Confessions of an Alien Hunter Seth Shostak, 2009-03-17 Aliens are big in America Whether they've arrived via rocket flying saucer or plain old teleportation they've been invading infiltrating or inspiring us for decades and they've fascinated moviegoers and television watchers for more than fifty years About half of us believe that aliens really exist and millions are convinced they've visited Earth For twenty five years SETI has been looking for the proof and as the program's senior astronomer Seth Shostak explains in this engrossing book it's entirely possible that before long conclusive evidence will be found His informative entertaining report offers an insider's view of what we might realistically expect to discover light years away among the stars Neither humanoids nor monsters says Shostak in fact biological intelligence is probably just a precursor to machine beings enormously advanced artificial sentients whose capabilities and accomplishments may have developed over billions of years and far exceed our own As he explores what if anything they would tell us and what their existence would portend for humankind and the cosmos he introduces a colorful cast of characters and provides a vivid state of the art account of the past present and future of our search for extraterrestrial intelligence

Close Encounters of the Fatal Kind Nick Redfern, 2014-06-23 From a journalist specializing in conspiracy theories an examination of mysterious deaths and missing persons related to sightings of UFO phenomena Everyone has

heard of Close Encounters of the Third Kind But what about close encounters of the fatal kind The field of UFOs is rife with unsettling examples of suspicious deaths Accounts of accidents that might not have been accidents after all abound Researchers and witnesses have vanished never to be seen again Conveniently timed heart attacks are reported Out of the blue suicides that upon investigation bear the distinct hallmarks of murder are all too common And grisly deaths at the hands of both extraterrestrials and government agents have occurred Highlights of Close Encounters of the Fatal Kind include The strange saga of the incredible melting man The UFO related death of the first U S Secretary of Defense James Forrestal The mysterious disappearances of military pilots and their connection to UFOs The connections between national security and the sudden deaths of UFO investigators Getting too close to the cosmic truth about alien abductions Roswell and what the government really knows about UFOs can clearly be a deadly business The government s latest admission of the existence of Area 51 is barely the tip of a very big iceberg

Storm Data ,1990 Ancient Alien Ancestors Will Hart,2017-07-18 Explores evidence for the theory of directed panspermia that life on Earth and the landscape of Earth itself was engineered by extraterrestrials Details how the Earth was terraformed through a sophisticated geo engineering program providing clear examples such as the precise mathematical longitude configurations of the Great Pyramid of Giza with the major rivers on Earth Shows how our spectrum of blood types supports the theory of panspermia while directly contradicting the conventional out of Africa theory of evolution Examines the strongest modern UFO accounts including the Russian Roswell case as well as the suppressed UFO sightings of NASA astronauts In the early 1970s Nobel Prize winning DNA co discoverer Sir Francis Crick and his colleague Leslie Orgel proposed that in the distant past an extraterrestrial race sent a spacecraft loaded with microorganisms to seed the Earth with life Now more than 40 years later the fields of space research and biotechnology have advanced to the point where they can back up Crick and Orgel s claims about our ancient alien ancestors Sharing scientific evidence of alien

involvement with life on our planet and with the very landscape of Earth itself Will Hart refines the theory of directed panspermia that life was intentionally seeded on Earth by extraterrestrials to reveal that the same ET agency also created humans and generated civilization He shows how the Earth was terraformed through an engineering program so sophisticated and vast that it has escaped our attention so far for example the major rivers on Earth are precisely aligned through geo engineering with the Great Pyramid of Giza Revealing the Great Pyramid as an alien message in stone the author explains how the Giza pyramids could not have been built by the ancient Egyptians and examines the extraterrestrial energy technologies used to move the pyramids massive stone blocks methods later rediscovered by Nikola Tesla and the builder of Coral Castle Edward Leedsalnin He details how an advanced race implanted the basic genome on Earth as well as genetically engineered the human race and shows how our spectrum of blood types supports the theory of panspermia while directly contradicting the conventional out of Africa theory of evolution Investigating how the extraterrestrial agency behind the origin of civilization is still working behind the scenes today the author examines the strongest modern UFO accounts including the Russian Roswell case and the suppressed UFO sightings of NASA astronauts He shows that this advanced ET civilization is not an alien race in the way we normally think of aliens they are our ancestors and as human as we are
