Science Without Bounds Arthur D'Adamo,2015-03-18 Explores the intersection of Science Religion Philosophy and Mysticism Here s what some people have said about Science Without Bounds One of the best on the Internet for quality accuracy of content presentation and usability Britannica Presents Internet Guide Awards Style is tight clean and refreshingly free from scientific mystical philosophical and theological jargon It s the kind of book where you ll need to stop and do 15 minutes of deep thinking and pondering every few pages Outstanding book engrossing a classic Wendy Christensen Inscriptions the weekly e zine for professional writers InscriptionsMagazine com Selected by The McKinley Group s professional editorial team as a 3 Star site a special mark of achievement in Magellan McKinley s comprehensive Internet directory of over 1 5 million sites and 40 000 reviews Found it very intriguing A lot of your ideas had me nodding my head in agreement Karl B I was astonished to read your book non stop over 7 hours last night It was the best synthesis of the collective understanding I have read in my 48 years S R I m impressed by the breadth of your understanding and the amount of work you ve obviously put into it R W K Wow This is about all I can say at the moment Ella B **Science Without Bounds** Arthur D'Adamo,2004-01-31 *The End of Christianity* John W. Loftus,2011-07-12 In this successor to his critically acclaimed anthology The Christian Delusion Why Faith Fails a former minister and now leading atheist spokesperson has assembled a stellar group of respected scholars to continue the critique of Christianity begun in the first volume Contributors include Victor Stenger Robert Price Hector Avalos Richard Carrier Keith Parsons David Eller and Taner Edis Loftus is also the author of the best selling Why I Became an Atheist A Former Preacher Rejects Christianity Taken together the Loftus trilogy poses formidable challenges to claims for the rationality of the Christian faith Anyone with an interest in the philosophy of religion will find this compilation to be intellectually stimulating and deeply thought provoking *Heaven's Gate* Benjamin E Zeller,Robert W Balch,2014-10-31 The captivating story of the religious group focused on transcending humanity and the Earth and seeking salvation in the literal heavens on board a UFO 2015 Best Book Award from the Communal Studies Association In March 1997 thirty nine people in Rancho Santa Fe California ritually terminated their lives To outsiders it was a mass suicide To insiders it was a graduation This act was the culmination of over two decades of spiritual and social development for the members of Heaven s Gate In this fascinating overview Benjamin Zeller not only explores the question of why the members of Heaven s Gate committed ritual suicides but interrogates the origin and evolution of the religion its appeal and its practices By tracking the development of the history social structure and worldview of Heaven s Gate Zeller draws out the ways in which the movement was both a reflection and a microcosm of larger American culture The group emerged out of engagement with Evangelical Christianity the New Age movement science fiction and UFOs and conspiracy theories and it evolved in response to the religious quests of baby boomers new religions of the counterculture and the narcissistic pessimism of the 1990s Thus Heaven s Gate not only reflects the context of its

environment but also reveals how those forces interacted in the form of a single religious body In the only book length study of Heaven s Gate Zeller traces the roots of the movement examines its beliefs and practices and tells the captivating story of its people The most thorough work on the cult of Heaven s Gate that is presently available Choice **Encountering Light*Within** Arthur D'Adamo,2011-10-19 Describes the author s difficulties with existing religions and how he arrived at a post Christian religion compatible with science based on the insights of the mystics This is not a book of easy answers and superficial feel good spirituality I share my pain and struggle and doubts But I share what I ve found too which will amaze you as it amazes me **The History of the Snowman** Bob Eckstein,2007-10-30 Who made the first snowman Who first came up with the idea of placing snowballs on top of each other and who decided they would use a carrot for a nose Most puzzling of all How can this mystery ever be solved with all the evidence long since melted The snowman appears everywhere on practically everything from knickknacks to greeting cards to seasonal sweaters we plan to return Whenever we see big snowballs our first impulse is to deck them out with a top hat Humorist and writer Bob Eckstein has long been fascinated by this ubiquitous symbol of wintertime fun and finally for the first time one of the world s most popular icons gets his due A thoroughly entertaining exploration The History of the Snowman travels back in time to shed light on the snowman s enigmatic past from the present day in which the snowman reigns as the King of Kitsch to the Dark Ages with the creation of the very first snowman Eckstein s curiosity began playfully enough but soon snowballed into a mostly earnest quest of chasing Frosty around the world into museums and libraries and seeking out the advice of leading historians and scholars The result is a riveting history that reaches back through centuries and across cultures sweeping from fifteenth century Italian snowballs to eighteenth century Russian ice sculptures to the regrettable white trash years 1975 2000 The snowman is not just part of our childhood memories but is an integral part of our world culture appearing much like a frozen Forrest Gump alongside dignitaries and celebrities during momentous events Again and again the snowman pops up in rare prints paintings early movies advertising and over the past century in every art form imaginable And the jolly snowman ostensibly as pure as the driven snow also harbors a dark past full of political intrigue sex and violence With more than two hundred illustrations and a special section of the best snowman cartoons The History of the Snowman is a truly original winter classic smart surprisingly enlightening and quite simply the coolest book ever "*Natures Nation*" *Revisited* European Association for American Studies.
