Rubens Und Rembrandt:

Rembrandt, Rubens, and the Art of Their Time Sara M. Wages, 1997 *Art Market and Connoisseurship* Anna Tummers, Koenraad Jonckheere, 2008 The question of whether seventeenth century painters such as Rembrandt and Rubens were exclusively responsible for the paintings later sold under their names has caused many a heated debate Despite the rise of scholarship on the history of the art market much is still unknown about the ways in which paintings were produced assessed priced and marketed during this period which leads to several provocative questions did contemporary connoisseurs expect masters such as Rembrandt to paint works entirely by their own hand Who was credited with the ability to assess paintings as genuine The contributors to this engaging collection Eric Jan Sluijter Hans Van Miegroet and Neil De Marchi among them trace these issues through the booming art market of the seventeenth and eighteenth centuries arriving at fascinating and occasionally unexpected conclusions **Drawings from the Age of Bruegel, Rubens, and Rembrandt** William W. Robinson, 2016-08-02 This superb book presents 100 notable examples from the Harvard Art Museums distinguished collection of Dutch Flemish and Netherlandish drawings from the 16th to 18th century Featuring such masters as Pieter Bruegel the Elder Peter Paul Rubens and Rembrandt van Rijn the volume showcases beautiful color illustrations accompanied by insightful commentary on prevalent styles and techniques Genres that define this artistic period landscape scenes of everyday life portraiture and still life are explored in detail The book also presents the results of new conservation and technical study including infrared analysis and scientific examinations of drawing materials This revelatory new research has allowed previously illegible underdrawings and inscriptions in many of the artworks to surface for the first time shedding light on longstanding mysteries of production and provenance **Rubens, Rembrandt, and Drawing in the Golden Age** Victoria Sancho Lobis, Antoinette Owen, 2019 Published in conjunction with an exhibition of the same title organized and presented at the Art Institute of Chicago September 28 2019 to January 2020 **Rembrandt, Rubens, and the Art of Their Time** Roland E. Temple in the Dutch Golden Age , , **Rubens and Rembrandt in Their Century** Pierpont Morgan Library, Felice Stampfle, 1979 **Rubens** Joost vander Auwera, 2007 Over the past four years the Royal Fine Arts Museums of Belgium have undertaken a huge research Rembrandt, 1606-1669 Michael Bockemühl, 2000 Baroque *Rembrandt's Roughness* Nicola Suthor, 2018-04-03 Roughness is the sensual quality most often associated with Rembrandt's idiosyncratic style. It best defines the specific structure of his painterly textures which subtly capture and engage the imagination of the beholder. Rembrandt's Roughness examines how the artist's unconventional technique pushed the possibilities of painting into startling and unexpected realms. Drawing on the phenomenological insights of Edmund Husserl as well as firsthand accounts by Rembrandt's contemporaries Nicola Suthor provides invaluable new perspectives on many of the painter's best known masterpieces including *The Anatomy Lesson of Dr Deyman*, *The Return of the Prodigal Son* and *Aristotle with a Bust of Homer*. She focuses on pictorial phenomena such as the thickness of the paint material, the visibility of the colored priming and the dramatizing element of chiaroscuro showing how they constitute Rembrandt's most effective tools for extending the representational limits of painting. Suthor explores how Rembrandt developed a visually precise handling of his artistic medium that forced his viewers to confront the paint itself as a source of meaning, its challenging complexity expressed in the subtlest stroke of his brush. A beautifully illustrated meditation on a painter like no other, *Rembrandt's Roughness* reflects deeply on the intellectual challenge that Rembrandt's unrivaled artistry posed to the art theory of his time and its eminent role in the history of art today. **Drawings by Rembrandt and His Pupils** Rembrandt Harmenszoon van Rijn, Holm Bevers, 2009 Rembrandt was the most famous painter of the Dutch Golden Age and the opportunity to work in his studio attracted young artists for nearly four decades until the artist's death in 1669. This catalogue explores the workings of Rembrandt's studio in the form of drawings made by the master himself and fifteen of his pupils. Rembrandt and his students would often depict the same subject matter as an exercise and make drawings of the same nude models. In his later years Rembrandt also made sketching trips outside Amsterdam to create his innovative landscapes of the Dutch countryside. His students followed this example, sometimes depicting the same sites. Organized chronologically, *Drawings by Rembrandt and His Pupils* tells the difference is a groundbreaking study that presents more than forty works by Rembrandt and related works by his pupils. It explores the scholarship of recent decades that has brought new and more systematic criteria to bear on determining the authenticity of Rembrandt drawings and defines the styles of his pupils and followers with ever greater precision. In so doing, this volume demystifies the sometimes baffling exercise known as connoisseurship and seeks to re-enact the daily practices that Rembrandt used to teach his students and bring them to artistic maturity. This is an essential book for anyone interested in the Dutch Golden Age or the lives and careers of Rembrandt and the artists in his immediate circle. A major exhibition of these drawings will be on view at the J. Paul Getty Museum from December 8, 2009 to February 28, 2010. **Book Jacket** **The Complete Poetry and Prose of William Blake** William Blake, 2008-07-07 Poetry **The Eclectic**

Woodall,2017-11-06 Ut pictura amor The Reflexive Imagery of Love in Artistic Theory and Practice 1500 1700 examines the related themes of lovemaking and image making in the visual arts of Europe China Japan and Persia The term reflexive is here used to refer to images that invite reflection not only on their form function and meaning but also on their genesis and mode of production Early modern artists often fashioned reflexive images and effigies of this kind that appraise love by exploring the lineaments of the pictorial or sculptural image and complementarily appraise the pictorial or sculptural image by exploring the nature of love Hence the book s epigraph ut pictura amor as is a picture so is love
