*A Rosicrucian Primer* Michael Maier, 1994-01-01      *The Rosicrucian Enlightenment Revisited* John Matthews, 1999 A gathering of well informed scholars provides a sober sensible and fascinating overview of the history of the Rosicrucian movement still one of the most controversial and least understood byways of European philosophy and thought The volume includes four of the foundational documents of the original Rosicrucians from the early 17th century and carries the Rosicrucians influence down to the later 19th century Publisher s description      *The Secret Doctrine of the Rosicrucians* William Walker Atkinson, Magus Incognito, 2014-01-14 The student of the history of occultism and the esoteric teachings and even the average reader of current books and magazines finds many references to The Rosicrucians a supposed ancient secret society devoted to the study of occult doctrines and the manifestation of occult powers But when such person seeks to obtain detailed information concerning this supposed ancient order he finds himself baffled and defeated Before acknowledging the futility of the quest however he usually investigates one or more so called orders having as a part of their title the word Rosicrucian only to find himself invited to join such order upon the payment of a fee or fees ranging from a small amount in some cases to quite large amounts in others each order claiming to be the only original order and asserting that all the others are base imitators This book will give you all the insights on this secret order      *A Primer of the Psychoanalytic Theory of Herbert Silberer* Charles Corliss, 2018-04-17 Herbert Silberer was an early member of Freud s Vienna Group whose work was unique and prodigious yet owing to his expulsion from the psychoanalytic community his contributions have been dismissed for close to a century Based on original documents and primary sources A Primer of the Psychoanalytic Theory of Herbert Silberer What Silberer Said recovers the psychoanalytic theory of Herbert Silberer revealing its connections to philosophy theology and transcendence and examining how his writings influenced C G Jung The book begins with an overview of what is known of Silberer s life before commencing with an exploration of his writings Charles Corliss covers topics including Silberer s groundbreaking construct of the hypnagogic phenomenon the process and meaning of symbolism and symbol formation alchemy and its connection to his major work Problems of Mysticism and Symbolism the use of symbols in Freemasonry and his influential understanding of dreams and their meaning The book also explores Silberer s complex relationship with the field of psychoanalysis including his opposition to many psychoanalytic assumptions Introducing and assessing the main contributions of Silberer s work this book will be of interest to analytical psychologists and Jungian psychotherapists in practice and training as well as to academics and students of Jungian studies and the history of psychoanalysis psychoanalytic studies theology philosophy and the history of psychology      *The Secret Stream* Rudolf Steiner, 2000 Rosicrucianism is one of the most important and least recognized streams of Western spirituality Forced underground in the maelstrom of the Thirty Years War Rosicrucianism was passed down secretly by alchemists hermetists and Masons into the nineteenth century when it inspired new spiritual movements including theosophy the Order
