Rosa Luxemburg:

The Complete Works of Rosa Luxemburg Volume V Rosa Luxemburg, 2024-05-28 This volume is the first to contain all of Rosa Luxemburg's eloquent writings on the 1917 Russian and 1918-19 German revolutions. Also contained here are articles, essays, and manuscripts on the European socialist movement prior to World War I and on her efforts to rebuild the socialist movement on revolutionary foundations in its aftermath. Much of this material appears in English for the first time. Luxemburg's contributions on revolutionary strategy and the transition to socialism reveal a profound commitment to radical democracy which becomes evident as she elaborates on her lived experience with razor sharp conceptualizations of the mass strike. Her democratic commitment is also highlighted in her deepening conflict with the bureaucratic conservatism afflicting the German Social Democratic Party. She is horrified yet at the same time grimly analytical while surveying the unfolding violence and brutality of World War I. Deeply inspired by Russia's 1917 upsurge, she is nonetheless compelled to analyze and criticize fatal limitations of the Russian Revolution. Swept up in the revolutionary chaos sweeping through Germany in 1918-19 which results in her own martyrdom, she gives voice on the eve of her assassination to the revolution's final testament: "I was I am I shall be."

The Complete Works of Rosa Luxemburg Volume III Rosa Luxemburg, 2019-01-08 This collection is the first of three volumes of the Complete Works devoted to the central theme of Rosa Luxemburg's life and work: revolution. Spanning the years 1897 to the end of 1905, they contain speeches, articles, and essays on the strikes, protests, and political debates that culminated in the 1905 Russian Revolution, one of the most important social upheavals of modern times. Luxemburg's near-daily articles and reports during 1905 on the ongoing revolution, which comprises the bulk of this volume, shed new light on such issues as the relation of spontaneity and organization, the role of national minorities in social revolution, and the inseparability of the struggle for socialism from revolutionary democracy. We become witness to Luxemburg's effort to

respond to the impulses challenges and ideas arising from a living revolutionary process which in turn becomes the source of much of her subsequent political theory such as her writings on the mass strike her strident internationalism and her insistence that revolutionary struggle never take its eyes off of the need to transform the human personality Virtually all of these writings appear in English for the first time translated from both German and Polish and many have only recently been identified as having been written by Luxemburg
