Time in Our Times Astrid Marie Holand, 2024-07-22 What is happening to perceptions of time durability and reality in the twenty first century and how do we deal with it This anthology explores a diversity of uncommon insights about time as seen from our historical and geographical standpoint All contributions discuss how time can be seen and how these views relate to changes in nature technology economy working life politics religion or philosophy specific to our own time Findings are discussed within three themed sections In Search of a Deeper Theory of Time Time as Social Expectancy and Time as Lived Experience Contributions in this volume span from classical theory on branching time to personal experiences of drug addicts time Together these diverse contributions shed new light on how construction perception and regulation of time influences a person s whole being in the world collectively and individually in the short and very long run from the beginning of the Anthropocene to future cybertime *Sociological Theory* Bert N. Adams, R. A. Sydie, 2001-01-30 This book connects theorists and their work to larger themes and ideas All too often in the opinion of the authors theory texts focus too much on individual theorists and insufficiently on the relationship between their theories and how these have contributed in turn to the evolution of ideas concerning social life Treatment of individual theories and theorists is balanced with the development of key themes ideas about social life introduced in Chapter 1 which then reappear in the discussion of individual theorists and their work A key organizing principle of this text is to trace major schools of thought over the past 150 years as they appear and reappear in different chapters Section 1 introductions help remind students of the big picture within which any given theory or theorist is only one part A consistent organization and presentation within chapters helps provide students with a context for learning and a means of much more easily comparing and contrasting theorists and their ideas Important new voices in a text for social theory In Chapter 2 Harriet Martineau is introduced as one of sociology s founders From then on the views of women theorists and others are represented in far more than token fashion Examples include W E B DuBois Marianne Weber Charlotte Gilman Rosa Luxemburg Joseph Schumpeter V I Lenin Niklas Luhmann Theda Skocpol Erik Wright Elman Service Arlie Hochschild Dorothy Smith Patricia Hill Collins and Immanuel Wallerstein A timeline showing when social theorists lived and wrote and connecting their biographies to important social events over 300 years is at the back of the text The organization of every chapter along similar lines provides a consistency in presentation that encourages comparisons among the theorists The authors do a very good job presenting overlooked theorists and making their relevance to social theorizing doing sociology clear Joan Alway formerly University of Miami The strengths of this text are the breadth of theories covered the integration of gender related topics family work religion the use of substantial quotes from primary texts the consistent inclusion of methodological issues and the goals of the project to provide an expansive and readable theory text I have no doubt that it will find a solid position in the field of popular theory texts for undergraduate course use

Kathleen Slobin North Dakota State University *Classical Sociological Theory* Bert N. Adams, R A Sydie, 2002-01-29 This is an eminently lucid readable and comprehensive survey of classical sociological theory Adams and Sydie provide thoughtful summaries and assessments of the works of dozens of social thinkers By significantly broadening the cannon and devoting special attention to class gender and race they bring theory up to date even as they take seriously the rich legacy of the past I have never read a more exciting introduction to the theories of our discipline Mustafa Emirbayer University of Wisconsin Madison A concise yet surprisingly comprehensive theory text given the range of ideas historical context and theorists discussed Unlike other books of the type *Classical Sociological Theory* focuses on how the pivotal theories contributed not only to the development of the field but also to the evolution of ideas concerning social life **Marxism for Our Times** Martin Glaberman, 1999 Rarely as in the collection here can one encounter an essayist novelist historian and political leader like the late C L R James in the working throes of forming and then fomenting personal political theory In *Marxism for Our Times* editor Martin Glaberman has gathered the writings and theoretical discussions of this noted Caribbean writer These pamphlets mimeographs letters and lectures by James were nearly inaccessible until now Within these works James works to situate himself within the classical Marxist tradition while rejecting the Vanguard Party as unsuitable for our times The writings in this collection begin in the 1940s when Marxists were wrestling with acts that many deemed betrayals of the revolution Stalin's pact with Hitler and the war in Europe They end in the late sixties just before the dissolution of Facing Reality the final form of the American Marxist organization founded on James's principles For many years James born in Trinidad and Tobago was leader of the Trotskyists in the United States He continued his work even after his exile from America Of great value to scholars of Marxism are the papers in which James examines Marx Lenin and Trotsky and applies their theories to the class conflicts he was witnessing at mid century and to changes he foresaw in the future James argues for the rejection of historical principles and theories and urges Marxists to adapt themselves to changes occurring in capitalism and the working class Glaberman worked alongside James but sometimes disagreed with him in the movement James founded They were close associates for 45 years With *Marxism for Our Times* Glaberman not only has preserved and made available the political theories of a noted writer but he also has created a window on a turbulent period of optimism and failure a failure Glaberman calls rich in meanings and lessons for anyone interested in a democratic revolutionary Marxism C L R James is the author of the novel *Minty Alley* and *The Black Jacobins* the classic history of the Haitian Revolution and many other works Martin Glaberman is a professor emeritus at Wayne State University in Detroit He joined the socialist movement at age thirteen and worked for twenty years in the auto industry and as an active union member

Moments of Decision Stephen Eric Bronner, 1992 *Moments of Decision* takes a fascinating look at the course of radicalism in our time It orients progressives with respect to their traditions shows the relevance of the past to the present and provides a new political interpretation of the struggle for democracy and economic justice **World War I** Spencer C.

The SAGE Encyclopedia of World Poverty Mehmet Odekon,2015-06-15 The SAGE Encyclopedia of World Poverty Second Edition addresses the persistence of poverty across the globe while updating and expanding the landmark work Encyclopedia of World Poverty originally published in 2006 prior to the economic calamities of 2008 For instance while continued high rates of income inequality might be unsurprising in developing countries such as Mexico the Organization of Economic Co operation and Development OECD reported in May 2013 even countries with historically low levels of income inequality have experienced significant increases over the past decade including Denmark Sweden and Germany The U N and the World Bank also emphasize the persistent nature of the problem It is not all bad news In March 2013 the Guardian newspaper reported Some of the poorest people in the world are becoming significantly less poor according to a groundbreaking academic study which has taken a new approach to measuring deprivation The report by Oxford University s poverty and human development initiative predicts that countries among the most impoverished in the world could see acute poverty eradicated within 20 years if they continue at present rates On the other hand the U N says environmental threats from climate change could push billions more into extreme poverty in coming decades All of these points lead to the need for a revised updated and expanded edition of the Encyclopedia of World Poverty Key Features 775 evaluated and updated and 175 entirely new entries New Reader s Guide categories Signed articles with cross references Further Readings will be accompanied by pedagogical elements Updated Chronology Resource Guide Glossary and thorough new Index The SAGE Encyclopedia of World Poverty Second Edition is a dependable source for students and researchers who are researching world poverty making it a must have reference for all academic libraries [The Evolution of Socialist Feminism from Eleanor Marx to AOC](#) Karen Bojar,2024-11-21 The Evolution of Socialist Feminism from Eleanor Marx to AOC traces the

intersection of feminism and socialism as it has played out in the socialist movements arising in Europe and North America in the nineteenth through early twenty first centuries From well known figures in the history of socialism such as Rosa Luxemburg Sylvia Pankhurst and Angela Davis to lesser known individuals including Claudia Jones Sheila Rowbotham and Zillah Eisenstein this book examines the socialist feminists who have been among the most powerful voices insisting on freedom of expression and participatory democracy within the socialist movement as well as within the larger society It considers how these figures contributed to what has become a twenty first century multiracial grassroots socialist feminist movement led by young women of color playing a major role in radical movements across the globe The Evolution of Socialist Feminism from Eleanor Marx to AOC is an important text for undergraduate students of politics sociology and gender studies as well as for the general reader

Popular Culture as Art and Knowledge George A. Gonzalez, 2019-01-15 This volume settles the debate between analytic and continental philosophy It turns to art more specifically popular culture to demonstrate the validity of continental philosophy Drawing on the philosophy of Georg Hegel perhaps the most important of continental philosophers James Kreines holds that reason in the world metaphysically exists Reasons of the world are reasons of the Hegelian Absolute Thus similar to the fact that gravity is curves in the space time continuum along which matter moves reasons are the grooves in the Absolute along which human decision making occurs Art allows us to conceptualize understand speculate about the grooves reasons of the Absolute Two key points can be drawn from Kreines s position first normative values are embedded in reality Thus in complete contradistinction to analytic philosophy there is no bifurcation between the empirical and the normative to exist is to have normative value Secondly the role of social science is to cogitate explore identify the reasons of the world that shape social political norms Such an approach would decisively move the social sciences away from an emphasis on statistically significant patterns of human behavior e g voting studies and toward an approach that seeks to analyze the reasons of the world that motivate shape social and political decisions Art particularly popular culture becomes an important source in identifying the way that people reason about the world and how they perceive political elites reasoning in the world To adjudicate between continental and analytic philosophy this book on relies on the broadcast iterations of Star Trek as well as Nazi cinema With regard to contemporary American politics in addition to Star Trek it draws on the television series Game of Thrones Veep House of Cards and The Man in the High Castle Popular culture is germane to philosophy and contemporary politics because television movie creators frequently try to attract viewers by conveying authentic philosophical and political motifs Conversely viewers seek out authentic movies and television shows This is in contrast to opinion surveys for instance as the formation of the data begins with the surveyor seeking to directly solicit an opinion however impromptu or shallow

Popular Culture, Conspiracy Theory, and the Star Trek Text George A. Gonzalez, 2020-03-04 The forward progress of society is not automatic and should not be taken for granted The assassination of President John F Kennedy in 1963 can be viewed as ending his effort to deploy American

prestige and power to forward change worldwide Today there are political forces seeking to stop progressive social political and economic change Whatever the reasons such forces are conspiring to impose authoritarianism to suppress the public s desire for just democratic government The brutality violence viciousness and racism dystopia of authoritarianism are becoming more and more the hallmark of world politics Perhaps the most glaring aspect of this dystopia is the fact that the American state has been almost continuously at war for the past thirty years including a sinister dastardly drone assassination program One means to obscure the ongoing conspiracy to ultimately impose outright dictatorship on the American people and the rest of the world is to smear and malign critics of this conspiracy as guilty of conspiracy theory advocating and embracing baseless fantasies

A Political Biography of Arkadij Maslow, 1891-1941 Mario Kessler,2020-04-30 This book is a political biography of Arkadij Maksimovich Maslow 1891 1941 a German Communist politician and later a dissident and opponent to Stalin Together with his political and common law marriage partner Ruth Fischer Maslow briefly led the Communist Party of Germany the KPD and brought about its submission to Moscow Afterwards Fischer and Maslow were removed from the KPD leadership in the fall of 1925 and expelled from the party a year later Henceforth they both lived as communist outsiders persecuted by both Hitler and Stalin Maslow escaped to Cuba via France and Portugal and was murdered under dubious circumstances in Havana in November 1941 He died as a communist dissident committed to the cause of a radical socialist labor movement that lay in ruins Kessler considers Maslow s role in pivotal events such as the Bolshevik Revolution in Soviet revolutionary parties and organizations through to the rise of Stalinism and Cold War anti communism What results is a deep dive into the life of a key yet understudied figure in dissident communism

Trahair, 2013-10-31 Utopian ventures are worth close attention to help us understand why some succeed and others fail for they offer hope for an improved life on earth Utopias and Utopians is a comprehensive guide to utopian communities and their founders Some works look at literary utopias or political utopias etc and others examine the utopias of only one country this work examines utopias from antiquity to the present and surveys utopian efforts around the world Of more than 600 alphabetically arranged entries roughly half are descriptions of utopian ventures the other half are biographies of those who were involved Entries are followed by a list of sources and a general bibliography concludes the volume Popular Culture and the Political Values of Neoliberalism George A. Gonzalez, 2019-02-01 Reality is made up of the Absolute and Causality The absolute most saliently philosophized about by Georg Hegel is where normative values inhere Causality can be described as the measurable effects of the normative values of the absolute and the laws of physics also ostensibly a product of the absolute Humans are special insofar as they access the higher aspects of the Absolute altruism compassion love humor science engineering etc The Absolute also contains what can be considered the less attractive values or impulses greed lust for power hate self centeredness conceit etc Predicating society on what I deem the lower spirits aspects of the absolute most prominently greed results in personal social dysfunction and ultimately the end of civilization Conversely a society based on justice is stable and vibrant Justice is a classless society free of gender and ethnic biases My argument is based on popular culture especially the Star Trek franchise One implication of my thesis is that capitalist values generate psychological neurosis and societal instability even catastrophe Additionally the political values that dominate the current neoliberalist world system and especially the American government are the other the will to power resulting in war and global political instability Popular culture is germane to philosophy and contemporary politics because television movie creators frequently try to attract viewers by conveying authentic philosophical and political motifs Conversely viewers seek out authentic movies and television shows This is in contrast to opinion surveys for instance as the formation of the data begins with the surveyor seeking to directly solicit an opinion however impromptu or shallow **Economics After Capitalism** Derek

Wall, 2015-06-20 There is no alternative has been the unofficial mantra of the neoliberal order since its utterance by Margaret Thatcher in the 1980s However there is an alternative to our crisis ridden austerity inflicted world and not just one alternative but many Challenging the arguments for markets mainstream economics and capitalism from Adam Smith onwards Economics After Capitalism provides a step by step guide to various writers movements and schools of thought critical of neoliberal globalisation These range from Keynesian inspired reformists such as Geroge Soros and Joseph Stiglitz critics of inequality like Thomas Piketty and Amaitya Sen to more radical voices including Naomi Klein Marxists such as David Harvey anarchists and autonomists including Toni Negri and Michael Hardt By providing a clear and accessible guide to the economics of anti capitalism Derek Wall successfully demonstrates that an open source eco socialist alternative to rampant climate change elite rule and financial chaos is not just necessary but possible
