Roots Of National Socialism:

The Cultural Roots of National Socialism Hermann Glaser, 2019-06-26 Originally published in 1978 this book discusses some of the most important problems of 20th Century The central concern of the volume is the deep rooted provincialism which has pervaded the German cultural scene since the middle of the 19th Century The causes and consequences of cultural developments which made the most tragic period of German history possible are reflected upon in this outstanding work The Roots of National Socialism, 1783-1933 Rohan d'Olier Butler, 1968 **The Russian Roots of Nazism** Michael Kellogg, 2005-05-12 This book analyses the contributions of White migr s anti Bolshevik Russian exiles to Nazism **Scientific Origins of National Socialism** Daniel Gasman, The Roots of National Socialism Rohan d'Olier Butler, 1942 Catholicism and the Roots of Nazism Derek Hastings, 2011 Derek Hastings illuminates an important and largely overlooked aspect of Nazi history revealing National Socialism s close early ties with Catholicism in the years immediately after World War I when the movement first emerged Jacket **The Roots of Nazi Psychology** Jay Y. Gonen, 2013-07-24 Was Hitler a moral aberration or a man of his people This topic has been hotly argued in recent years and now Jay Gonen brings new answers to the debate using a psychohistorical perspective contending that Hitler reflected the psyche of many Germans of his time Like any charismatic leader Hitler was an expert scanner of the Zeitgeist He possessed an uncanny ability to read the masses correctly and guide them with new ideas that were merely reflections of what the people already believed Gonen argues that Hitler s notions grew from the general fabric of German culture in the years following World War I Basing his work in the role of ideologies in group psychology Gonen exposes the psychological underpinnings of Nazi Germany s desire to expand its living space and exterminate Jews Hitler responded to the nation s group fantasy of renewing a Holy Roman Empire of the German nation He presented the utopian ideal of one large state where the nation represented one extended family In reality however he desired the triumph of automatism and totalitarian practices that would preempt family autonomy and private action Such a regimented state would become a war machine designed to breed infantile soldiers brainwashed for sacrifice To achieve that aim he unleashed barbaric forces whose utopian features were the very aspects of the state that made it most cruel *The Occult in National Socialism* Stephen E. Flowers, 2022-09-20 A critical history of the roots of Nazi occultism and its continuing influence Explores the occult influences on various Nazi figures including Adolf Hitler Albert Speer Rudolf Hess Alfred Rosenberg and Heinrich Himmler Examines the foundations of the movement laid in the 19th century and continuing in the early 20th century Explains the rites and runology of National Socialism the occult dimensions of Nazi science and how many of the sensationalist descriptions of Nazi Satanic practices were initiated by Church propaganda after the war In this comprehensive examination of Nazi occultism Stephen E Flowers Ph D offers a critical history and analysis of the occult and esoteric streams of thought active in the Third Reich and the growth of occult Nazism at work in movements today Sharing the culmination of five

decades of research into primary and secondary sources many in the original German Flowers looks at the symbolic occult scientific and magical traditions that became the foundations from which the Nazi movement would grow He details the influences of Theosophy Volkism and the work of the Brothers Grimm as well as the impact of scientific culture of the time Looking at the early 20th century he describes the impact of Guido von List Lanz von Liebenfels Rudolf von Sebottendorf Friedrich Hielscher and others Examining the period after the Nazi Party was established in 1919 and more especially after it took power in 1933 Flowers explores the occult influences on key Nazi figures including Adolf Hitler Albert Speer Rudolf Hess and Heinrich Himmler He analyzes Hitler's usually missed references to magical techniques in Mein Kampf revealing his adoption of occult methods for creating a large body of supporters and shaping the thoughts of the masses Flowers also explains the rites and runology of National Socialism the occult dimensions of Nazi science and the blossoming of Nazi Christianity Concluding with a look at the modern mythology of Nazi occultism Flowers critiques postwar Nazi related literature and unveils the presence of esoteric Nazi myths in modern occult and political circles

The Scientific Origins of National Socialism Daniel Gasman, 2017-07-12 Many studies of the origins of National Socialism claim that the völkisch and proto Nazi movement arose largely as a reaction to the materialistic ideas of nineteenth century science and especially to the naturalistic philosophy of Ernst Haeckel and the German Monist League Using hitherto unexplored material Daniel Gasman calls this generalization into question Arguing that the importance of science has been relatively neglected in accounts of the intellectual origins of Nazism he attempts to show that Haeckel's scientific Darwinism and his movement the German Monist League were proto Nazi in character Contrary to popular belief Haeckel's type of social Darwinism actually played a critical role in the formation of National Socialist ideology In his new introduction Gasman notes that recent research goes far to confirm Haeckel's role as an ideological progenitor of fascist ideology This is true not only for Germany but also for the birth of fascist thought in Italy and France In general Gasman claims the history of science plainly reveals how Haeckel's social Darwinism nourished the roots of fascism no less than avant garde modernism When *The Scientific Origins of National Socialism* initially appeared the Times Literary Supplement called it a very well argued thesis that is completely successful and leaves the reader to extract his own moral lessons Medical History in its review of *The Scientific Origins of National Socialism* said His book is essential for understanding modern Germany It has a general message derived from the events in Germany where scientific data were permitted to take on a mystical significance with ghastly consequences Bruce Chatwin in the New York Review of Books called the book brilliant Now available in paperback with a new introduction by the author this seminal work will be of interest to intellectual historians as well as the *"The" Roots of National Socialism* Rohan D'Olier Butler, 1961 [Right-Wing Radicalism and National Socialism in Germany](#) Ingvar Kolden, 2021-04-23 This book explores the total resistance to Nazism among the Catholic Christian voters of the Zentrum party in the elections in German states in the Interwar period Kolden explains the unique Catholic resistance by comparing

the diverging evolutions of Catholic and Protestant cultures and mentalities since the awakening of German nationalism in the late eighteenth century During the Empire 1871-1918 both socialists and Catholics were regarded as pariah groups by the dominant non socialist Protestant majority and more so after the WWI defeat when the pariah parties together with Protestant liberals tried to accommodate the new democratic circumstances with their Weimar Constitution When right wing radicals and eventually the Nazis increased their support largely on behalf of the rapidly shrinking number of liberals the Catholic church leaders showed a stubborn stance against the rightists issuing several resolutions of condemnation whereas no such appeared from their Protestant counterparts In contrast many local Protestant clergymen agitated for the Nazi party The anti Catholic sentiment obvious among prominent Nazis enhanced the antagonism especially after the publication of Alfred Rosenberg's *The Myth of the 20th Century* in 1930 The basic and profound confessional difference appears in the less Christian profiled agrarian parties anti Semitic and right wing radical Protestant parties confronted by one left wing and democratic Catholic party By 1945 the bulk of the former rightist Protestants sided with the Catholics who reorganized their party to the non denominational CDU which has been the mightiest proponent in Europe of the former party's ambitions of democracy stability anti racism human rights and European unity

The Ideological Roots of German National Socialism Eric H. Vieler, 1999 The research reveals linkages among three dominant strains of racist thought mythological intellectual its roots in ancient saga proclaimed the Nordic as the ideal race and urged its regeneration biological based on Darwinian theory became the scientific basis for the claim of German superiority and was the dominant influence on Hitler nationalist conservative called for a strong state to be governed by a single individual *The Roots of National Socialism, 1793-1933* Rohan d'Olier Butler, 1968 *The Occult Roots of Nazism* Nicholas Goodrick-Clarke, 1985 Describes the origins of Ariosophy and mentions its close links with antisemitism The founders of Ariosophy Guido von List and Joerg Lanz von Liebenfels combined theosophy occult freemasonry and pagan German religion to create a myth of Aryan superiority and a secret order working to restore the lost racially pure society Lanz's magazine *Ostara* was widely read in prewar Vienna After the crisis of 1918 blamed by Lanz on a Jewish Bolshevik Freemason alliance he became rabidly antisemitic His ideas influenced Nazism through two virulently antisemitic groups the Reichshammerbund and the secret Germanenorden founded in 1912 and also inspired by List The latter was revived in Bavaria in 1918 as the Thule Society and was active in the counter revolution Hitler came into contact with the group in Munich Concludes that Ariosophy was a symptom of the political and cultural climate rather than a direct influence on Nazism

modern reframing of Friedrich Hayek's most famous work for the 21st century Friedrich Hayek's *The Road to Serfdom* was both an intellectual milestone and a source of political division spurring fiery debates around capitalism and its discontents In the ensuing discord Hayek's true message was lost liberalism is a thing to be protected above all else and its alternatives are perilous In *Liberalism's Last Man* Vikash Yadav revives the core of Hayek's famed work to map today's primary political anxiety the tenuous state of liberal meritocratic capitalism particularly in North America Europe and Asia in the face of strengthening political capitalist powers like China Vietnam and Singapore As open societies struggle to match the economic productivity of authoritarian capitalist economies the promises of a meritocracy fade Yadav channels Hayek to articulate how liberalism's moral backbone is its greatest defense against repressive social structures *Leo Strauss and the Theopolitics of Culture* Philipp von Wussow, 2020-04-15 2020 CHOICE Outstanding Academic Title In this book Philipp von Wussow argues that the philosophical project of Leo Strauss must be located in the intersection of culture religion and the political Based on archival research on the philosophy of Strauss von Wussow provides in depth interpretations of key texts and their larger theoretical contexts Presenting the necessary background in German Jewish philosophy of the interwar period von Wussow then offers detailed accounts and comprehensive interpretations of Strauss's early masterwork *Philosophy and Law* his wartime lecture *German Nihilism* the sources and the scope of Strauss's critique of modern relativism and a close commentary on the late text *Jerusalem and Athens* With its rare blend of close reading and larger perspectives this book is valuable for students of political philosophy continental thought and twentieth century Jewish philosophy alike It is indispensable as a guide to Strauss's philosophical project as well as to some of the most intricate details of his writings

The Rise of National Socialism in the Bavarian Highlands Edith Raim, 2021-12-28 *The Rise of National Socialism in the Bavarian Highlands* offers a microhistory of the town of Murnau between 1919 and 1933 a period which witnessed the rise of national socialism in Germany National socialism had its roots in Bavaria where the Weimar Republic found it difficult to secure popular support amongst the rural population It was in this region that economic hardship and effective national socialist propaganda furthered the erosion of democracy Focusing on Murnau this book examines the political and economic state of the town as well as the mentality and social composition of its inhabitants It also looks at the development of tourism in the interwar period a topic which has received little scholarly attention Although the study limits itself to one town the reactions of its inhabitants reflect a common attitude of nostalgia for a seemingly better past and a rejection of the excessive demands of modernity that the Weimar Republic exacted on them This book will appeal to scholars and students of national socialism as well as those interested in the Weimar Republic Nazi Germany microhistory and the history of tourism
