Rooted In Faith Meditations From The Reformers:

Rooted in Faith Bernard Bangley, 2003 Rooted in Faith Daily Readings from the Early Protestant Church contains 365 daily devotional readings taken from the writings of early Protestant authors carefully selected and modernized by Bernard The Night Offices Phyllis Tickle, 2006-11-13 Phyllis Tickle's inspirational trilogy. The Divine Hours was the first major literary and liturgical reworking of the sixth century Benedictine Rule of fixed hour prayer an age old discipline of saying prayers at certain times of the day This highly regarded trilogy has become one of America's best loved and most frequently consulted manuals for observing this ancient form of Christian worship Now in The Night Offices Tickle offers the perfect complement to The Divine Hours bringing together prayers psalms hymn texts religious poetry and other readings not included in the original trilogy covering the offices for the hours from late evening Compline to early morning Prime Fans of the Divine Hours will recognize Tickle's simple elegant format her use of a modern calendar rather than a liturgical one and the single ribbon in the binding to track one s progress through the year As in the trilogy Tickle makes primary use of the Book of Common Prayer and the writings of the Church Fathers and she draws all the scriptural readings from the Revised Standard Version The book includes a set of Matins Lauds and Prime specific to each day of the week and varied only by month Thus the Monday reading for January would be used every Monday in January but Monday in February would have new offices for it The cumulative total being 84 Matins 84 Lauds and 84 Prime 252 offices fits neatly into a single nightstand edition a small compact book that can be comfortably held in the hand Easy to use poetically rich with a superb sampling of devotional works The Night Offices will be welcomed by a broad readership Christian and non Christian alike Synagogue Libraries, 2003 Reformation Roots: Barbara Brown Zikmund, John B. Meditation, Buddhism, and Science David McMahan, Erik Braun, 2017-09-20 The scientific study of Buddhist forms of meditation has surged in recent years capturing the popular imagination and reshaping conceptions of what meditation is and what it can do For perhaps the first time in history meditation has shifted from Buddhist monasteries and practice centers to some of the most prominent and powerful modern institutions in the world as well as non institutional settings As their contexts change so do the practices sometimes drastically New ways of thinking about meditation are emerging as it

moves toward more secular settings ways that profoundly affect millions of lives all over the world To understand these changes and their effects the essays in this volume explore the unaddressed complexities in the interrelations between Buddhist history and thought and the scientific study of meditation The contributors bring philosophical cultural historical and ethnographic perspectives to bear considering such issues as the philosophical presuppositions behind practice the secularization of meditation the values and goods assumed in clinical approaches and the sorts of subjects that take shape under the influence of these transformed and transformative practices all the more powerful for being so often formulated with the authority of scientific discourse The Roots of the Reformation G. R. Evans, 2012-08-02 G R Evans revisits the question of what happened at the Reformation She argues that the controversies that roiled the era are part of a much longer history of discussion and disputation By showing us just how old these debates really were Evans brings into high relief their unprecedented outcomes at the moment of the Reformation The Reformation of Faith in the Context of Late Medieval Theology and Piety Berndt Hamm, 2004 This book is the first major collection of articles by Berndt Hamm in English translation The articles employ previously neglected sermons devotional and pastoral treatises to reassess the question of continuity and change between late medieval and Reformation theology and piety **The Catholic Reformation** James E. Crankshaw, George W. C. Gross, 2020-11-10 This book highlights the pivotal roles of individuals in England's complex sixteenth century reformations While many historians study broad themes such as religious moderation this volume is centred on the perspective that great changes are instigated not by themes or isms but rather by people a point recently underlined in the 2017 quincentenary commemorations of Martin Luther's protest in Germany That sovereigns from Henry VIII to Elizabeth I largely drove religious policy in Tudor England is well known Instead the essays collected in this volume inspired by the quincentenary and based upon original research take a novel approach emphasizing the agency of some of their most interesting subjects Protestant and Roman Catholic clerical and lay men and women With an introduction that establishes why the commemorative impulse was so powerful in this period and explores how reputations were constructed perpetuated and manipulated the authors of the nine succeeding chapters examine the reputations of three archbishops of Canterbury Thomas Cranmer Matthew Parker and John Whitgift three pioneering bishops wives Elizabeth Coverdale Margaret Cranmer and Anne Hooper two Roman Catholic martyrs John Fisher and Thomas More one evangelical martyr other than Cranmer Anne Askew two Jesuits John Gerard and Robert Persons and one author whose confessional identity remains contested Anthony Munday Partly biographical though mainly historiographical these essays offer refreshing new perspectives on why the selected figures are famed or should be famed and discuss what their reformation reputations tell us today The Reformation Heiko Oberman, 2004-07-09 In this wide ranging volume Heiko Oberman traces threads of continuity flowing to and through the Reformation Many his most important studies appear here in English for the first time Professor Oberman explores experiential mysticism the battle on two fronts waged by the Wittenburg circle against Pierias and Eck Luther's medieval and apocalyptical conception of reformatio and its purpose the pre history of confessionalization in the Confession of Ausburg and its Confutatio byt Luther's Roman opponents Zwingli's plans for a Godly alliance in the southern Germanic ecumene and the destructive tensions between Zwingli and Luther In the final chapter Oberman describes a model of three long term Reformations that can also be seen as revolutions the Concillar Reformation the City Reformation and the Calvinist Reformation of the Refugees The often denied and generally misunderstood continuities between theological directions of the later Middle Ages the theological reformation of the early sixteenth century and subsequent developments are constantly illuminated through exacting detail and compelling insights Vittoria Colonna

and the Spiritual Poetics of the Italian Reformation Abigail Brundin, 2016-02-11 Vittoria Colonna was one of the best known and most highly celebrated female poets of the Italian Renaissance Her work went through many editions during her lifetime and she was widely considered by her contemporaries to be highly skilled in the art of constructing tightly controlled and beautifully modulated Petrarchan sonnets In addition to her literary contacts Colonna was also deeply involved with groups of reformers in Italy before the Council of Trent an involvement which was to have a profound effect on her literary production In this study Abigail Brundin examines the manner in which Colonna's poetry came to fulfil in a groundbreaking and unprecedented way a reformed spiritual imperative disseminating an evangelical message to a wide audience reading vernacular literature and providing a model of spiritual verse which was to be adopted by later poets across the peninsula She shows how through careful management of an appropriate literary persona Colonna's poetry was able to harness the power of print culture to extend its appeal to a much broader audience In so doing this book manages to provide the vital link between the two central facets of Vittoria Colonna's production her poetic evangelism and her careful construction of a gendered identity within the literary culture of her age The first full length study of Vittoria Colonna in English for a century this book will be essential reading for scholars interested in issues of gender literature religious reform or the dynamics of cultural transmission in sixteenth century Italy It also provides an excellent background and contextualisation to anyone wishing to read Colonna's writings or to know more about her role as a mediator between the worlds of courtly Petrachism and religious reform
