Rubens Life Of Marie De Medici:

Life of Marie De'Medici Peter Paul Rubens,1970* **Heroic Deeds and Mystic Figures** Ronald Millen,Robert Erich Wolf,1989 No previous study of Rubens pictorial biography of Maria de Medici Dowager Queen of France has analyzed in such detail each of the twenty four paintings with regard to iconography the painter s source material and his pictorial treatment Not only is each episode seen here within its historical context using documents from both Italian and French sources of the time many never before adduced in connection with the paintings but for the first time an iconographical element is studied which heretofore has been glimpsed only in passing the symbolical and allegorical emblems connected with coins medals broadsheets public ceremonies and political propaganda Rubens this book argues incorporated those cryptic images into his compositions with full awareness of their political and personal implications and did so it seems at the insistence of the patroness and her advisers These and other mystic figures offer a hitherto unsuspected key to the cycle s secret meanings The theme now appears to be not reconciliation as usually stated but a vindication of the former Florentine princess s policies as queen regent and dowager With this goes an accusation of filial ingratitude and political ineptness directed against King Louis XIII and there is an implicit painted threat to reopen armed hostilities should the uneasy truce between mother and son ever be broken Reason enough then to dissemble conceal or explain away the true meaning of the cycle when the paintings were new *Rubens' Life of Marie de Medici* Jacques Thuillier,1970 *A Legacy of Women* Kirsten Girio Winner,2019 Lived experience is a critical ingredient in the creation of artistic production Without it art would indeed be dull and would lack the ability to connect with the viewer due to the unrealistic presentation of the scene This paper looks at the acclaimed Life Cycle of Marie de Medici by Peter Paul Rubens and applies an autobiographical approach in reading the paintings Rubens life experiences including an undeniably substantial influence from his mother and her life are predominantly present in this series In making this twenty four image cycle Rubens was intuitively aware that the reaction provoked by these paintings would influence the view of the French people about the Queen Mother Marie de Medici Based upon an in depth analysis between the paintings and biography it is astonishing how closely linked the Life Cycle of Marie de Medici is with the life of Rubens and his mother Maria This thesis concentrates on the close connection between the artist and his own mother which is translated into the inspiration behind this series of paintings While there does appear to be some correlations between certain specific events in the life of Marie de Medici and Rubens mother the focus for this thesis has been looking at Rubens mother as the inspirational spirit behind the depictions in this cycle and how this influence contributes to the overall theme of triumph over adversity Women and Art in Early Modern Europe: Patrons, Collectors, and Connoisseurs ,1999 This anthology reflects a larger impulse to recover women s involvement in the creation of an aesthetic culture from the late medieval through the early modern periods By asking how the perspectives and experiences of female patrons contributed to the invention of particular styles or iconographies or how they shaped taste or how they

influenced demand these twelve original essays introduce significant new information about specific women patrons while raising theoretical issues for patronage studies more generally While most of the projects discussed are consistent with the period's male sanctioned concept of female patronage as an expression of conjugal devotion or dynastic promotion at the same time the women involved devised strategies that circumvented these rules allowing them to explore the potential or art as a means of proclaiming their own identity and taste

Criticising the Ruler in Pre-Modern Societies - Possibilities, Chances and Methods Karina Kellermann, Alheydis Plassmann, Christian Schwermann, 2019-12-09 In vormodernen Monarchien beobachten wir Widerspruch und Widerstand gegen einzelne Herrscher ihre politischen Entscheidungen und ihre Verwaltung aber in der Regel keine direkten Angriffe auf die Ordnungsprinzipien und das politische System Wenn Unzufriedenheit zu Aufständen und Revolten führte blieb es normalerweise bei einem bloßen Austausch des Regenten Subtilere Methoden der Herrscherkritik konnten sich mittels fester Usancen oder spezifischer Codes und Spielregeln innerhalb des legalen Rahmens Gehör verschaffen und zielten darauf ab die Qualitäten des Regenten zu verbessern oder spezifische Modi der Amtsführung zu reformieren Diese verschiedenen Formen und Praktiken von Herrscherkritik in vormodernen monarchischen Gesellschaften sind Gegenstand dieses Bandes When looking at pre modern monarchical societies one does not expect to observe fundamental dissent directed at the social order as such or at the political system As a rule criticism was limited to individual monarchs their performance and decisions While discontent could lead to insurrection and rebellion which normally only culminated in the ruler being replaced by another monarchical figurehead the subtler methods of voicing criticism were applied within a framework of legality of a set of customs or of a code of rules of the game and intended to improve the performance of the incumbent or reform his conduct at court The various forms of verbal or staged censure of rulers in pre modern monarchical societies are the subject of this volume

Tender Geographies Joan DeJean, 1993-12-16 **Picturing Marie Leszczinska (1703-1768)** Jennifer G. Germann, 2017-07-05 Portraits of Queen Marie Leszczinska 1703-1768 were highly visible in eighteenth century France Appearing in royal châteaux and after 1737 in the Parisian Salons the queen's image was central to the visual construction of the monarchy Her earliest portraits negotiated aspects of her ethnic difference French gender norms and royal rank to craft an image of an appropriate consort to the king Later portraits by Maurice Quentin de La Tour, Carl van Loo and Jean Marc Nattier contributed to changing notions of queenship over the course of her 43 year tenure Whether as royal wife, devout consort or devoted mother Marie Leszczinska's image mattered While she has often been seen as a weak consort this study argues that queenly images were powerful and even necessary for Louis XV's projection of authority This is the first study dedicated to analyzing the queen's portraits It engages feminist theory while setting the queen's image in the context of portraiture in France, courtly factional conflict and the history of the French monarchy While this investigation is historically specific it raises the larger problem of the power of women's images versus the empowerment of women a challenge that continues to plague the representation of political women today **Widowhood and Visual Culture in Early Modern Europe** Allison Levy, 2017-07-28 Whereas recent studies of early modern widowhood by social economic and cultural historians have called attention to the often ambiguous yet also often empowering experience

and position of widows within society **Widowhood and Visual Culture in Early Modern Europe** is the first book to consider the distinct and important relationship between ritual and representation The fifteen new interdisciplinary essays assembled here read widowhood as a catalyst for the production of a significant body of visual material representations of for and by widows whether through traditional media such as painting sculpture and architecture or through the so called minor arts including popular print culture medals religious and secular furnishings and ornament costume and gift objects in early modern Austria England France Germany Italy and Spain Arranged thematically this unique collection allows the reader to recognize and appreciate the complexity and contradiction iconicity and mutability and timelessness and timeliness of widowhood and representation

Aspects of Violence in Renaissance Europe Jonathan Davies, 2016-04-08 Interest in the history of violence has increased dramatically over the last ten years and recent studies have demonstrated the productive potential for further inquiry in this field The early modern period is particularly ripe for further investigation because of the pervasiveness of violence Certain countries may have witnessed a drop in the number of recorded homicides during this period yet homicide is not the only marker of a violent society This volume presents a range of contributions that look at various aspects of violence from the fourteenth to the seventeenth centuries from student violence and misbehaviour in fifteenth century Oxford and Paris to the depiction of war wounds in the English civil wars The book is divided into three sections each clustering chapters around the topics of interpersonal and ritual violence war and justice and the law Informed by the disciplines of anthropology criminology the history of art literary studies and sociology as well as history the contributors examine all forms of violence including manslaughter assault rape riots war and justice Previous studies have tended to emphasise long term trends in violent behaviour but one must always be attentive to the specificity of violence and these essays reveal what it meant in particular places and at particular times
