Routard Press Pack 2002:

Backpacker Tourism and Economic Development Mark P. Hampton, 2013-07-18 There has been a phenomenal growth of backpacker tourism from the overland routes to India in the 1960s to present day backpacker tourism across the less developed world As a result there has been significant economic development impacts of backpacker tourism upon local communities especially in areas with the largest concentrations of backpackers South and South East Asia particularly Thailand Indonesia Malaysia and India as well as increasingly in Latin America This volume provides a focused review of the economic development impacts of backpacker tourism in developing regions furthering knowledge on how backpacker tourism can play a crucial role in development strategies in these areas First it reviews the origins of the backpackers with a detailed examination of their hippy predecessors on the overland trail before discussing the emergence of modern backpackers including social and cultural aspects and how new technologies are changing their experience It then analyses the powerful economic development impacts of backpackers on local host communities in cities and rural areas with a special focus on coastal destinations Extensive case study material is used from backpacker destinations across Asia Latin America and Africa In doing so the book provides original insights into how backpacker tourism is highly significant for poverty alleviation and effective local development since it has strong linkages to the local economy and less economic leakage than conventional tourism Written by a leading academic in this area this volume will be of interest to students of Tourism and Development Studies

Multiple Perspectives on the Self in SLA Sarah Mercer, Marion Williams, 2014-02-03 Instead of viewing different perspectives on the self as competing with each other and considering one perspective on the self as being inherently better than another this book takes the view that a fuller more comprehensive picture of the self in SLA can be gained by examining and combining insights from different perspectives This original collection of papers thus attempts to provide a thorough overview of the ways in which the self can be conceptualised in SLA contexts The editors have brought together a diverse range of theoretical perspectives on the self to allow the reader to appreciate the insights that each approach contributes to overall understandings of the self in the domain of second language acquisition and foreign language learning

An Atlas of Agendas Brian Holmes, Freek Lomme, Bureau d'Études (Artists' group), 2014 Together Paris based artists L onore Bonaccini and Xavier Fourt make up the artist duo Bureau d Etudes For the past several years this French group has been producing cartographies of contemporary political social and economic systems which allow people to empower and reposition themselves Revealing what normally remains invisible often in the shape of large sized banners and contextualizing apparently separate elements within another framework these visualizations of people s interests and relations re symbolize and actualize an order concealed and unknown
