Roswell Legacy:

The Roswell Legacy Frances Patton Statham, 1988 **The Roswell Legacy** Jesse Marcel, Linda Marcel, 2008-09-15 A behind the scenes memoir recounting one officer's firsthand experience of America's most famous UFO incident Does extraterrestrial life exist Have alien beings actually visited Earth and left clear traces of their visits One man has the answer and his son can now break the silence The Roswell Legacy is the story of Major Jesse Marcel the intelligence officer for the 509th Bomber Group famous for dropping the atomic bomb on Japan and the first military officer to reach the scene of one of the most famous and enduring UFO events in the recorded history of mankind This book documents the recovery of debris from the crash of an extraterrestrial craft and how the Marcel family became forever linked to the event It details what the debris looked like how it greatly differed from that of the weather balloon that was supposedly recovered and the physical characteristics that prove it could have come only from a technology that was not available in the 1940s or perhaps even now

Extraterrestrial Legacies of God, Jesus, and the Angels Raphael-Seraphin Kutota Basisa, 2024-01-03 About the Book In some way or form this book is unassumingly a nicer and a more logical organization and interpretation of compounding existing religious writings from a variety of walks of life Herein they are presented as proof drawn synthetically from those multitude of intellectual sources written over the last 4 000 years evidencing that the central figure of the persona translated as the reincarnation of almighty God of Israel himself in Christian literature is simply another Extraterrestrial Alien visiting Planet Earth for a purpose Another visitor just like those well known Anunnaki the Elohim the Nephilim the Sons of God the Watchers the renegade Angels or other entities over several millennia ago And in the many ways how it is related to the current humanity's most pressing problem of whether we

are alone and unique in the Cosmos as it is linked to the much witnessed UFO encounters phenomenon It also well outlined the latent consequences resulting from what is presented as postulate About the Author Raphael Seraphin Kutota Basisa currently resides in Lynn Massachusetts He would consider himself a futurist a researcher a world s concerned citizen and a great human being He is a chemical engineer by training and earned an MBA and an ABD in Applied Management and Public Policy He has written and published several technical and non technical documents commentaries articles papers and other books along the subjects of his expertise He believes in extraterrestrial life in regard to religion Basisa is a person whose research helped to recognize early on the theory that we are all descendants of Extraterrestrials and Cosmic religiosity should be recognized in modern theology

A. Marzulli,2024-10-15 Is this the coming Great Deception By the end of this book you will reveal the truth about extraterrestrial presences on earth that they are real

burgeoning and not going away You also will understand what the Biblical perspective on this phenomenon is and is not They ve been here for thousands of years making their presence known in the shadows They might be seen by a lonely motorist on a deserted road late at night or by a frightened and confused husband in the bedroom he is sharing with his wife Perhaps the most disconcerting part of this phenomenon boils down to this question Has the government been aware of their presence all along and is covertly working with them toward some secret end In Rungs of Disclosure what once was fringe is now reality While reading you ll meet regular people just like you who have encountered something beyond their ability to explain You ll also hear from people of great faith and deep religious belief who continue to have these strange and deeply unsettling encounters L A Marzulli explores these ongoing incidents to discover the answers to these questions Who are they What do they want And why are they here Can you handle the truth Read this book if you dare UFOs Stanton T.

Friedman,2011-08-15 Presents an investigation into UFO phenomena discussing the explanations offered by various scientists military organizations and aviators for UFO sightings and evaluating the probability of alien life forms visiting Earth From Adam to Omega A.R. Roberts,2020-09-24 Due to government secrecy the public never learned of the numerous UFO incursions at strategic nuclear weapons installations where they disabled ICBM missiles and even activated their launch codes They never heard about UFO encounters reported by police officers civilian and military pilots and astronauts and they were never told the real facts of the Roswell event The volume of evidence suggesting we are not alone and probably never have been is overwhelming It suggests an alien agenda to accelerate the evolution of the human race To understand what is happening requires knowledge of what is going on today as well as the past particularly during the biblical era Much has been learned through the Freedom of Information Act from whistleblowers and government and military officials This book connects the dots suggesting what aliens have been doing for the past several thousand years
