Natoli, 2015-08-11 First published in 1982 this book provides a bibliography of commentary criticism and scholarship on the works of William Blake It covers the period from Northrop Frye's *Fearful Symmetry* in 1947 to 1980 The criticism is organised according to eleven classifications in order to help direct the research of students and scholars and each chapter is preceded by an introductory essay in order to guide the reader

British Fiction and the Production of Social Order, 1740-1830 Miranda J. Burgess, 2000-10-26 In *British Fiction and the Production of Social Order* Miranda Burgess examines what Romantic period writers called romance a hybrid genre defined by a shared role in the negotiation of conflicts between political economy and moral philosophy Reading a broad range of fictional and non fictional works published between 1740 and 1830 Burgess places authors such as Richardson Scott Austen and Wollstonecraft in a new economic social and cultural context She explores the interaction between writing and the formation of community particularly in relation to issues of legitimacy and gender Burgess argues that the romance held a key role in remaking the national order of a Britain dependent on ideologies of human nature for justification of its social economic and political systems

Romantic Period Writings 1798-1832: An Anthology Ian Haywood, Zachary Leader, 2005-11-01 *Romantic Period Writings 1798 1832* provides a valuable insight into the condition of Britain in the early part of the nineteenth century It includes original documents from a range of disciplines and discourses Each section includes a scholarly introduction select bibliography and annotations Among the material assembled in the anthology are writings by previously neglected or under represented women working class men black radicals and conservative and evangelical polemicists as well as several unfamiliar texts by canonical writers The writings are organised into sections on Radical Journalism Political Economy Atheism Nation and State Race and Empire Gender Literary Institutions

The Military Memoir and Romantic Literary Culture, 1780-1835 Neil Ramsey, 2016-12-05 Examining the memoirs and autobiographies of British soldiers during the Romantic period Neil Ramsey explores the effect of these as cultural forms mediating warfare to the reading public during and immediately after the French Revolutionary and Napoleonic wars Forming a distinct and commercially successful genre that in turn inspired the military and nautical novels that flourished in the 1830s military memoirs profoundly shaped nineteenth century British culture's understanding of war as Romantic adventure establishing images of the nation's middle class soldier heroes that would be of enduring significance through the nineteenth and twentieth centuries As Ramsey shows the military memoir achieved widespread acclaim and commercial success among the reading public of the late Romantic era Ramsey assesses their influence in relation to Romantic culture's wider understanding of war writing autobiography and authorship and to the shifting relationships between the individual the soldier and the nation The memoirs Ramsey argues participated in a sentimental response to the period's wars by transforming earlier impersonal traditions of military memoirs into stories of the soldier's personal suffering While the focus

on suffering established in part a lasting strand of anti war writing in memoirs by private soldiers such stories also helped to foster a sympathetic bond between the soldier and the civilian that played an important role in developing ideas of a national war and functioned as a central component in a national commemoration of war
