Rome in Late Antiquity Bertrand Lançon, 2023-04-28 This book captures Rome's fall and rebirth during this tumultuous period. The author details the rise of Christianity and its effects on the city as well as the political and cultural atmosphere. Also includes six maps. *Readings in Late Antiquity* Michael Maas, 2012-08-06 Late Antiquity ca 250-650 witnessed the transition from Classical Antiquity to the Middle Ages in the Mediterranean and Near Eastern worlds. Christianity displaced polytheism over a wide area, offering new definitions of identity and community. The Roman Empire collapsed in Western Europe to be replaced by new Germanic kingdoms. In the East, Byzantium emerged while the Persian Empire reached its apogee and collapsed. Arab armies carrying the banner of Islam reshaped the political map and brought the late antique era to a close. This sourcebook illustrates the dramatic political, social, and religious transformations of Late Antiquity through the words of the men and women who experienced them. Drawing from Greek, Latin, Syriac, Hebrew, Coptic, Persian, Arabic, and Armenian sources, the carefully chosen passages illuminate the lives of emperors, abbesses, aristocrats, slaves, children, barbarian chieftains, and saints. The Roman Empire is kept at the centre of the discussion, with chapters devoted to its government, cities, army, law, medicine, domestic life, philosophy, Christianity, polytheism, and Jews. Further chapters deal with the peoples who surrounded the Roman state: Persians, Huns, northern Germanic barbarians, and the followers of Islam. This revised and updated second edition provides an expanded view of Late Antiquity with a new chapter on domestic life as well as extra material throughout, including passages that appear for the first time in English translation. *Readings in Late Antiquity* is the only sourcebook that covers such a wide range of topics over the full breadth of the late antique period. [The Visual Rhetoric of the Married Laity in Late Antiquity](#) Mark D. Ellison, 2023-12-11 This study examines third and fourth century portraits of married Christians and associated images, reading them as visual rhetoric in early Christian conversations about marriage and celibacy, and recovering lay perspectives underrepresented or missing in literary sources. Historians of early Christianity have grown increasingly aware that written sources display an enthusiasm for asceticism and sexual renunciation that was far from representative of the lives of most early Christians. Often called a silent majority, the married laity in fact left behind a significant body of work in the material record. Particularly in and around Rome, they commissioned and used such objects as sarcophagi, paintings, glass vessels, finger rings, luxury silver, other jewellery, items, gems, and seals that bore their portraits and other iconographic forms of self-representation. This study is the first to undertake a sustained exploration of these material sources in the context of early Christian discourses and practices related to marriage, sexuality, and celibacy. Reading this visual evidence increases understanding of the population who created it, the religious commitments they asserted, and the comparatively moderate forms of piety they set forth as meritorious alternatives to the ascetic ideal. In their visual rhetoric, these artifacts and images comprise additional voices in Late Antique conversations about idealized ways of Christian life and ultimately provide a fuller picture of the early Christian world. Plentifully illustrated.

with photographs and drawings this volume provides readers access to primary material evidence Such evidence like textual sources require critical interpretation this study sets forth a careful methodology for iconographic analysis and applies it to identify the potential intentions of patrons and artists and the perceptions of viewers It compares iconography to literary sources and ritual practices as part of the interpretive process clarifying the ways images had a rhetorical edge and contributed to larger conversations Accessibly written *The Visual Rhetoric of the Married Laity in Late Antiquity* is of interest to students and scholars working on Late Antiquity early Christian and late Roman social history marriage and celibacy in early Christianity and early Christian Roman and Byzantine art Law and Society in the Age of Theoderic the Great Sean D. W. Lafferty, 2013-07-25 Provides new insights into Rome's collapse challenging long held assumptions that Theoderic's reign was a golden age for Italy The Mysterious Spheres on Greek and Roman Ancient Coins Raymond V. Sidrys, 2020-12-31 This book is not a standard coin catalogue but it focuses on quantities and percentages of the mysterious 5950 sphere images on Roman coin reverses and a few Greek coins This research identifies political cultural religious and propaganda trends associated with the coin sphere images and offers a variety of new findings Children and Asceticism in Late Antiquity Ville Vuolanto, 2016-03-03 In Late Antiquity the emergence of Christian asceticism challenged the traditional Greco Roman views and practices of family life The resulting discussions on the right way to live a good Christian life provide us with a variety of information on both ideological statements and living experiences of late Roman childhood This is the first book to scrutinise the interplay between family children and asceticism in the rise of Christianity Drawing on texts of Christian authors of the late fourth and early fifth centuries the volume approaches the study of family dynamics and childhood from both ideological and social historical perspectives It examines the place of children in the family in Christian ideology and explores how families in the late Roman world adapted these ideals in practice Offering fresh viewpoints to current scholarship Ville Vuolanto demonstrates that there were many continuities in Roman ways of thinking about children and despite the rise of Christianity the old traditions remained deeply embedded in the culture Moreover the discussions about family and children are shown to have been intimately linked to worries about the continuity of family lineage and of the self and to the changing understanding of what constituted a meaningful life **Travel, Communication and Geography in Late Antiquity** Linda Ellis, Frank L. Kidner, 2017-03-02 Travel Communication and Geography in Late Antiquity brings together a set of papers that consider anew issues of travel communication and landscape in Late Antiquity This period witnessed an increase in long distance travel and the construction of large new inter provincial communications networks The Christian Church's expansion is but one example of both phenomena The contributions here present readers with new research on the explosion in travel and large scale communication and the effect on this of different geographical possibilities and limitations The papers deal with a variety of travel experiences religious pilgrimages travel for work and educational purposes journeys of the soul and writings about travel they look at various kinds of communication

ecclesiastical communication for commerce and the communication of religious identity and they examine both physical and psychological aspects of geography travel and communication *The Falls of Rome* Michele Renee Salzman,2021-09-09 Focuses on the resilience of generations of Roman men and women and their ability to reconstitute their city and society **Through the Eye of a Needle** Peter Brown,2013-09-02 A sweeping intellectual history of the role of wealth in the church in the last days of the Roman Empire Jesus taught his followers that it is easier for a camel to go through the eye of a needle than for a rich man to enter heaven Yet by the fall of Rome the church was becoming rich beyond measure Through the Eye of a Needle is a sweeping intellectual and social history of the vexing problem of wealth in Christianity in the waning days of the Roman Empire written by the world's foremost scholar of late antiquity Peter Brown examines the rise of the church through the lens of money and the challenges it posed to an institution that espoused the virtue of poverty and called avarice the root of all evil Drawing on the writings of major Christian thinkers such as Augustine Ambrose and Jerome Brown examines the controversies and changing attitudes toward money caused by the influx of new wealth into church coffers and describes the spectacular acts of divestment by rich donors and their growing influence in an empire beset with crisis He shows how the use of wealth for the care of the poor competed with older forms of philanthropy deeply rooted in the Roman world and sheds light on the ordinary people who gave away their money in hopes of treasure in heaven Through the Eye of a Needle challenges the widely held notion that Christianity's growing wealth sapped Rome of its ability to resist the barbarian invasions and offers a fresh perspective on the social history of the church in late antiquity

Violence in Late Antiquity Harold Allen Drake,2006 Violence in Late Antiquity brings together a selection of the papers delivered at the fifth biennial Shifting Frontiers conference with others specially commissioned for the volume The four sections on Defining Violence Legitimate Violence Violence *In Defiance of History* Victoria Leonard,2022-02-16 This volume offers a counterbalance to the dismissal that Orosius's *Histories Against the Pagans* has suffered in most recent criticism Orosius is traditionally considered to be a mediocre scholar and an essentially worthless historian This book takes his literary endeavour seriously recognizing the unique contribution the *Histories* made at a crucial moment of debate and uncertainty where the present was shaped by restructuring the past The significance of the *Histories* is recognised intrinsically rather than only in comparison with other texts and authors principally Augustine of Hippo Orosius's mentor The approach of the book is historiographical exploring the form purpose and meaning of the *Histories* The themes of divine providence monotheism and imperial authority are examined and the subjects of war and the sack of Rome receive extended analysis The book foregrounds Orosius's significant historiographical innovations that are seldom explored such as the subversion of imperial history within a Christian spectrum in the synchronization of the emperor Augustus and Christ Each chapter contributes to the progression of knowledge about Orosius's *Histories* and the wider literary and historiographical culture of disruption that characterised the late fourth and early fifth centuries CE **The Bishop of Rome in Late**

Antiquity Geoffrey D. Dunn, 2016-03-09 At various times over the past millennium bishops of Rome have claimed a universal primacy of jurisdiction over all Christians and a superiority over civil authority Reactions to these claims have shaped the modern world profoundly Did the Roman bishop make such claims in the millennium prior to that The essays in this volume from international experts in the field examine the bishop of Rome in late antiquity from the time of Constantine at the start of the fourth century to the death of Gregory the Great at the beginning of the seventh These were important periods as Christianity underwent enormous transformation in a time of change The essays concentrate on how the holders of the office perceived and exercised their episcopal responsibilities and prerogatives within the city or in relation to both civic administration and other churches in other areas particularly as revealed through the surviving correspondence With several of the contributors examining the same evidence from different perspectives this volume canvasses a wide range of opinions about the nature of papal power in the world of late antiquity Episcopal Elections in Late Antiquity Johan Leemans, 2011 The election of a new bishop was a defining moment for local Christian communities in Late Antiquity This volume contributes to a reassessment of the phenomenon of episcopal elections from the broadest possible perspective examining the varied combination of factors personalities rules and habits that played a role in the process Building on the state of the art regarding late antique bishops and episcopal election this interdisciplinary volume of collected studies by leading scholars offers fresh perspectives by focussing on specific case studies and opening up new approaches Christianity and Culture Martin S. Reed, 2002 In over 2 000 years Christianity has made the overwhelming impact on the culture of the Western world in particular But culture has also helped to shape the development and form of Christianity since the interaction of two such powerful phenomena cannot help but change the other This new book brings together over 1200 citations on Christianity and Culture which are indexed by subject title and author for easy access **Ammianus Marcellinus** , 2009 Continuing the series of philological and historical commentaries on Ammianus Res Gestae this volume deals with Book 27 in which the author deals with military operations and internal affairs In the central part of the book the emperor Valentinian is portrayed **Politics and Tradition Between Rome, Ravenna and Constantinople** M.
