

RUSSELL BEDFORD - THOUGHT LEADERSHIP: ESG RISK AND REPORTING

The impact of climate change and how organisations can move towards sustainability

Senior leaders at Russell Bedford International analyse risks associated with climate degradation and evaluate how a hard-hit insurance industry can prepare, respond and educate through Centres of Excellence to protect communities and economies towards a sustainable future.

Climate change is no longer a distant threat. The past decade included the hottest years on record, with an increase in extreme weather events such as floods, heat waves, wildfires, and rising sea levels. The World Economic Forum's Global Risks Perception Survey (GRPS) of nearly 1,500 global experts ranked extreme weather events as the second-most significant risk in the short term and predicted it would be the top risk in ten years.
