After an introduction positioning the horror film as an important and moral voice in the national dialogue, the book explores the history of horror decade by decade, remembering the women's liberation horrors of the 1970s, the rubber reality films of the late 1980s, the serial killers of the 1990s, and the xenophobic terrors of the 9/11 age. *Horror Films FAQ* also asks what it means when animals attack in such films as *The Birds* 1963 or *Jaws* 1975, and considers the moral underpinnings of rape and revenge movies such as *I Spit on Your Grave* 1978 and *Irreversible* 2002. Even though horror has been a key component of media output for almost a century, the genre's industrial character remains underexplored and poorly understood. *Merchants of Menace: The Business of Horror Cinema* responds to a major void in film history by shedding much needed new light on the economic dimensions of one of the world's most enduring audiovisual forms. Given horror cuts across budgetary categories, industry sectors, national film cultures, and media, *Merchants of Menace* also promises to expand understandings of the economics of cinema generally. Covering 1930-present, this groundbreaking collection boasts fourteen original chapters from world-leading experts, taking as their focus such diverse topics as early zombie pictures, post-WWII chillers, Civil Rights Era marketing, Hollywood literary adaptations, Australian exploitation, torture porn, Auteurs, and twenty-first century remakes.

Signs of Life Graeme Harper, Andrew Moor, 2005. *Signs of Life: Medicine and Cinema* is the first single volume to consider the cinematic representation of medicine, medical science, and the medical profession, and explores the political implications of the representations of doctors, nurses, patients, diseases, and disabilities. Historical Dictionary of Horror Cinema Peter Hutchings, 2017-11-22. Horror is one of the most enduring and controversial of all cinematic genres. Horror films range from subtle and poetic to graphic and gory, but what links them together is their ability to frighten, disturb, shock, provoke, delight, irritate, and amuse audiences. Horror's capacity to take the form of our evolving fears and anxieties has ensured not only its notoriety but also its long-term survival and international popularity. This second edition has been comprehensively updated to capture all that is important and exciting about the horror genre as it exists today. Its new entries feature the creative personalities who have developed innovative forms of horror, and recent major films and cycles of films that ensure horror's continuing popularity and significance. In addition, many of the other entries have been expanded to include reference to the contemporary scene, giving a clear picture of how horror cinema is constantly renewing and transforming itself. *The Historical Dictionary of Horror Cinema* traces the development of the genre from its beginnings to the present. This is done through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary

entries The entries cover all major movie villains including Frankenstein and his monsters the vampire the werewolf the mummy the zombie the ghost and the serial killer film directors producers writers actors cinematographers make up artists special effects technicians and composers who have helped shape horror history significant production companies major films that are milestones in the development of the horror genre and different national traditions in horror cinema as well as popular themes formats conventions and cycles

Poe, "The

House of Usher,” and the American Gothic D. Perry, Carl H. Sederholm, 2009-04-27 Poe's *The House of Usher* and the American Gothic discusses the interrelation between Poe's tale and the modern horror genre demonstrating how Poe's work continues to serve as a model for exploring the deepest and most primitive corners of the human mind and heart *Classic Horror Films and the Literature That Inspired Them* Ron Backer, 2015-05-11 Classic horror films such as *Dracula*, *Frankenstein* and *The Picture of Dorian Gray* are based on famous novels. Less well known even to avid horror fans are the many other memorable films based on literary works. Beginning in the silent era and continuing to the present, numerous horror films found their inspiration in novels, novellas, short stories, and poems, though many of these written works are long forgotten. This book examines 43 works of literature from the famous to the obscure that provided the basis for 62 horror films. Both the written works and the films are analyzed critically with an emphasis on the symbiosis between the two. Background on the authors and their writings is provided. Cinematernity Lucy Fischer, 2014-07-14 Noting that motherhood is a common metaphor for film production, Lucy Fischer undertakes the first investigation of how the topic of motherhood presents itself throughout a wide range of film genres. Until now, discussions of maternity have focused mainly on melodramas, which along with musicals and screwball comedies have traditionally been viewed as women's cinema. Fischer defies gender-based classifications to show how motherhood has played a fundamental role in the overall cinematic experience. She argues that motherhood is often treated as a site of crisis, for example, the mother being blamed for the ills afflicting her offspring, then shows the tendency of certain genres to specialize in representing a particular social or psychological dimension in the thematics of maternity. Drawing on social history and various cultural theories, Fischer first looks at *Rosemary's Baby* to show the prevalence of childbirth themes in horror films. In crime films like *White Heat*, she sees the linkage of male deviance and mothering. *The Hand That Rocks the Cradle* and *The Guardian*, both occult thrillers, uncover cultural anxieties about working mothers. Her discussion covers burlesques of male mothering, feminist documentaries on the mother-daughter relationship, trick films dealing with procreative metaphors, and postmodern films like *High Heels*, where fluid sexuality is the theme. These films tend to treat motherhood as a locus of irredeemable conflict, whereas *History and Memory* and *High Tide* propose a more sanguine dynamic and enabling view.
