Non-Normative Sexualities in US Latinx and Latin American Literature Through a Capitalist Lens Kathryn Quinn-Sánchez, Michele Shaul, 2023-12-06 Non Normative Sexualities in US Latinx and Latin American Literature Through a Capitalist Lens studies how Latin American and Latinx authors represent non normative sexualities through a capitalist lens In our society heterosexuality manifests as privilege and has been normalized to such an extent that any sexuality that is perceived as different from the dominant cis gendered heteropatriarchal norm is considered deviant Non normative sexualities continue to be viewed by society as detrimental to the health of the nation Consequently how one is perceived by the dominant culture continues to limit one s ability to thrive Each chapter serves to analyze how one s perceived gender identity or sexuality can block access to economic opportunity Queer trans spatial and intersectional theories form the base of the literary analyses One of the contributors goals is to present capitalism as it is intersectionally present in life identity and society The authors studied in this collection come from the USA Puerto Rico Mexico and the Southern Cone of Latin America

Writing Off the Hyphen Jose L. Torres-Padilla, Carmen Haydee Rivera, 2011-12-01 The sixteen essays in Writing Off the Hyphen approach the literature of the Puerto Rican diaspora from current theoretical positions with provocative and insightful results The authors analyze how the diasporic experience of Puerto Ricans is played out in the context of class race gender and sexuality and how other themes emerging from postcolonialism and postmodernism come into play Their critical work also demonstrates an understanding of

how the process of migration and the relations between Puerto Rico and the United States complicate notions of cultural and national identity as writers confront their bilingual bicultural and transnational realities The collection has considerable breadth and depth It covers earlier undertheorized writers such as Luisa Capetillo Pedro Juan Labarthe Bernardo Vega Pura Belpr Arturo Schomburg and Graciany Miranda Archilla Prominent writers such as Rosario Ferr and Judith Ortiz Cofer are discussed alongside often neglected writers such as Honolulu based Rodney Morales and gay writer Manuel Ramos Otero The essays cover all the genres and demonstrate that current theoretical ideas and approaches create exciting opportunities and possibilities for the study of Puerto Rican diasporic literature

Post-Colonial Kenya Rok Ajulu, 2021-07-28 This engaging reassessment of postcolonial Kenya argues that the country's political turmoil over the last fifteen years is a continuation of repeating patterns of political contestation and conflict across Kenya's history When Kibaki stole the 2007 presidential election leading to a spiral of violence that left over 1 000 people dead in the space of a month many analysts wondered how this could happen in a country that had previously been considered an oasis of peace in an otherwise conflict prone region Combining political economy with political sociology in this book Rok Ajulu demonstrates that in fact authoritarianism and the predatory deployment of the state has been the predominant feature of Kenya's post colonial period Focusing on how power has been mediated in the country politically and the characters of the elites in charge the analysis shows the dominance of extra economic political coercion in economic activity In a context in which economic activity remains predominantly political continued control of state power is so crucial for the new ruling class that it must be retained at all costs Rok Ajulu's masterful final book is a powerful and wide ranging contribution to studies on post colonial Kenya and will be an important resource for researchers from across political science economics history sociology and African Studies

Underserved Suffering: A Psychospiritual Autobiography of Post-Colonial Faith from the Puerto Rican Diaspora Gerardo De Jesus, PhD, 2023-09-15 From the Introduction This story seeks to nuance moments in my history as the son of diasporic parents As members of the many who migrated my parents became an us to a them in a world where being different felt threatening They experienced their own undeserved suffering while holding on to the dream of American Exceptionalism Puerto Rican Americans arrived with prayers on their lips bibles and rosaries in hand and though it felt like an expulsion from paradise our colonial faith sustained us The God we knew over there was also here in our new hiding place called Spanish Harlem fondly called el Barrio The faith inherited from 5 centuries of colonialism has grown into our collective identity and though its sacred stories speak to our realities its legacy has also contributed to colonial aims I draw from the life of one of colonial Christianity's greatest saints St Francis of Assisi who emulates the life of Jesus in the 13th century Francis faced the

falseness of religious clericalism the plight of the poor in a shame honor culture and a dualistic consciousness that still prevails and which refuses to embrace otherness How might his life speak to Puerto Ricans in diaspora How might we re imagine the colonial faith inherited

A Vanished World

Christopher Lowney, 2012-12-04 In a world troubled by religious strife and division Chris Lowney s vividly written book offers a hopeful historical reminder Muslims Christians and Jews once lived together in Spain creating a centuries long flowering of commerce culture art and architecture In 711 a ragtag army of Muslim North Africans conquered Christian Spain and launched Western Europe s first Islamic state In 1492 Ferdinand and Isabella vanquished Spain s last Muslim kingdom forced Jews to convert or emigrate and dispatched Christopher Columbus to the New World In the years between Spain s Muslims Christians and Jews forged a golden age for each faith and distanced Spain from a Europe mired in the Dark Ages Medieval Spain s pioneering innovations touched every dimension of Western life Spaniards introduced Europeans to paper manufacture and to the Hindu Arabic numerals that supplanted the Roman numeral system Spain s farmers adopted irrigation technology from the Near East to nurture Europe s first crops of citrus and cotton Spain s religious scholars

authored works that still profoundly influence their respective faiths from the masterpiece of the Jewish kabbalah to the meditations of Sufism's greatest master to the eloquent arguments of Maimonides that humans can successfully marry religious faith and reasoned philosophical inquiry. No less astonishing than medieval Spain's wide-ranging accomplishments was the simple fact its Muslims, Christians, and Jews often managed to live and work side by side bestowing tolerance and freedom of worship on the religious minorities in their midst. A Vanished World chronicles this impossibly panoramic sweep of human history and achievement encompassing both the agony of jihad, Crusades, and Inquisition and the glory of a multicultural civilization that forever changed the West. One gnarled root of today's religious animosities stretches back to medieval Spain but so does a more nourishing root of much modern religious wisdom.

Produced by the Ancient History Documentary Research Centre at Macquarie University, the New Docs volumes broaden the context of biblical studies and other related fields and provide a better understanding of the historical and social milieus of early Christianity.

Italian American Pentecostalism and the Struggle for Religious Identity Paul J. Palma, 2019-07-30 While many established forms of Christianity have seen significant decline in recent decades, Pentecostals are currently one of the fastest growing religious groups across the world. This book examines the roots, inception, and expansion of Pentecostalism among Italian Americans to demonstrate how Pentecostalism moves so freely through widely varying cultures. The book begins with a survey of the origins and early shaping forces of Italian American Pentecostalism. It charts its birth among immigrants in Chicago as well as the initial expansion fuelled by the convergence of folk Catholic, Reformed, evangelical, and Holiness sources. The book goes on to explain how internal and external pressures demanded structure, leading to the founding of the Christian Church of North America in 1927. Paralleling this development was the emergence of the Italian District of the Assemblies of God, the Assemblee di Dio in Italia, Assemblies of God in Italy, the Canadian Assemblies of God, and formidable denominations in Brazil and Argentina. In the closing chapters, based on analysis of key theological loci and in lieu of contemporary developments, the future prospects of the movement are laid out and assessed. This book provides a purview into the religious lives of an underexamined but culturally significant group in America. As such, it will be of great interest to scholars of Pentecostalism, Religious Studies, and Religious History, as well as Migrations Studies and Cultural Studies in America.

Charting Memory Stacy N. Beckwith, 2019-05-23 Charting Memory: Recalling Medieval Spain elaborates an interdiscursive picture of how Medieval Spain has been remembered by various Arab, Jewish, and Hispanic peoples from well before 1492 to the present. The collection breaks with traditional foci on the legacies of separate Iberian communities and their descendants and on limited, largely textual sets of their related cultural practices. In distinct ways, this

collection takes a multi ethnic and multi modal approach departing from sociologist Maurice Halbwachs premise that collective memories form not within individuals alone but through the inner and inter workings of actual and conceptual social milieux The volume hereby foregrounds the constitutive roles of communities created through prayer literary resonances architecture musical performance and name giving in shaping memories of medieval Spanish contexts as well as complex identities in the Balkans the Near and Middle East North Africa Latin American and the United States The ten original essays in this collection by international specialists in anthropology ethnomusicology literary criticism folklore and onomastics are not arranged according to Arab Jewish and Hispanic cultural memories of medieval Spain Instead the collection s unique comparative emphasis illuminates ways in which various peoples have re articulated memories relating to medieval Spain in and across physical temporal and social locations with different types and degrees of impact
