[The 50 Greatest Castles and Palaces of the World](#) Gilly Pickup, 2019-03-07. Castles and palaces around the world are structures of grandeur, might, and beauty. From the flamboyance of Germany's fairy tale Neuschwanstein Castle to the gothic Dracula-inspired Bran Castle perched high in the craggy peaks of Romania's Carpathian Mountains, Tokyo's Imperial Palace, previously home to samurai warriors, to Ireland's Blarney Castle where the gift of the gab will be granted to any who kiss its stone, the world's castles and palaces are steeped in history and stories to tell. Travel writer and journalist Gilly Pickup shares these stories, providing a tour of 50 of the world's greatest castles and palaces, filled with humorous, interesting facts and tips on how best to visit them.

[Lords and Towns in Medieval Europe](#) Howard B. Clarke, Annegret Simms, 2017-07-14. This volume is based on possibly the biggest single Europe-wide project in urban history. In 1955, the International Commission for the History of Towns established the European historic towns atlas project in accordance with a common scheme in order to encourage comparative urban studies. Although advances in urban archaeology since the 1960s have highlighted the problematic relationship between the oldest extant town plan and the actual origins of a town, the large-scale cadastral maps as they have been made available by the European historic towns atlas project are still necessary if we want to understand the evolution of the physical form of our towns. By 2014, the project consisted of over 500 individual publications from over 18 different countries across Europe. Each atlas comprises at least a core map at the scale of 1:2500, analytical maps, and an explanatory text. The time has come to use this enormous database that has been compiled over the last 40 years. This volume itself, based on a conference related to this topic that was held in the Royal Irish Academy in Dublin in 2006, takes up this challenge. The focus of the volume is on the question of how seigneurial power influenced the creation of towns in medieval Europe and of how this process in turn influenced urban form. Part I of the volume addresses two major issues: the history of the use of town plans in urban research and the methodological challenges of comparative urban history. Parts II and III

constitute the core of the book focusing on the dynamic relationship between lordship and town planning in the core area of medieval Europe and on the periphery In Part IV the symbolic meaning of town plans for medieval people is discussed Part V consists of critical contributions by an archaeologist an art historian and an historical geographer By presenting case studies by leading researchers from different European countries this volume combines findings that were hitherto not available in English A comparison of the English and German bibliographies attached to this volume reveals some interesting insights as to how the focus of research shifted over time The book also shows how work on urban topography integrates the approaches of the historian archaeologist and historical geographer The narrative of medieval urbanization becomes enriched and the volume is a genuine contribution to European studies *The Sketch* ,1901 **Familiar Allusions** William Adolphus Wheeler,1887 **The Rough Guide to Europe on a Budget** Rough Guides,2017-03-21 Travel Europe on the cheap with this updated guide the ideal companion whether you re on a city break beach vacation or road trip The locally based Rough Guides author team introduces the best places to stop and explore and provides reliable insider tips on topics such as driving on European roads how to find the best local shops or where to find safe hostels You ll find special coverage of European history art architecture and literature and detailed information on the best markets and shopping for each area The Rough Guide to Europe on a Budget also unearths the best restaurants nightlife and places to stay from backpacker hostels to beachfront villas and boutique hotels and color coded maps feature every sight and listing Make the most of your time with The Rough Guide to Europe on a Budget *Let's Go 2009 Western Europe* Let's Go Inc.,2008-11-25 Packed with travel information including more listings deals and insider tips CANDID LISTINGS of hundreds of places to eat sleep drink and feel like a local RELIABLE MAPS to navigate Western Europe s busy cities or idyllic towns INSIDER TIPS on the best hostels gay and straight nightlife and travel deals VOLUNTEER AND WORK OPPORTUNITIES from Svalbard to Malta HIKING BIKING and CAMPING from the Norwegian fjords to the beaches in Greece The world s most exciting FESTIVALS including Hungary s Sziget and Italy s Spoleto A PHRASEBOOK with essential vocab in nine different languages *The Rough Guide to Europe on a Budget (Travel Guide eBook)* Rough Guides,2017-03-01 The Rough Guide to Europe on a Budget has all you need to know for an out of this world trip that won t affect your credit rating Leave financial woes behind and get to grips with every corner of the continent from awe inspiring Stonehenge to the jaw dropping Sistine Chapel blissful beaches on Croatia s Brac and cool beers in Budapest s ruin pubs Handy itineraries will help you decide your route clear colour coded maps let you plan your days and gorgeous photos will have you rearing to go Combined with in depth descriptions of all the key sights and painstakingly researched recommendations for the best hostels hotels campsites caf s restaurants bars and clubs The Rough Guide to Europe on a Budget reveals the continent in all its glory without breaking the bank And if you do feel like splashing out occasionally treat yourself boxes offer inspiration take a dip in the rooftop pool at Bath s Thermae Spa or track down Wroclaw s most mouthwatering pierogi for example Make the most of your European adventure with The Rough Guide to

**Europe, Its Past and Present Condition, Being a Comprehensive Manual of European Geography and History ...** Franz Heinrich Ungewitter, 1854

*Peter the Great* Paul Bushkovitch, 2001-09-27

A narrative of the fifty years of political struggles at the Russian court 1671 1725 This book shows how Peter the Great was not the all powerful tsar working alone to reform Russia but that he colluded with powerful and contentious aristocrats in order to achieve his goals After the early victory of Peter s boyar supporters in the 1690s Peter turned against them and tried to rule through favourites an experiment which ended in the establishment of a decentralized aristocratic administration followed by an equally aristocratic Senate in 1711 The aristocrats hegemony came to an end in the wake of the affair of Peter s son Tsarevich Aleksei in 1718 After that moment Peter ruled through a complex group of favourites a few aristocrats and appointees promoted through merit and carried out his most long lasting reforms The outcome was a new balance of power at the centre and a new European conception of politics
