**Rome in the Fourth Century A.D.** Alden M. Rollins, 1991 The transitory nature of the fourth century Roman Empire makes it a suitable candidate for at least four traditional categories ancient medieval Byzantine and early Christian history This bibliography containing 1 408 annotated entries offers a comprehensive listing of twentieth century English language works on this subject The book divided into 11 chapters covers works on the Roman Empire from A D 284 to 395 Topics covered include works of a general nature politics and government military matters the sciences society and art foreign affairs and barbarians religion and philosophy Christianity and church and state East and West in the Roman Empire of the Fourth Century ,2015-07-28 East and West in the Roman Empire of the Fourth Century examines the dis unity of the Roman Empire in the fourth century from different angles in order to offer a broad perspective on the topic and avoid an overvaluation of the political division of the empire in 395 After a methodological key paper on the concepts of unity the other contributors elaborate on these notions from various geo political perspectives the role of the army and taxation geographical perspectives the unity of the Church and the perception of the divisio regni of 364 Four case studies follow illuminating the role of concordia apostolorum antique sports eunuchs and the poet Prudentius on the late antique view of the Empire Despite developments to the contrary it appears that the Roman Empire remained to be viewed as a unity in all strata of society *Literature and Society in the Fourth Century AD* Lieve Van Hoof, Peter Van Nuffelen, 2014-10-23 Late Antiquity is often assumed to have witnessed the demise of literature as a social force and its retreat into the school and the private reading room whereas the sophists of the Second Sophistic were influential social players their late antique counterparts are thought to have been overshadowed by bishops *Literature and Society in the Fourth Century AD* argues that this presumed difference should be attributed less to a fundamental change in the role of literature than to different scholarly methodologies with which Greek and Latin texts from the second and the fourth century are being studied Focusing on performance the literary construction of reality and self presentation this volume highlights how literature continued to play an important role in fourth century elite society **Pagan City and Christian Capital** John Curran, 2002-06-06 The critical century between the arrival of Constantine and the advance of Alaric in the early fifth century witnessed dramatic changes in the city of Rome In this book Dr Curran has broken away from the usual notions of religious conflict between Christians and pagans to focus on a number of approaches to the Christianization of Rome He surveys the laws and political considerations which governed the building policy of Constantine and his successors the effect of papal building and commemorative constructions on Roman topography the continuing ambivalence of the Roman festal calendar and the conflict between Christians over asceticism and real Christianity Thus using analytical literary and legal evidence Dr Curran explains the way in which the landscape civic life and moral values of Rome were transformed by complex and sometimes paradoxical forces laying the foundation for the capital of medieval Christendom Through a study of Rome as a city Dr Curran explores the rise

of Christianity and the decline of paganism in the later Roman empire      The Arians of the Fourth Century John Henry Newman, 1871      Greek Art and Aesthetics in the Fourth Century B.C. William A. P. Childs, 2018-04-10 Greek Art and Aesthetics in the Fourth Century B C analyzes the broad character of art produced during this period providing in depth analysis of and commentary on many of its most notable examples of sculpture and painting Taking into consideration developments in style and subject matter and elucidating political religious and intellectual context William A P Childs argues that Greek art in this era was a natural outgrowth of the high classical period and focused on developing the rudiments of individual expression that became the hallmark of the classical in the fifth century As Childs shows in many respects the art of this period corresponds with the philosophical inquiry by Plato and his contemporaries into the nature of art and speaks to the contemporaneous sense of insecurity and renewed religious devotion Delving into formal and iconographic developments in sculpture and painting Childs examines how the sensitive expressive quality of these works seamlessly links the classical and Hellenistic periods with no appreciable rupture in the continuous exploration of the human condition Another overarching theme concerns the nature of style as a concept of expression an issue that becomes more important given the increasingly multiple styles and functions of fourth century Greek art Childs also shows how the color and form of works suggested the unseen and revealed the profound character of individuals and the physical world      **The Cambridge Companion to Ancient Rome** Paul Erdkamp, 2013-09-05 Rome was the largest city in the ancient world As the capital of the Roman Empire it was clearly an exceptional city in terms of size diversity and complexity While the Colosseum imperial palaces and Pantheon are among its most famous features this volume explores Rome primarily as a city in which many thousands of men and women were born lived and died The thirty one chapters by leading historians classicists and archaeologists discuss issues ranging from the monuments and the games to the food and water supply from policing and riots to domestic housing from death and disease to pagan cults and the impact of Christianity Richly illustrated the volume introduces groundbreaking new research against the background of current debates and is designed as a readable survey accessible in particular to undergraduates and non specialists      *Encyclopedia of Comparative Iconography* Helene E. Roberts, 2013-09-05 First published in 1998 Routledge is an imprint of Taylor Francis an informa company      A Map of the Body, a Map of the Mind: Visualising Geographical Knowledge in the Roman World Iain Ferris, 2024-06-20 This study considers the relationship between geography and power in the Roman world most particularly the visualisation of geographical knowledge in myriad forms of geography products geographical treatises histories poems personifications landscape representations images of barbarian peoples maps itineraries and imported foodstuffs      **Latin Literature of the Fourth Century (Routledge Revivals)** J. Binns, 2014-06-17 This volume offering an insight into the literary world of Rome in the fourth century AD reflects an increased interest in the writers of the 150 years before the collapse of the Western Empire who have long been over shadowed by the pre eminence accorded since the eighteenth century to the Golden and

Silver ages Among the writers examined are Ausonius Claudian Prudentius Paulinus of Nola Symmachus and St Augustine These essays consider how such writers responded to a world where vitality was ebbing from the old forms of political life religion and literature giving way to new institutions modes of life and horizons of reflection *Life and Letters in the Fourth Century* Terrot Reaveley Glover,2014-01-02 Originally published in 1901 this book examines life in the Roman Empire in the late fourth century through the writings of a series of typical men from the period focusing on literature rather than scientific writings Glover analyses the works of Ammianus Marcellinus Julian Quintus of Smyrna Ausonius Symmachus Macrobius Claudian Prudentius Sulpicius Severus Palladas Synesius and the Confessions of St Augustine A review of the work of women pilgrims and some Greek and early Christian novels is also included This book will be of value to anyone with an interest in this often overlooked period of literary history or in the history of the Late Roman Empire more generally

Young,2003-10-04 The spectacular ruins of such places as Palmyra and Petra bear witness to the wealth and power which could be derived from the silks spices and incense of the east Such goods were highly prized in the Roman Empire and merchants were ready to face the perils of deserts oceans warfare and piracy to meet the demand for their wares But exactly how did the trade in luxury goods operate and to whose benefit Gary K Young s study offers unprecedented coverage of the major trading regions of Egypt Arabia Palmyra and Syria with detailed analysis of the routes used and of the roles of all the participants He looks closely at the influence of the commerce in eastern goods both on the policy of the Roman imperial government and upon local communities in the East itself His findings contradict the standard view that the imperial government had a strong political interest in the eastern trade rather its primary concern was the tax income the trade brought in He also demonstrates the need for greater recognition of the efforts made by local authorities to exploit the trade to their own advantage Incorporating the considerable archaeological research that has been undertaken in recent years this comprehensive survey provides fresh insight into an important aspect of the eastern Roman Empire *Chronos, a Handbook of Comparative Chronology* Rabie J.
