Rubens And The Judgement Of Paris A Question Of Choice:

Rubens and the Judgement of Paris Fiona Healy, 1997 The Judgement of Paris the tale of the shepherd prince who gave Venus the prize in a beauty competition was variously treated by classical writers and became a favourite theme for artists No painter seems to have responded to the ancient story with more intelligence and enthusiasm than Peter Paul Rubens who devoted at least eight pictures to it A Judgement of Paris marks every stage in Rubens career so that the present survey which includes familiar and unfamiliar works allows an insight into his entire artistic development Since his illustrations of the subject were intended for a variety of contexts this study also addresses many aspects of Rubens's practice and production as well as touching on his later reputation Rubens's response to the theme is also seen in relation to earlier literary and pictorial tradition Paris's decision had set a problem for moralists for his choice had led indirectly to the onset of the Trojan War Some commentators held that the young man who had two other goddesses to choose from should have preferred Minerva patron of learning or at least had opted sensibly for wealth in the person of Juno Allegorical readings has some influence on the depiction and interpretation of the theme in the fifteenth and sixteenth centuries It is shown how Rubens came to favour the Venetian artistic convention which focussed on the moment prior to Paris's decision thus effectively rejecting the interpretation of the Judgement as a moral condemnation Rubens came to see the myth as a universal image of the problem of choice But also more specifically he seems to have associated Paris with the artist as arbiter of beauty the final theme explored in this illuminating book

The Hero's Life Choice. Studies on Heracles at the Crossroads, the Judgement of Paris, and Their Reception Malcolm Davies, 2023-09-04 Two allegorical ancient Greek stories about a young hero's career defining choice are shown in this book to have later been appropriated to radically differing effects E.g. a male's choice between female personifications can morph into a female's choice between the same or between various male personifications Never before have so many instances of this process from art literature music even landscape gardening been culled Illustrations mainly colour many brought into this context for the first time are conveniently incorporated into the text thus mimetically mirroring a central theme of the book the process of visualising the verbal verbalising the visual

Gender, Politics, and Allegory in the Art of Rubens Lisa Rosenthal, 2005-09-05 Gender Politics and Allegory in the Art of Peter Paul Rubens examines the intertwined relationship between paintings of family and marriage and of war peace and statehood by the Flemish master Drawing extensively upon recent critical and gender theory Lisa Rosenthal reshapes our view of Rubens works and of the interpretive practices through which we engage them Close readings offer new interpretations of canonical images while bringing into view other powerful works which are less familiar The focus on gender serves as a catalyst that enables an original way of reading visual allegory giving it a dynamic multivalence undiscovered by traditional iconographic methods

The hurt(ful) body Tomas Macsotay, Cornelis van der Haven, Karel Vanhaesebrouck, 2017-07-21 This book offers a cross disciplinary approach to pain and suffering in the early modern period

based on research in the fields of literary studies art history theatre studies cultural history and the study of emotions The volume s two fold approach to the hurt body defining hurt from the perspectives of both victim and beholder as well as their combined creation of a gaze is unique It establishes a double perspective about the riddle of cruel viewing by tracking the shifting cultural meanings of victims bodies and confronting them with the values of audiences religious and popular institutional settings and practices of punishment It encompasses both the victim s presence as an image or performed event of pain and the conundrum of the look the transmitted pain experienced by the watching audience "Rubens, Vel?uez, and the King of Spain " Larry Silver,2017-07-05 This study provides a new analysis of the pictorial ensemble of the Torre de la Parada the hunting lodge of King Philip IV of Spain Created in the late 1630s by a group of artists led by Peter Paul Rubens this cycle of mythological imagery and hunting scenes was completed by Diego Vel uez Despite the lack of a written program surviving works provide eloquent testimony of several basic themes that embody Neostoic ideals of self restraint and prudent governance While Rubens set the moral tone through his serio comic Ovidian narratives Vel uez added an important grace note with his portraits of ancient philosophers and royals and fools of the court This study is the first to consider in depth their joint artistic contributions and shared ambition Through analysis of individual works the authors situate these pictorial inventions within broader intellectual currents in both Spanish Flanders and Spain especially in the advice literature and drama presented to the Spanish king Moreover they point to the lasting resonance of Torre de la Parada for Vel uez especially within his late masterworks Las Meninas and Las Hilanderas Ultimately this study illuminates the dialogical nature of this ensemble in which Rubens and Vel uez offer a set of complementary views on subjects ranging from the nature of classical gods to the role of art as a mirror of the prince *Peter Paul Rubens* Anne-Marie S.
