic and Transition in British Romanticism argues that early nineteenth century women poets contributed some of the most daring work in modernizing the epic genre The book examines several long poems to provide perspective on women poets working with and against men in related efforts contributing together to a Romantic movement of large scale genre revision

Women poets challenged longstanding categorical approaches to gender and nation in the epic tradition and they raised politically charged questions about women s importance in moments of historical crisis While Romantic epics did not all engage in radical questioning or undermining of authority this study calls attention to some of the more provocative poems in their approach to gender culture and history This study prioritizes long poems written by and about women during the Romantic era and does so in context with influential epics by male contemporaries. The book takes its cue from a dramatic increase in the publication of epics in the early nineteenth century At their most innovative Romantic epics provoked questions about the construction of ideological meaning and historical memory and they centralized women s experiences in entirely new ways to reflect on defeat loss and inevitable transition For the first time the epic became an attractive genre for ambitious women poets The book offers a timely response to recent groundbreaking scholarship on nineteenth century epic by Herbert Tucker and Simon Dentith and should be of interest to Romanticists and scholars of 18th and 19th century literature and history gender and genre and women s studies Women's work Jennie Batchelor, 2013-07-19 Women s work challenges influential accounts about gender and the novel by revealing the complex ways in which labour informed the lives and writing of a number of middling and genteel women authors publishing between 1750 and 1830 This book provides a particularly rich yet largely neglected seam of texts for exploring the vexed relationship between gender work and writing The four chapters that follow contain thoroughly contextualised case studies of the treatment of manual intellectual and domestic labour in the work and careers of Sarah Scott Charlotte Smith Mary Wollstonecraft and women applicants to the writer's charity the Literary Fund By making women's work visible in our studies of female authored fiction of the period Batchelor reveals the crucial role that these women played in articulating debates about the gendered division of labour the in compatibility of women's domestic and professional lives and the status and true value of women's work that shaped eighteenth century culture as surely as they shape our own
