Rousseau as Author Christopher Kelly, 2003-02-15 For Rousseau consecrating one's life to the truth his personal credo meant publicly taking responsibility for what one publishes and only publishing what would be of public benefit Christopher Kelly argues that this commitment is central to understanding the relationship between Rousseau's writings and his political philosophy Unlike many other writers of his day Rousseau refused to publish anonymously even though he risked persecution for his writings But Rousseau felt that authors must be self-restrained as well as bold and must carefully consider the potential political effects of what they might publish sometimes seeking the good conflicts with writing the truth Kelly shows how this understanding of public authorship played a crucial role in Rousseau's conception and practice of citizenship and political action *Rousseau as Author* will be a groundbreaking book not just for Rousseau scholars but for anyone studying Enlightenment ideas about authorship and responsibility **Sculpture and the Garden** Patrick Eyres, Fiona Russell, 2006

Although the integration of sculpture in gardens is part of a long tradition dating back at least to antiquity the sculptures themselves are often overlooked both in the history of art and in the history of the garden This collection of essays considers the changing relationship between sculpture and gardens over the last three centuries focusing on four British archetypes the Georgian landscape garden the Victorian urban park the outdoor spaces of twentieth-century modernism and the late twentieth-century sculpture park Through a series of case studies exploring the contemporaneous audiences of gardens the book uncovers the social political and gendered messages revealed by sculpture's placement and suggests that the garden can itself be read as a sculptural landscape **Rousseau** David Gauthier, 2006-04-24 Rousseau is often portrayed as an educational and social reformer whose aim was to increase individual freedom In this volume David Gauthier examines Rousseau's evolving notion of freedom where he focuses on a single quest can freedom and the independent self be regained Rousseau's first answer is given in *Emile* where he seeks to create a self-sufficient individual neither materially nor psychologically enslaved to others His second is in the *Social Contract* where he seeks to create a citizen who identifies

totally with his community experiencing his dependence on it only as a dependence on himself Rousseau implicitly recognized the failure of these solutions His third answer is one of the main themes of the Confessions and Reveries where he is made for a love that merges the selves of the lovers into a single psychologically sufficient unity that makes each better than free But is this response a chimaera *Philosophy and Biodiversity* Markku Oksanen, Juhani Pietarinen, 2004-09-06 This important collection focuses on the nature and importance of biodiversity The concept is clarified and its intrinsic and instrumental value are discussed Even though the term biodiversity was invented in the 1980s to promote the cause of species conservation discussions on biological diversity go back to Plato There are many controversies surrounding biodiversity and a few of them are examined here What is worthy of protection or restoration and what is the acceptable level of costs Is it permissible to kill sentient animals to promote native populations Can species be reintroduced if they have disappeared a long time ago How should the responsibilities for biodiversity be shared This book will be of interest to philosophers of science and biologists but also to anyone interested in conservation and the environment *Handbook of the British Novel in the Long Eighteenth Century* Katrin Berndt, Alessa Johns, 2022-07-18 The handbook offers a comprehensive introduction to the British novel in the long eighteenth century when this genre emerged to develop into the period's most versatile and popular literary form Part I features six systematic chapters that discuss literary intellectual socio-economic and political contexts providing innovative approaches to issues such as sense and sentiment gender considerations formal characteristics economic history enlightened and radical concepts of citizenship and human rights ecological ramifications and Britain's growing global involvement Part II presents twenty-five analytical chapters that attend to individual novels some canonical and others recently recovered These analyses engage the debates outlined in the systematic chapters undertaking in depth readings that both contextualize the works and draw on relevant criticism literary theory and cultural perspectives The handbook's breadth and depth clear presentation and lucid language make it attractive and accessible to scholar and student alike Fielding's novels. Romanticism, Rhetoric and the Search for the Sublime, 2nd Edition Craig R. Smith,2023-01-23 Relying on the author s established expertise in rhetoric and political communication this book re contextualizes Romantic rhetorical theory from the late 18th and early 19th centuries to provide a foundation for a Neo Romantic rhetorical theory for our own time In the process it uses a unique methodology to correct misconceptions about the rhetorical theories of many writers Using a dialectical approach the early chapters trace Romanticism through its opposition to the industrial revolution and the Enlightenment back through Humanism and its opposition to Scholasticism to its roots in St Augustine s writing These

chapters include a revisionist analysis of the church's treatment of Galileo in the course of showing how difficult it was for scientific study to be accepted in Scholastic circles. The study goes on to argue that Jean Jacques Rousseau, David Hume, and Edmund Burke were bridge figures to the Romantic Era. This move throws new light on exemplary painters, composers, writers, and orators of the Romantic Era who are examined in chapters eight and nine. Chapter ten focuses on Percy Bysshe Shelley and his development of the rhetorical poem and thereby provides a new genre in the Romantic catalogue. Chapter Eleven turns to the Romantic rhetorical theories of Hugh Blair and Thomas De Quincey to empower those seeking to save the environment. The concluding chapter then synthesizes their theories with relevant contemporary rhetorical theories, thereby constructing a Neo Romantic theory for our own time. In the process, the book links the Romantics' love of nature to the current environmental crisis.

Sowing Empire Jill H. Casid, 2005-01-01 In an ambitious work of wide-ranging literary visual and historical allusion, Jill H. Casid examines how landscaping functioned in an imperial mode that defined and remade the heartlands of nations as well as the contact zones and colonial peripheries in the West and East Indies. Revealing the colonial landscape as far more than an agricultural system, as a means of regulating national sexual and gender identities, Casid also traces how the circulation of plants and hybridity influenced agriculture and landscaping on European soil and how colonial contacts materially shaped what we take as European.

The Parent as Citizen Brian Duff, 2011 How ideas about parenthood undermine politics.

Theories of Mimesis Arne Melberg, 1995-01-26 Mimesis, with its connecting concepts of imitation, simile, and similarity, has been cited since classical times in the exploration of the relationship between art and reality. In this major study, Arne Melberg discusses the theory and history of mimesis through narratological analysis of texts by Plato, Cervantes, Rousseau, and Kierkegaard. Moving away from the relatively straightforward representation of reality ideas in Erich Auerbach's *Mimesis* (1946), Melberg brings the concept of mimesis into the context of the literary theories of de Man and others. *Theories of Mimesis* is a strenuously argued account of language and time, charting the movement of mimesis from the Platonic philosophy of similarity to modern ideas of difference.
