feminist and queer of color theory and continental philosophy Ronjaunee Chatterjee uncovers a lexicon of feminine singularity that manifests across poetry and prose through likeness and minimal difference rather than individuality and identity Reading for singularity shows us the ways femininity is fundamentally entangled with racial difference in the nineteenth century and well into the contemporary as well as how rigid categories can be unsettled and upended Grappling with the ongoing violence embedded in the Western liberal imaginary Feminine Singularity invites readers to commune with the subversive potentials in nineteenth century literature for thinking subjectivity today
