Doubting Ghosts Michele Hanks, 2025-04-28 Based on ethnographic research in England Doubting Ghosts explores the paradoxes faced by paranormal investigators or ghost hunters in spite of spending significant time observing and documenting what they suspect to be paranormal phenomena in a scientific secular and rational fashion many paranormal investigators remain skeptical about the existence of the paranormal What then does it mean to regularly see ghosts and yet to not believe ghosts are real Examining the manner in which the scientific approach adopted by investigators produces profound doubts about the existence of the paranormal the meaning of science and the nature of modernity the author demonstrates that doubt itself is central to experiences of secularity and that doubt can constitute a foundation for long term engagements with the paranormal Thus paranormal investigators are able to sustain a relationship albeit an uneasy one with the paranormal while maintaining a commitment to a scientific secular and rational worldview A contribution to understandings of doubt science religion and disenchantment this book will appeal to scholars of sociology and anthropology

Pale Horse Rider Mark Jacobson, 2018-09-04 We are living in a time of unprecedented distrust in America Faith in the government is at an all time low and political groups on both sides of the aisle are able to tout preposterous conspiracy theories as gospel without much opposition Fake news is the order of the day This book is about a man to whom all of it points the greatest conspiracist of this generation and a man you may not have heard of A former U S naval intelligence worker Milton William Cooper published his manifesto Behold a Pale Horse in 1991 Since then it has gone on to sell hundreds of thousands of copies becoming the number one bestseller in the American prison system According to Behold a Pale Horse JFK was assassinated because he was about to reveal that extraterrestrials were about to take over the earth by his driver an alien himself AIDS is a government conspiracy to decrease the population of blacks Hispanics and homosexuals and the Illuminati are secretly involved with the U S government to manage relationships with extraterrestrials Cooper died in a shootout with Apache County police in 2001 one month after September 11 in the year in which he had predicted catastrophe In Pale Horse Rider journalist Mark Jacobson not only tells the story of Cooper's fascinating life but also provides the social and political context for American paranoia Indeed with the present NSA situation and countless other shadowy government dealings often in the news aren't we right to suspect that things may not be as they seem

Crime and Criminal Behavior William J. Chambliss, 2011-05-03 Crime and Criminal Behavior delves into such hotly debated topics as age of consent euthanasia and assisted suicide gambling guns internet pornography marijuana and other drug laws religious convictions and terrorism and extremism From using a faking I D to assaulting one's domestic partner to driving drunk a vast

array of behaviors fit into the definition of criminal. The authors of these 20 chapters examine the historical contexts of each topic and offer arguments both for and against the ways in which legislators and courts have defined and responded to criminal behaviors addressing the sometimes complex policy considerations involved. Sensitive subjects such as hate crimes are addressed as are crimes carried out by large groups or states including war crime and corporate crime. This volume also considers crimes that are difficult to prosecute such as Internet crime and intellectual property crime and crimes about which there is disagreement as to whether the behavior harms society or the individual involved, gun control and euthanasia, for example.

The Series The five brief issues-based books in the SAGE Reference's Key Issues in Crime Punishment Series offer examinations of controversial programs, practices, problems, or issues from varied perspectives. Volumes correspond to the five central subfields in the Criminal Justice curriculum: Crime, Criminal Behavior, Policing, The Courts, Corrections, and Juvenile Justice. Each volume consists of approximately 20 chapters offering succinct pro/con examinations and Recommended Readings conclude each chapter, highlighting different approaches to or perspectives on the issue at hand. As a set, these volumes provide perfect reference support for students writing position papers in undergraduate courses spanning the Criminal Justice curriculum. Each title is approximately 350 pages in length.

Religion in Personality Theory

Frederick Walborn, 2013-12-03 Religion in Personality Theory makes clear the link between theory and research and personality and religion. Presently, most personality texts have a limited discussion of religion, and reference few theorists other than Freud and Maslow in relation to the subject. This book reviews the theory and the empirical literature on the writings of 14 theorists. Every chapter concludes with a summation of the current research on the theorist's proposals.

Reviews Frederick Walborn has written an excellent text that explores the degree to which classical personality theorists were personally influenced by and focused upon religion in developing their personality theories. Each theorist is presented in sufficient detail so that their personal views of religion are seen to influence the theories they developed. In addition, the current status of the empirical evidence in the psychology of religion is explored in the context of the theorist and theory to which the data is most relevant. Current and up-to-date, this text is appropriate for either a course in Personality or as an introduction to the Psychology of Religion.

The author's own comprehensive theory of religion and spirituality creatively integrates the positive contributions of the classical personality theorist to the contemporary psychology of religion.

Ralph W. Hood Jr. Professor of Psychology, University of Tennessee at Chattanooga. In this interesting and accessible book, Frederick Walborn thoughtfully probes the place of religion and spirituality in the writings of a broad range of classical psychological thinkers and offers an insightful critique of current empirical research on the complex relation of religion and spirituality to individual well-being.

Michele Dillon Ph.D. Professor and Chair, Department of Sociology, University of New Hampshire. Durham, New Hampshire. Identifies what major personality theorists say about religion. Investigates whether evidence supports or refutes predictions made by different theories. Concludes with a comprehensive integrative theory on religion and
