The Rothko Chapel Susan J. Barnes, 1996 **The Rothko Chapel** Susan Barnes, 2020-02 **An Act of Faith** Susan J. Barnes, 1986 **An Act of Faith** Susan J. Barnes, 1989 **Mark Rothko** Jeffrey S. Weiss, John Gage, Mark Rothko, National Gallery of Art (U.S.), Musée d'art moderne de la ville de Paris, Whitney Museum of American Art, 1998-01-01 Overzicht van het werk van de Amerikaanse schilder 1903 1970 **Absence / Presence** Stephen C. Feinstein, 2005-08-11 Since the liberation of the Nazi concentration camps and recognition of the Holocaust as a watershed event of the twentieth century if not in Western Civilization itself the capacity of art to represent this event adequately has been questioned As it analyzes a cross section of Holocaust art within the context of art history Absence Presence addresses the discussion head on and explores the interchange between media and horror The book s contributors include case studies from a broad spectrum of artists in North America Europe and Israel to examine some of the more dominant themes in these artists work In addition to standard readings of Holocaust art the essays help illuminate the issues of eugenics the importance of art for Hitler and the Nazis the immense pilfering of art that occurred during World War II and the length and degree of the destruction of European Jewry which forced artists to reinvent their work through their own fate This selection of essays also provides alternative views to more typical readings on the Holocaust specifically to the story of the Shoah as a relevant art subject and to those who have a right to create art about the Holocaust These issues were the subject of an intense international debate based on an exhibition at New York s Jewish Museum titled Mirroring Evil The retrospective brought to art a series of contemporary perspectives that represented both the outer edges as well as mainstream postmodern thinking concerning representations of the Holocaust This book which covers the art from the late 1980s through 2002 includes the work of an array of scholars curators and artists from many countries It will be of great interest to art historians Jewish scholars and anyone interested in learning more about the art and artists of the Holocaust **The Art of the Sacred** Graham Howes, 2006-11-24 The field of art and religion is fast becoming one of the most dynamic areas of religious studies Uniquely The Art of the Sacred explores the relationship between religion and the visual arts and vice versa within Christianity and other major religious traditions It identifies and describes the main historical theological sociological and aesthetic dimensions of religious art with particular attention to popular as well as high culture and within societies of the developing world It also attempts to locate and predict the forms and functions of such art in a changing contemporary context of obligation modernity secularism and fundamentalism The author concentrates on four chief dimensions where religious art and religious belief converge the iconographic the didactic the institutional and the aesthetic This clear well organised and imaginative treatment of the subject should prove especially attractive to students of religion and visual culture as well as to artists and art historians **The Monumental** Argyro Loukaki, 2025-03-14 The Monumental is an interdisciplinary collection of original cutting edge contributions by international researchers pursuing the epistemology and ontology of monuments over time and geography

Avant-Garde in the Cornfields Michelangelo Sabatino, Ben Nicholson, 2019-10-15 A close examination of an iconic small town that gives boundless insights into architecture landscape preservation and philanthropy *Avant Garde in the Cornfields* is an in depth study of New Harmony Indiana a unique town in the American Midwest renowned as the site of two successive Utopian settlements during the nineteenth century the Harmonists and the Owenites During the Cold War years of the twentieth century New Harmony became a spiritual living community and attracted a wide variety of creative artists and architects who left behind landmarks that are now world famous This engrossing and well documented book explores the architecture topography and preservation of New Harmony during both periods and addresses troubling questions about the origin production and meaning of the town s modern structures landscapes and gardens It analyzes how these were preserved recognizing the funding that has made New Harmony so vital and details the elaborate ways in which the town remains an ongoing experiment in defining the role of patronage in historic preservation An important reappraisal of postwar American architecture from a rural perspective *Avant Garde in the Cornfields* presents provocative ideas about how history is

interpreted through design and historic preservation and about how the extraordinary past and present of New Harmony continue to thrive today Contributors William R Crout Harvard U Stephen Fox Rice U Christine Gorby Pennsylvania State U Cammie McAtee Harvard U Nancy Mangum McCaslin Kenneth A Schuette Jr Purdue U Ralph Schwarz Paul Tillich

Canons and Values Larry Silver, Kevin Terraciano, 2019-08-27 A critical rethinking of the way canons are defined constructed dismantled and revised A century ago all art was evaluated through the lens of European classicism and its tradition This volume explores and questions the foundations of the European canon offers a critical rethinking of ancient and classical art and interrogates the canons of cultures and regions that have often been left at the margins of art history It underscores the historical and geographical diversity of canons and the local values underlying them Twelve international scholars consider how canons are constructed and contested focusing on the relationship between canonical objects and the value systems that shape their hierarchies Deploying an array of methodologies including archaeological investigations visual analysis and literary critique the authors examine canon formation throughout the world including Africa India East Asia Mesoamerica South America ancient Egypt classical Greece and Europe Global studies of art which are dismantling the traditionally Eurocentric canon promise to make art history more inclusive But enduring canons cannot be dismissed This volume raises new questions about the importance of canons including those from outside Europe for the wider discipline of art history The Art of the Sister Chapel Andrew Hottle, 2017-07-05 The Sister Chapel 1974 78 was an important

collaborative installation that materialized at the height of the women's art movement Conceived as a nonhierarchical secular commemoration of female role models The Sister Chapel consisted of an eighteen foot abstract ceiling that hung above a circular arrangement of eleven monumental canvases each depicting the standing figure of a heroic woman The choice of subject was left entirely to the creator of each work As a result the paintings formed a visually cohesive group without compromising the individuality of the artists Contemporary and historical women deities and conceptual figures were portrayed by distinguished New York painters Alice Neel May Stevens and Sylvia Sleigh as well as their accomplished but less prominent colleagues Among the role models depicted were Artemisia Gentileschi Frida Kahlo Betty Friedan Joan of Arc and a female incarnation of God Although last exhibited in 1980 The Sister Chapel has lingered in the minds of art historians who continue to note its significance as an exemplar of feminist collaboration Based on previously unpublished archival materials and featuring dozens of rarely seen works of art this comprehensive study details the fascinating history of The Sister Chapel its constituent paintings and its ambitious creators Where Heaven and Earth Meet W. Stoker, 2012-01-01

Art has always been important for religion or spirituality Secular art displayed in museums can also be spiritual and it is this art that is the subject of this book Many of the works of art produced by Wassily Kandinsky Mark Rothko Andy Warhol and Anselm Kiefer are spiritual in nature These works reveal their own spirituality which often has no connection to official religions Wessel Stoker demonstrates that these artists communicate religious insights through images and shows how they

depict the relationship between heaven and earth between this world and a transcendent reality thus clearly drawing the contours of the spirituality these works evince

The Secular Sacred Markus Balkenhol, Ernst van den Hemel, Irene Stengs, 2020-09-01 How do religious emotions and national sentiment become entangled across the world In exploring this theme *The Secular Sacred* focuses on diverse topics such as the dynamic roles of Carnival in Brazil the public contestation of ritual in Northern Nigeria and the culturalization of secular tolerance in the Netherlands The contributions focus on the ways in which sacrality and secularity mutually inform enforce and spill over into each other The case studies offer a bottom up practice oriented approach in which the authors are wary to use categories of religion and secular as neutral descriptive terms *The Secular Sacred* will be of interest to sociologists anthropologists ethnographers political scientists and social psychologists as well as students and scholars of cultural studies and semiotics Chapter 1 is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com) *Mark Rothko* Annie Cohen-Solal, 2015-03-01 Mark Rothko one of the greatest painters of the twentieth century was born in the Jewish Pale of Settlement in 1903 He immigrated to the United States at age ten taking with him his Talmudic education and his memories of pogroms and persecutions in Russia His integration into American society began with a series of painful experiences especially as a student at Yale where he felt marginalized for his origins and ultimately left the school The decision to become an artist led him to a new phase in his life Early in his career Annie Cohen Solal writes he became a major player in the social struggle of American artists and his own metamorphosis benefited from the unique transformation of the U S art world during this time Within a few decades he had forged his definitive artistic signature and most critics hailed him as a pioneer The numerous museum shows that followed in major U S and European institutions ensured his celebrity But this was not enough for Rothko who continued to innovate Ever faithful to his habit of confronting the establishment he devoted the last decade of his life to cultivating his new conception of art as an experience thanks to the commission of a radical project the Rothko Chapel in Houston Texas Cohen Solal's fascinating biography based on considerable archival research tells the unlikely story of how a young immigrant from Dvinsk became a crucial transforming agent of the art world one whose legacy prevails to this day

The Black Sun Stanton Marlan, 2008-05-08 Also available in an open access full text edition at <http://oaktrust.library.tamu.edu/handle/1969.1/86080> The black sun an ages old image of the darkness in individual lives and in life itself has not been treated hospitably in the modern world Modern psychology has seen darkness primarily as a negative force something to move through and beyond but it actually has an intrinsic importance to the human psyche In this book Jungian analyst Stanton Marlan reexamines the paradoxical image of the black sun and the meaning of darkness in Western culture In the image of the black sun Marlan finds the hint of a darkness that shines He draws upon his clinical experiences and on a wide range of literature and art including Goethe's *Faust* Dante's *Inferno* the black art of Rothko and Reinhardt to explore the influence of light and shadow on the fundamental structures of modern thought as well as the contemporary

practice of analysis He shows that the black sun accompanies not only the most negative of psychic experiences but also the most sublime resonating with the mystical experience of negative theology the Kabbalah the Buddhist notions of the void and the black light of the Sufi Mystics An important contribution to the understanding of alchemical psychology this book draws on a postmodern sensibility to develop an original understanding of the black sun It offers insight into modernity the act of imagination and the work of analysis in understanding depression trauma and transformation of the soul Marlan s original reflections help us to explore the unknown darkness conventionally called the Self The image of Kali appearing in the color insert following page 44 is Maitreya Bowen reproduced with her permission maitreyabowen yahoo com **Mark Rothko**

Making Houston Modern Barrie Scardino Bradley, Stephen Fox, Michelangelo Sabatino, 2023-11-15 Complex controversial and prolific Howard Barnstone was a central figure in the world of twentieth century modern architecture Recognized as Houston s foremost modern architect in the 1950s Barnstone came to prominence for his designs with partner Preston M Bolton which transposed the rigorous and austere architectural practices of Ludwig Mies van der Rohe to the hot steamy coastal plain of Texas Barnstone was a man of contradictions charming and witty but also self centered caustic and abusive who shaped new settings that were imbued at once with spatial calm and emotional intensity *Making Houston Modern* explores the provocative architect s life and work not only through the lens of his architectural practice but also by delving into his personal life class identity and connections to the artists critics collectors and museum directors who forged Houston s distinctive culture in the postwar era Edited by three renowned voices in the architecture world this volume situates Barnstone within the contexts of American architecture modernism and Jewish culture to unravel the legacy of a charismatic personality whose imaginative work as an architect author teacher and civic commentator helped redefine architecture in Texas

The Destruction of Art Dario Gamboni, 2013-06-01 Last winter a man tried to break Marcel Duchamp s Fountain sculpture The sculpted foot of Michelangelo s David was damaged in 1991 by a purportedly mentally ill artist With each incident intellectuals must confront the unsettling dynamic between destruction and art Renowned art historian Dario Gamboni is the first to tackle this weighty issue in depth exploring specters of censorship iconoclasm and vandalism that surround such acts Gamboni uncovers here a disquieting phenomenon that still thrives today worldwide As he demonstrates through analyses of incidents occurring in nineteenth and twentieth century America and Europe a complex relationship exists among the evolution of modern art destruction of artworks and the long history of iconoclasm From the controversial

removal of Richard Serra's Tilted Arc from New York City's Federal Plaza to suffragette protests at London's National Gallery. Gamboni probes the concept of artist's rights, the power of political protest, and how iconoclasm sheds light on society's relationship to art and material culture. Compelling and thought provoking, *The Destruction of Art* forces us to rethink the ways that we interact with art and react to its power to shock or subdue.

Colour and Culture John Gage, 2024-10-24

What does the language of colour tell us? Where does one colour begin and another end? Is it a radiant visual stimulus, an intangible function of light, or a material substance to be moulded and arrayed? Colour is fundamental to art, yet so diverse that it has hardly ever been studied in a comprehensive way. Art historian John Gage considers every conceivable aspect of the subject in this groundbreaking analysis of colour in Western culture from the ancient Greeks to the late twentieth century. Gage describes the first theories of colour articulated by Greek philosophers and subsequent attempts by the Romans and their Renaissance disciples to organize it systematically or endow it with symbolic power. He unfolds its religious significance and its use in heraldry, as well as how Renaissance artists approached colour with the help of alchemists. He explores the analysis of the spectrum undertaken by Newton and continued in the nineteenth century by artists such as Seurat, traces the influence of Goethe's colour theory, and considers the extraordinary theories and practices that attempted to unite colour and music, or make colour into an entirely abstract language of its own. The first ever undertaking to suggest answers to many perennial questions about the role of colour in Western art and thought, this study throws fresh light on the hidden meanings of many familiar masterpieces.
