Ruanda-Urundi 1884-1919. Reprinted Win Roger Louis, 1979 *Germany, Belgium, Britain and Ruanda-Urundi, 1884-1919* William Roger Louis, 1962 **Ruanda-Urundi, 1884-1919** William Roger Louis, 1979-01-01 **The Order of Genocide** Scott Straus, 2013-01-19 The Rwandan genocide has become a touchstone for debates about the causes of mass violence and the responsibilities of the international community Yet a number of key questions about this tragedy remain unanswered How did the violence spread from community to community and so rapidly engulf the nation Why did individuals make decisions that led them to take up machetes against their neighbors And what was the logic that drove the campaign of extermination According to Scott Straus a social scientist and former journalist in East Africa for several years who received a Pulitzer Prize nomination for his reporting for the Houston Chronicle many of the widely held beliefs about the causes and course of genocide in Rwanda are incomplete They focus largely on the actions of the ruling elite or the inaction of the international community Considerably less is known about how and why elite decisions became widespread exterminatory violence Challenging the prevailing wisdom Straus provides substantial new evidence about local patterns of violence using original research including the most comprehensive surveys yet undertaken among convicted perpetrators to assess competing theories about the causes and dynamics of the genocide Current interpretations stress three main causes for the genocide ethnic identity ideology and mass media indoctrination in particular the influence of hate radio Straus s research does not deny the importance of ethnicity but he finds that it operated more as a background condition Instead Straus emphasizes fear and intra ethnic intimidation as the primary drivers of the violence A defensive civil war and the assassination of a president created a feeling of acute insecurity Rwanda s unusually effective state was also central as was the country s geography and population density which limited the number of exit options for both victims and perpetrators In conclusion Straus steps back from the particulars of the Rwandan genocide to offer a new dynamic model for understanding other instances of genocide in recent history the Holocaust Armenia Cambodia the Balkans and assessing the future likelihood of such events , *The Cambridge History of Africa* J. D. Fage, Roland Anthony Oliver, A. D. Roberts, 1975 This seventh volume in *The Cambridge History of Africa* examines the period 1905-40 in African history *State Failure in Sub-Saharan Africa* Catherine Scott, 2017-06-30 How should failed states in Africa be understood Catherine Scott here critically engages with the concept of state failure and provides an historical reinterpretation She shows that although the concept emerged in the context of the post Cold War new world order the phenomenon has been attendant throughout and even before the development of the Westphalian state system Contemporary failed states however differ from their historical counterparts in one fundamental respect they fail within their existing borders and continue to be recognised as something that they are not This peculiarity derives from international norms instituted in the era of decolonisation which resulted in the inviolability of state borders and the supposed universality of statehood Scott argues that contemporary failed states are

in fact failed post colonies Thus understood state failure is less the failure of existing states and more the failed rooting and institutionalisation of imported and reified models of Western statehood Drawing on insights from the histories of Uganda and Burundi from pre colonial polity formation to the present day she explores why and how there have been failures to create effective and legitimate national states within the bounds of inherited colonial jurisdictions on much of the African continent The Land beyond the Mists David Newbury,2009-09-15 The horrific tragedies of Central Africa in the 1990s riveted the attention of the world But these crises did not occur in a historical vacuum By peering through the mists of the past the case studies presented in The Land Beyond the Mists illustrate the significant advances to have taken place since decolonization in our understanding of the pre colonial histories of Rwanda Burundi and eastern Congo Based on both oral and written sources these essays are important both for their methods viewing history from the perspective of local actors and for their conclusions which seriously challenge colonial myths about the area

Politics and the Urban Frontier Tom Goodfellow,2022 This book offers the first full length comparative analysis of urban development trajectories in Eastern Africa and the political dynamics that underpin them It offers a multi scalar historically grounded and interdisciplinary analysis of the urban transformations unfolding in the world s most dynamic crucible of urban change **Dissimilar Coffee**

Frontiers Sven Van Melkebeke,2020-06-22 In Dissimilar Coffee Frontiers Sven Van Melkebeke compares the divergent development of coffee production in eastern Congo and western Rwanda during the colonial period The Lake Kivu region offers a remarkable case study to investigate diversity in economic development In Rwanda on the eastern side of the lake coffee was mainly cultivated by smallholder families while in the Congo on the western side of the lake European plantations were the dominant mode of production Making use of a wide array of largely untapped archival sources Sven Van Melkebeke convincingly succeeds in moving the manuscript beyond a case study of colonizers to a more nuanced history of interaction and in presenting an innovative new social history of labor and land processes **The End of the British Empire in the**

Middle East, 1952--1971 Wm. Roger Louis,2025-03-28 A comprehensive account of the decline and fall of the British Empire in the Middle East from 1952 to 1971 The British Empire in the Middle East, 1945-1951 William Roger

Louis,1984 With intellectual rigor and careful attention to recently released papers Wm Roger Louis s study asks Why did Britain s colonial empire begin to collapse in 1945 and how did the post war Labour government attempt to sustain a vision of the old Empire through imperialism in the Middle East **Paul Hymans** Sally Marks,2010-04-01 Paul Hymans was the champion of the small states in the League of Nations Commission at the Paris Peace Conference and was rewarded by becoming the League s first president He thereby brought about Belgium s transition from the status of sheltered child to full participation in much great power diplomacy

The First World War Hew Strachan,2003-02-06 This is the first truly definitive history of the First World War the war that has done most to shape the twentieth century The first generation of its historians had access to only a limited range of sources and their focus was primarily on military events More recent

approaches have embraced cultural diplomatic economic and social history In Hew Strachan s authoritative and readable history these fresh perspectives are incorporated with the military and strategic narrative The result is an account that breaks the bounds of national preoccupations to become both global and comparative To Arms the first of three volumes in this magisterial study examines not only the causes of the war and its opening clashes on land and sea but also the ideas that underpinned it and the motivations of the people who supported it It provides full and pioneering accounts of the war s finances of the war in Africa and of the Central Powers bid to widen the war outside Europe **Belgium and Europe**

Jonathan E. Helmreich, 2019-09-23 No detailed description available for Belgium and Europe The Statecraft of British Imperialism Robert D. King, Robin W. Kilson, 1999 These stimulating essays reassess the meaning of British imperialism in the nineteenth and twentieth centuries They are written by leading authorities in the field and range in scope from the aftermath of the American revolution to the liquidation of the British empire from the Caribbean to the Pacific from Suez to Hong Kong

Historical Dictionary of Rwanda Aimable Twagilimana, 2015-11-06 Blessed with natural beauty and rich vegetation Rwanda is often called the land of a thousand hills le pays des mille collines a reference to its many lush and green rolling hills Moreover for many Rwandans at least in the past Rwanda in spite of its small size is vast in fact it means the universe This idyllic view however sharply contrasts with the sad history of ethnic strife that unfolded since the 1950s the 1959 Hutu Revolution followed by years of anti Tutsi pogroms undemocratic regimes the civil war of 1990 1994 and more significantly the April July 1994 genocide against the Tutsi and the killing of Hutu who opposed the killings The 1994 genocide against the Tutsi remains the most defining single event in contemporary Rwanda and many people in the world today know of this central African nation from the prism of extreme mass violence that sullied the end of the 20th century amid international indifference and has since haunted the world s conscience This second edition of *Historical Dictionary of Rwanda* contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Rwanda **Perspectives on Contemporary**

Ethnic Conflict Santosh C. Saha, 2006-01-01 The existing traditions of inquiry into ethnic conflict can be classified into four categories essentialism instrumentalism constructivism and institutionalism All four traditions have a distinguished lineage but none can really account for the worldwide spread of ethnic violence We need to move from the local to the macro or global This book using methodology from sociology history and politics will present the complexities of ethnic conflict in terms of linguistics religion territory and tribes in various regions These brilliant essays look at some of the most conflicted sites in the world where ethnic violence has been created and played out Burma Indonesia Rwanda Burundi Nigeria the Sudan Mexico and Guyana Divided into two parts *Perspectives on Contemporary Ethnic Conflict* is a rich text for scholars of conflict studies focusing on the sources and dynamics of ethnic violence and providing descriptions of ethnic conflict across

the globe **Mass Hate** Neil Jeffrey Kressel, 2013-11-11 Mass Hate explores why the brutality of humankind has erupted and flowed more expansively in the twentieth century than ever before More importantly this monumental work offers specific recommendations on how to stem this bloody global tide of slaughter terror and genocide so that the twenty first century does not bring more of the same or worse **Culture and Customs of Rwanda** Julius O. Adekunle, 2007-05-30 Rwanda has been in the news for the genocide of 1994 and its aftermath This volume exposes Western readers to the fuller picture of Rwanda Early European travelers attested to Rwanda s beauty describing it variously as the Switzerland of Africa and the Pearl of Africa Rwanda has also been referred to as the Land of a Thousand Hills and the Land of Gorillas The spectacular volcanoes mountains and natural resources are significant assets The nation been dominated by two colonial powers the Germans and Belgians In spite of these political upheavals and acts of ethnic violence Rwanda remains a country with rich culture and customs Readers will learn that living together in harmony has been part of the Rwandan society with its few ethnic groups and traditional values supported a culture of peace The traditionally pastoral and agricultural society is overviewed The chapter on religion includes discussion of polytheism to Christianity Other chapters cover the strong family and women s roles the arts and oral cultures celebrations food and dress
