David Nicolle

Romes Enemies Vol 5 The Desert Frontier:

Rome's Enemies (5) David Nicolle,1991-03-26 Rome's desert frontier was one where the Empire faced few dangers for here relations were generally based on a mutual interest in trade across the frontier Yet when Rome did clash with desert peoples particularly those of Syria and Arabia the mobility fighting skills and ability to withdraw into an arid wilderness often gave the Arabs Berbers and Sudanese an extra edge This fascinating volume by David Nicolle explores the history and armies of Rome's enemies of the desert frontier The author's fine text is accompanied by a wealth of illustrations and photographs including eight stunning full page colour plates by Angus McBride [The Roman Army of the Middle Empire, AD 180-284](#)

Gabriele Esposito,2025-03-06 Explores the evolution of the Roman army during the Third Century Crisis detailing reforms tactics and key military campaigns During the Middle Empire period AD 180-284 the Roman army had to face the terrible Third Century Crisis wherein a combination of socio-economic problems and new external threats threatened the Empire with complete collapse Several provinces became temporarily independent from the central government of Rome while others were frequently raided by foreign invaders The Roman army had to fight with all its resources in order to reconquer a good portion of the Empire and preserve its unity The Romans were forced to modernize and reform their forces to face the new challenges posed by a multitude of warlike enemies such as the Persians in the Middle East or the Germanic Peoples in Central Europe The previous military system based on the power of the legions heavy infantry was completely revised with the introduction of new organizational patterns Cavalry became much more important than before together with light troops specialized in skirmishing The personal equipment of the Roman soldiers changed in a very significant way with the introduction of new weapons that permitted the development of innovative tactics Gabriele Esposito follows this evolution of Roman forces from the death of Marcus Aurelius to the rise of Diocletian reconstructing the major military campaigns and explaining how the Roman military forces were transformed All the major troop types are covered with details on the organization and equipment of each contingent The book is lavishly illustrated throughout with excellent color photos of reconstructed costume and equipment in use **War Elephants** John M. Kistler,2007-10-01 Elephants have fought in human armies for more than three thousand years This is the largely forgotten tale of the credit they deserve and the sacrifices they endured

Great Walls & Linear Barriers Peter Spring,2015-02-28 Everyone has heard of the Great Wall of China and knows of Hadrian's Wall and the other barriers lining stretches of Rome's imperial frontiers But Peter Spring's original new study demonstrates that far from being exceptional the building of walls and other linear defences was commonplace among the peoples and states of pre-modern era He finds examples virtually all across the globe and analyses their forms and strategic functions He finds patterns for their distribution an important recurrent theme being the divide between settled agriculture and nomads The author argues that it is mistaken to view such undertakings as necessarily purely defensive measures that might be evidence of insecurity or a maginot line mentality as they were in fact often about

aggressive assertion of control over a region or strategic routes This original and thought provoking study brings new light and insight to a fascinating and neglected aspect of human political and military history It The clear text is supported by numerous specially drawn maps and photographs *World Military History Bibliography* Barton Hacker,2003-06-01

Preclassical and indigenous nonwestern military institutions and methods of warfare are the chief subjects of this annotated bibliography of work published 1967 1997 Classical antiquity post Roman Europe and the westernized armed forces of the 20th century although covered receive less systematic attention Emphasis is on historical studies of military organization and the relationships between military and other social institutions rather than wars and battles Especially rich in references to the periodical literature the bibliography is divided into eight parts 1 general and comparative topics 2 the ancient world 3 Eurasia since antiquity 4 sub Saharan Africa and Oceania 5 pre Columbian America 6 postcontact America 7 the contemporary nonwestern world and 8 philosophical social scientific natural scientific and other works not primarily historical *Armies of the Muslim Conquest* David Nicolle,2024-10-10 The dramatic eruption of the Arab peoples from Arabia after their adoption of the Muslim faith in the 7th century remains one of the most extraordinary events in world history By the end of that century they ruled a state that stretched from the Atlantic to India from southern Arabia to Central Asia covering an area far greater than that of the Roman Empire Therefore warfare at least among the nomadic bedouin was a normal aspect of life Complemented by numerous illustrations including eight full page colour plates by Angus McBride this detailed text by David Nicolle tells the real story of the armies of the Muslim conquest **The History of Rome (Complete Edition: Vol. 1-5)** Theodor Mommsen,2023-11-18 The History of Rome Complete Edition Vol 1 5 by Theodor Mommsen is a groundbreaking work that delves into the ancient history of Rome covering its rise to power governance and cultural achievements Mommsen s detailed and meticulous narrative style blends historical facts with intriguing anecdotes making it a comprehensive study for scholars and history enthusiasts alike The work is considered a classic in the field of Roman history providing valuable insights into the political social and economic dynamics of the ancient empire Theodor Mommsen a renowned German historian and classical scholar was awarded the Nobel Prize in Literature in 1902 for his monumental work on Roman history His expertise in ancient civilizations and meticulous research are evident in The History of Rome reflecting his passion for uncovering the truth behind the rise and fall of empires Mommsen s acclaimed scholarship and groundbreaking approach to history make this multi volume work a must read for anyone interested in ancient Rome I highly recommend The History of Rome by Theodor Mommsen to readers who are eager to explore the intricacies of Roman history and understand the foundations of Western civilization Mommsen s comprehensive and insightful narrative provides a compelling account of Rome s evolution making it an essential addition to any historian s library *Armies of the Roman Republic 264-30 BC* Gabriele Esposito,2024-07-09 The period covered in this book saw the Roman Republic face its greatest military challenges In 264 the Romans were pitted against the might of Carthage in the first of the three Punic Wars which

would push Rome to the brink but end with the destruction of this great rival city In the following two centuries they would clash repeatedly with the Gauls this recurrent threat finally overcome by Caesar's campaigns in Gaul In this period they defeated the Hellenistic Successor states proud heirs to the military legacy of Alexander the Great a process completed by the annexation of Egypt in 30 BC These wars and others made the Romans masters of all Western Europe and the whole Mediterranean basin though failure against the Parthians limited their ambitions in the East The Roman armies of this era were also employed against each other in the vicious civil wars that marked the end of the Republican period Gabriele Esposito describes the tactics organization weapons and equipment of the Roman forces involved in these wars He shows how the lessons of defeats and victories against such varied opponents in far flung theaters as well as social changes forced a process of evolution and reforms that transformed Roman armies across this turbulent period As usual his clear accessible text is supported by dozens of color images of replica weapons and equipment in use

Roman Army Units in the Eastern Provinces (1) Raffaele D'Amato, 2017-05-18 Between the reigns of Augustus and Septimius Severus the Eastern provinces of the Roman Empire frequently saw brutal fighting most notably during the conquest of Dacia by Trajan the suppression of the Great Revolt in Judea and intermittent clashes with Rome's great rival Parthia In these wars Roman soldiers had to fight in a range of different climates and terrains from the deserts of the Middle East to the islands of the eastern Mediterranean Using full colour artwork this book examines the variation of equipment and uniforms both between different military units and in armies stationed in different regions of the Empire Using evidence drawn from recent archaeological finds it paints a vivid portrait of Roman army units in the Eastern provinces in the first two centuries of the Imperial period

Armour Never Wears Timothy Dawson, 2013-08-05 Armour Never Wears is the first volume to bring together all the hitherto scattered evidence archaeological literary and artistic for the forms and uses of scale and lamellar armours in the region west of the Ural Mountains throughout the 3 500 years during which these armours were used The interpretation of this data is informed by the author's long practical experience as a maker of arms and armour martial artist and horseman It offers systematic definitions and analysis of these often misunderstood forms of armour along with detailed diagrams and instructions that will be of great use to any who wish to turn their hands to reconstruction Along the way this unique synthesis of evidence and interpretation debunks some myths that have arisen in recent years

The Army of the Early Roman Empire 30 BC-AD 180 Gabriele Esposito, 2023-06-30 The legionary soldier of the early Empire period with his distinctive segmented armor is one of the images most closely associated by popular imagination with ancient Rome Such soldiers conquered most of Britain suffered and avenged the terrible disaster of the Teutoburg Forest and vanquished the fearsome Dacians across the Danube a feat immortalized on Trajan's Column as well as fighting many other tribes In the East they overcame the Great Jewish Revolt and repeatedly contended with mixed success against the powerful Parthians This was the army that enforced the so called Pax Romana at the point of a gladius and maintained the greatest empire the world

had yet seen Of course such troops were also employed to bloody effect in the many civil wars such as those of AD69 the Year of the Four Emperors Gabriele Esposito describes the tactics organization and equipment of the Roman army at the height of its powers considered by many to be the most efficient and powerful fighting force of the ancient world He gives an overview of the most significant campaigns and considers in detail not only the iconic legionaries but also the various auxiliary units including cavalry His clear accessible text is supported by dozens of color photos of replica weapons armor and other kit in use

Aurelian and Probus Ilkka Syväne,2020-06-24 An in depth military history of the emperors Lucius Domitius Aurelianus and Marcus Aurelius Probus This is a narrative military history of the emperors Lucius Domitius Aurelianus Aurelian reigned 270 275 and Marcus Aurelius Probus 276 282 that also includes the other reigns between the years 268 and 285 It shows how these two remarkable emperors were chiefly responsible for the Empire surviving and emerging largely intact from a period of intense crisis It was Aurelian who first united the breakaway regions including Zenobia s Palmyra and it was Probus who then secured his achievements The reigns of Aurelian and Probus have been subjected to many studies but none of these have approached the extant material purely from the point of view of military analysis Most importantly the previous historians have not exploited the analytical opportunities provided by the military treatises that describe the strategy and tactics of the period Roman army It is thanks to this new methodology that Ilkka Syväne has been able to reconstruct the military campaigns of these two soldier emperors and their other contemporaries in far greater detail than has been possible before Praise for Aurelian and Probus A critical work Aurelian and Probus is a very good look at a very confusing period in Roman history The NYMAS Review

Hiding in Plain Sight Christian P. Potholm,2021-10-22 *Hiding in Plain Sight* Women Warriors throughout Time and Space takes the many long standing dimensions of military history including the various modalities of warfare across cultures and periods and integrates them with the more recent and very substantial contributions of social history women s history black history feminist theory LGBTQ community and other perspectives By providing an extensive annotated bibliography of the new findings the work provides the reader with an exciting compilation of new knowledge placed within a longstanding military historical framework one which provides a broader study and understanding of warfare into which to put the very recent disparate findings culled from many disciplines The book reaffirms that women have long been deeply embedded in the practice of warfare not simply as victims or minor curiosities but as important actors tactically strategically in combat and directing warfare from afar just as their male counterparts The concomitant amalgam also shows that certain types and patterns of warfare such as the defense of castles and fortresses commanding a ship or a fleet revolutionary warfare and today s drone and cyber forms of warfare have been more conducive to female activity than other forms of warfare even as women are also present in a wider variety of other broader temporal and geographical dimensions of the history of warfare *Hiding in Plain Sight* is the only extensive annotated bibliography currently available which provides such a holistic overview of recent

scholarship by grounding that scholarship in the existing military canon and history **Understanding War** Christian P. Potholm, 2016-08-03 The third book in Professor Christian Potholm's war trilogy which includes *Winning at War* and *War Wisdom* *Understanding War* provides a most workable bibliography dealing with the vast literature on war and warfare As such it provides insights into over 3000 works on this overwhelmingly extensive material *Understanding War* is thus the most comprehensive annotated bibliography available today Moreover by dividing war material into eighteen overarching themes of analysis and fifty seminal topics and focusing on these *Understanding War* enables the reader to access and understand the broadest possible array of materials across both time and space beginning with the earliest forms of warfare and concluding with the contemporary situation Stimulating and thought provoking this volume is essential for an understanding of the breadth and depth of the vast scholarship dealing with war and warfare through human history and across cultures

Roman Army Units in the Eastern Provinces (2) Raffaele D'Amato, 2022-09-15 Drawing upon the latest literary and archaeological research this is an in depth study of the Roman Army units based in the Eastern Provinces during the turbulent third century of the Roman Empire In this book eminent Roman historian Dr Raffaele D Amato looks at the notoriously under represented history of the Roman armies during the middle 3rd Century whose records have been obscured by the chaotic civil wars of that period between usurpers to the Imperial authority of Rome Following on from the previous title MAA 527 *Roman Army Units in the Western Provinces 2 3rd Century AD* this book considers the evidence for troops in the Eastern half of the Empire specifically around the Balkans Mesopotamia the Middle East and North Africa and looks at the weakness of Imperial central authority which inevitably led to local particularism and a wide range of appearance in regional commands Dr D Amato uses literary painted sculptural and archaeological sources to reconstruct this little understood period of Roman military history and with the aid of meticulous coloured artwork photos and detailed charts reconstructs the appearance and campaigns of the Roman forces stationed in the East *Weapons & Warfare: Ancient and medieval weapons and warfare to c. 1500* ,2010 *A Military History of the Mediterranean Sea* ,2018-05-07 The

Mediterranean has always attracted the imagination of modern historians as the epicentre of great political entities such as the Egyptians Greeks Romans Arabs Ottomans Venetians and Spanish However it seems that the sea itself was always on the margins of historical inquiry at least until the publication of the famous two volume work by F Braudel in 1949 This collection of essays aims to offer a vertical history of war in the Mediterranean Sea from the early Middle Ages to the early modernity putting the emphasis on the changing face of several different aspects and contexts of war over time Contributors are Stephen Bennett Stathis Birtachas Cornel Bontea Wayne H Bowen Lilia Campana Raffaele D Amato Elina Gugliuzzo Nikolaos Kanellopoulos Savvas Kyriakides Tilemachos Lounghis Alan V Murray Chrysovalantis Papadamou Jacopo Pessina Philip Rance Georgios Theotokis Iason Tzouriadis Ian Wilson and Aysel Yildiz *The Age of Hippotaxotai* Ilkka Syväne, 2004

L'esercito romano da Romolo a re Artù, volume 1: da Romolo all'avvento di Ottaviano, VIII sec. a. C, fine I sec.

a. C. Marco Lucchetti, 2016-11-14 Questi tre libri raccontano l'incredibile avventura che portò un villaggio di pastori a diventare la più grande potenza militare che il mondo antico abbia mai conosciuto. La storia delle legioni e la descrizione delle tattiche e delle battaglie sono accompagnate da numerose immagini e da splendide tavole a colori. L'esercito romano da Romolo a re Artù, volume 3: da Caracalla a re Artù, inizio III, fine VI sec. d.C. Marco Lucchetti, 2016-11-14 Inizia la decadenza dell'impero ed anche il suo esercito sottoposto a continui mutamenti per adeguarsi ai Barbari che sempre più potenti invadono i territori di Roma. Caduto l'Impero d'Occidente con Giustiniano e Arturo la tradizione dei soldati romani rivive ancora momenti di gloria. Il periodo del tardo Impero e della sua caduta raccontato attraverso le battaglie e le vite degli ultimi Magistres Militum. 16 splendide tavole a colori e numerose illustrazioni.
