Rose And The Thorn Semiotic Structures In Morocco:

The Rose and the Thorn Roger Joseph, Terri Brint Joseph, 1987 Culture and Customs of Morocco Raphael Chijioke Njoku, 2005-12-30 Moroccan culture today is a blend of Berber African Arab Jewish and European influences in an Islamic state Morocco's strategic position at the tip of North Africa just below Spain has brought these cultures together through the centuries The parallels with African and Middle Eastern countries and other Muslim cultures are drawn as the major topics are discussed yet the uniqueness of Moroccan traditions particularly those of the indigenous Berbers stand out The narrative emphasizes the evolving nature of the storied subcultures With more exposure to Western style education and pop culture the younger generations are gradually turning away from the strict religious observances of their elders General readers finally have a substantive resource for information on a country most known in the United States for the Humphrey Bogart classic Casablanca images of the souks markets hashish and Berber rugs The strong introduction surveys the people land government economy educational system and history Most weight is given to modern history with French colonial rule ending in 1956 and a succession of monarchs since then The discussion of religion and worldview illuminates the Islamic base and Jewish communities but is also notable for the discussion of Berber beliefs in spirits In the Literature and Media chapter the oral culture of the Berbers and the new preference for Western style education and use of French and even English are highlights The Moroccans are renowned as skilled artisans and their products are enumerated in the Art and Architecture Housing chapter along with the intriguing descriptions of casbahs and old quarters in the major cities Moroccans are hospitable and family oriented which is reflected in descriptions of their cuisine and social customs Moroccan women seem to be somewhat freer than others in Muslim countries but the chapter on Gender Roles Marriage and Family shows that much progress is still needed Ceremonies and celebrations are important cultural markers that bring communities together and a wealth of religious national and family rites of passage with accompanying music and dance round out the cultural coverage **Tribe and Society in Rural Morocco** David M. Hart, 2014-05-12 An anthropological study of Berber society and particularly the Rifian tribes of Morocoo a Muslim society This book deals with the background of these tribes their settlement in various areas and contemporary issues **Historical Dictionary of Morocco** Aomar Boum, Thomas K. Park, 2016-06-02 A historical reference work on Morocco must take as its subject al maghrib al agsa the far west as the Arabic scholars have generally referred to the approximate region of present day Morocco roughly the north west corner of Africa but at times including much of the Iberian peninsula because the modern nation state is a relatively recent creation owing much to events in the late 19th and early 20th centuries External influences on Morocco tend to come across the narrow straits of Gibraltar to the north from the east along the Mediterranean litoral or up from the Sahara In each case access is constrained by geography and continued control from outside the region has been difficult to manage over the long term Although many of the dynasties that came to power in Morocco conquered much broader regions history and topology

have so conspired that there is still more coherence to an historical focus on all maghrib all ages at than is the case for most modern nation states This third edition of Historical Dictionary of Morocco contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Morocco Matriarchy, Patriarchy, and Imperial Security in Africa Marsha Robinson, 2012-09-06 Matriarchy Patriarchy and Imperial Security in Africa will appeal to professionals and students of imperial and world history international security and conflict resolution development globalization and gender studies The author argues that terrorism piracy acts of sabotage and austerity budget mass protests will continue in Africa Asia and the West until ordinary people around the world have positive answers to the Primordial Question Will my family eat today and Culture and Counterculture in Moroccan Politics John Pierre Entelis,1996 sleep peacefully through the night Culture and politics in Morocco are an interactive blend of conflict and congruence John P Entelis argues that no single form defines Morocco's national identity and identifies four cultural patterns monarchial modernist militarist and messianic that compete with each other yet share strong ties to an overriding cultural core of Muslim consensus This consensus explains much of the country's success in reconciling cultural differences in a relatively nonviolent manner and in creating a pluralistic open and populist society Entelis argues that Morocco at a critical juncture in its postindependence history may be able to overcome challenges from international pressures and socioeconomic problems because of its cultural harmony Historical Dictionary of Morocco Thomas K. Park, Aomar Previously published in 1989 by Westview Press Boum, 2006-01-16 The Kingdom of Morocco achieved its independence in 1956 after over 40 years as a French protectorate Since its independence it has further expanded its area of control by reclaiming the formerly international city of Tangier as well as annexing Western Sahara from Spain in the 1970s In 1777 Morocco became the first nation to recognize the United States and the Moroccan American Treaty of Friendship of 1783 is the oldest unbroken friendship treaty with the U S Morocco of the past and present are covered in this second edition of the Historical Dictionary of Morocco A comprehensive introduction focusing on its history provides a helpful synopsis of the kingdom and is supplemented with a useful chronology of major events Hundreds of cross referenced dictionary entries on former rulers current leaders ancient capitals significant locations influential institutions and crucial aspects of the economy society culture and religion form the core of the book A bibliography of sources is included to promote further more specialized study **Cultural Anthropology of the Middle** East ,1992 During the last two decades the number of anthropological studies on the Middle East has increased exponentially This partially annotated bibliography offers a comprehensive survey of studies written in English French and German and covers the period from 1965 to 1987 Cultural Anthropology of the Middle East, A Bibliography, Volume 1 Cultural Anthropology of the Middle East 1965-1987 Strip, 2021-12-06 During the last two decades the number of

anthropologists conducting research in the Middle East has increased considerably Together they have produced an abundance of valuable studies often based on prolonged periods of ethnographic fieldwork This bibliography offers a comprehensive survey of their results published between 1965 and 1987 It refers to studies published in English French and German Geographically the bibliography covers the area from Mauritania in the West to Afghanistan in the East and from Turkey in the North to the Arab Peninsula and Northern Sudan in the South The majority of studies inserted has been written by anthropologists Besides a considerable number of studies related to anthropology but published by non anthropologists has been integrated as well The majority of the monographs and volumes has been annotated In and Out of Morocco David A. McMurray, 2001 Every summer for almost forty years tens of thousands of Moroccan emigrants from as far away as Norway and Germany have descended on the duty free smugglers cove migrant frontier boomtown of Nador Morocco David McMurray investigates the local effects of the multiple linkages between Nador and international commodity circuits and analyzes the profound effect on everyday life of the free flow of bodies ideas and commodities into and out of the region Combining immigration and population statistics with street level ethnography In and Out of Morocco covers a wide range of topics including the origin and nature of immigrant nostalgia the historical evolution of the music of migration in the region and the influence of migrant wealth on the social distinctions in Nador Groundbreaking in its attention to the performative aspects of life in a smuggling border zone the book also analyzes the way in which both migration and smuggling have affected local structures of feeling by contributing to the spread of hyperconsumption. regulation of sexuality and male female interaction This welcome contribution by an anthropologist and a psychologist is

based on a long term study of about 150 youths and their families in a town in northern Morocco Topics given substantial treatment include sexuality family friendship courtship marriage and social deviance discussion often is organized around individual cases or interviews The book is clearly written and will be useful to those concerned with sexuality and adolescence in the Middle East or cross culturally It is part of the series Adolescents in a Changing World ed by B B and J W Whiting In some respects it nicely complements the well received book by L Abu Lughod Veiled Sentiments CH May 87 The Davis and Davis volume is more explicitly concerned with psychological theory formal interviews and a community wide sample Abu Lughod offers a more intimate and textured picture of domestic life Saharan Crossroads Tara F. Deubel, Hélène Tissières, Scott M. Youngstedt, 2014-06-26 Saharan Crossroads Exploring Historical Cultural and Artistic Linkages between North and West Africa counteracts the traditional scholarly conception of the Sahara Desert as an impenetrable barrier dividing the continent by employing an interdisciplinary lens to examine myriad interconnections between North and West Africa through travel trade communication cultural exchange and correspondence that have been ongoing for several millennia Saharan Crossroads offers a unique contribution to existing scholarship on the region by uniting a diverse group of African European and American scholars working on various facets of trans Saharan history social life and cultural production and bringing their work together for the first time This trilingual volume includes eleven chapters written in English five chapters in French and three chapters in Arabic reflecting the multicultural nature of the Sahara and this international project Saharan Crossroads explores historical and contemporary connections and exchanges between populations living in and on both sides of the Sahara that have led to the emergence of distinctive cultural and aesthetic expressions This contact has been fostered by a series of linkages that include the trans Saharan caravan trade the spread of Islam the migration of nomadic pastoralists and European colonization The book includes three major sections 1 history culture and identity 2 trans Saharan circulation of arts music ritual performance and architecture and 3 religion law language and writing While the gaze of international political analysts has turned toward the Sahara to follow problematic developments that pose serious threats to human rights and security in the region it is especially timely to recall that the people and countries of the Sahelo Saharan world have maintained long histories of peaceful coexistence interdependence and cooperation that are too often overlooked in the present Ritual Soundings Sarah Weiss, 2019-03-16 The women of communities in Hindu India and Christian Orthodox Finland alike offer lamentations and mockery during wedding rituals Catholic women of southern Italy perform tarantella on pilgrimages while Muslim Berger girls recite poetry at Moroccan weddings Around the world women actively claim agency through performance during such ritual events These moments though brief allow them a rare freedom to move beyond culturally determined boundaries In Ritual Soundings Sarah Weiss reads deeply into and across the ethnographic details of multiple studies while offering a robust framework for studying music and world religion Her meta ethnography reveals surprising patterns of similarity between unrelated cultures Deftly

blending ethnomusicology the study of gender in religion and sacred music studies she invites ethnomusicologists back into comparative work offering them encouragement to think across disciplinary boundaries As Weiss delves into a number of less studied rituals she offers a forceful narrative of how women assert agency within institutional religious structures while remaining faithful to the local cultural practices the rituals represent Semiotica, 1997 Sacred Performances M. E. Combs-Schilling, 1989 With penetrating insight Combs Schilling illuminates the remarkable survival of one of the world s oldest monarchies still ruling after 1200 years. The author unravels the paradox of this ancient yet progressive institution that has weathered invasion economic collapse and colonial assult The pillars of stability for which political analysts typicaly search military strength bureaucratic control and commercial prosperity have often been absent in Morocco sometimes for centuries How then has the monarchy stood firm In this remarkable book Combs Schilling argues that the answer is to be found in the distinctive forms of ritual practice developed during times of great crises Unique among Islamic governments the Moroccan monarchy became cnetral to the popular celebrations of the most sacred rituals of Islam cloaking itself in their sanctity Combs schilling breaks new ground in thinking about ritual The author explores the consequences of the replication and reinforcement of Morocco's national ceremonies in viallages and homes and the metaphorical equivalence thereby built The author outlines how ritual metaphors simultaneously fuse the monarchy with the hallowed prophets of Islam and the mundane structures of family life In elucidating the forcefulness of ritual embodiment the book challenges anthropological theory It demonstrates that rituals created realities by inscribing them deeply within the individual s body and mind Rituals use eros and physical substance to build imaginative abstractions Performances of exquisite beauty and grace make the monarchy intrinsic to definitions of male and female to experience of birth intercourse death and to the ultimate longing to break death s bonds Combs Schilling creates a model for national political analysis that takes meaning as well as strategic power into account The author applies the anthropological analysis of rituals to new arenas the nation state and the world political economy without ever losing sight of the individual and the flow of daily life The book clarifies a distinctive form of nationalism that expands the boundaries articulated by Anderson in Imagined Territories Rituals rather than territory or administration came to define the Moroccan monarchy and the Moroccan nation under Western assault and enabled them to survive For the novice the book provides an unusual and compelling entry into Islamic culture and history Yet it is provocative for the expert in its reinterpretation of the strategic dimensions of Muhammad's marriages and the political potency of the rituals of Islam where power sacrifice and sexual identity converge By revealing the link between national ceremony and individual identity the author calls into question the popular view that sharply divides East and West and suggests commonalities in the structures of political sexual power that are built into societies that operate within the cultural Arts, Gender and Changing contexts of the world's three monotheistic faiths Islam Judaism and Christianity **Constructions of Amazigh (Berber) Identity** Cynthia J. Becker, 2000 **Historical Dictionary of the Berbers**

(Imazighen) Hsain Ilahiane,2017-03-27 Berbers also known as Imazighen are the ancient inhabitants of North Africa but rarely have they formed an actual kingdom or separate nation state Ranging anywhere between 15 50 million depending on how they are classified the Berbers have influenced the culture and religion of Roman North Africa and played key roles in the spread of Islam and its culture in North Africa Spain and Sub Saharan Africa Taken together these dynamics have over time converted to redefine the field of Berber identity and its socio political representations and symbols making it an even more important issue in the 21st century This second edition of Historical Dictionary of the Berbers contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 200 cross referenced entries on important personalities places events institutions and aspects of culture society economy and politics This book is an excellent resource for students researchers and anyone wanting to know more about the Berbers
