Supreme Court, 1913 *Queering the Chilean Way* Carl Fischer, 2016-11-11 This book examines and critiques the fact that Chile's claims to economic exceptionalism have been embodied often quite aggressively in a heterosexual and primarily male ideal Despite the many shifts Chilean economics and politics have undergone over the past fifty years the country's view of itself as a model in contrast to other Latin American countries has remained constant By deploying an artistic literary and cinematic archive of queer figures from this period this book draws parallels among the exceptionalisms of Chile's economic discourse the subjects deemed most and least apt to embody it and the maneuvers of its cultural production between local and global ideas of gender and politics to delineate its place in the world *Queering the Chilean Way* thus sheds light on the sexual economic and aesthetic dimensions of exceptionalism at its heart a discourse of exclusion that often comprises a major element of nationalism in Chile and throughout the Americas **Chile of Today**

Vélez-Ibáñez, 2010-12-15 They are known as cundinas or tandas in Mexico and for many people these local savings and loan operations play an indispensable role in the struggle to succeed in today's transborder economy With this extensively researched book Carlos Vélez Ibáñez updates and expands upon his major 1983

study of rotating savings and credit associations ROSCAs incorporating new data that reflect the explosion of Mexican origin populations in the United States Much more than a study of one economic phenomenon though the book examines the way in which these practices are part of greater transnational economies and how these populations engage in and suffer through the twenty first century global economy Central to the ROSCA is the cultural concept of mutual trust or *confianza* This is the cultural glue that holds the reciprocal relationship together As V lez Ib ez explains *confianza* shapes the expectations for relationships within broad networks of interpersonal links in which intimacies favors goods services emotion power or information are exchanged In a border region where migration class movement economic changes and institutional inaccessibility produce a great deal of uncertainty Mexican origin populations rely on *confianza* and ROSCAs to maintain a sense of security in daily life How do transborder people adapt these common practices to meet the demands of a global economy That is precisely what V lez Ib ez investigates
