Scott-King's Modern Europe Evelyn Waugh, 1950 *Scott-King's Modern Europe* Evelyn Waugh, 1951 **Scott-King's Modern Europe** Evelyn Waugh, 1949 *Monarchism and Absolutism in Early Modern Europe* Cesare Cuttica, Glenn Burgess, 2015-10-06 The 14 essays in this volume look at both the theory and practice of monarchical governments from the Thirty Years War up until the time of the French Revolution Contributors aim to unravel the constructs of absolutism and monarchism examining how the power and authority of monarchs was defined through contemporary politics and philosophy

Modern and Contemporary European History (1815-1928) Jacob Salwyn Schapiro, 1921 *Transregional Lordship and the Italian Renaissance* Matthew Vester, 2025-10-01 Ren de Challant whose holdings ranged from northwestern Italy to the Alps and over the mountains into what is today western Switzerland and eastern France was an Italian and transregional dynast The spatially dispersed kind of lordship that he practiced and his lifetime of service to the house of Savoy especially in the context of the Italian Wars show how the Sabaudian lands neighboring Alpine states and even regions further afield were tied to the history of the Italian Renaissance Situating Ren de Challant on the edge of the Italian Renaissance helps us to understand noble kin relations political networks finances and lordship with more precision A spatially inflected analysis of Ren s life brings to light several themes related to transregional lordship that have been obscured due to the traditional tendencies of Renaissance studies It uncovers an Italy whose boundaries extend not just into the Mediterranean but into regions beyond the Alps **Early Modern Europe** Philip Benedict, Myron P. Gutmann, 2005 Fifty years after the beginning of the debate about the general crisis of the seventeenth century and thirty years after Theodore K Rabb s reformulation of it as the European struggle for stability this volume returns to the fundamental questions raised by the long running discussion What continent wide patterns of change can be discerned in European history across the centuries from the Renaissance to the French Revolution What were the causes of the revolts that rocked so many countries between 1640 and 1660 Did fundamental changes occur in the relationship between politics and religion Politics and military technology Politics and the structures of intellectual authority **Modern and Contemporary European History (1815-1922)** Jacob Salwyn Schapiro, 1922 *The Bookseller*, 1884 Vols for 1871 76 1913 14 include an extra number The Christmas bookseller separately paged and not included in the consecutive numbering of the regular series *Antiquarian Bookman*, 1966

Spain, Europe and the Wider World, 1500-1800 John Huxtable Elliott, 2009-06-29 When J H Elliott published *Spain and Its World 1500 1700* some twenty years ago one of many enthusiasts declared For anyone interested in the history of empire of Europe and of Spain here is a book to keep within reach to read to study and to enjoy Times Literary Supplement Since then Elliott has continued to explore the history of Spain and the Hispanic world with originality and insight producing some of the most influential work in the field In this new volume he gathers writings that reflect his recent research and thinking on politics art culture and ideas in Europe and the colonial worlds between 1500 and 1800 The volume includes

fourteen essays lectures and articles of remarkable breadth and freshness written with Elliott's characteristic brio. It includes an unpublished lecture in honor of the late Hugh Trevor Roper. Organized around three themes: early modern Europe, European overseas expansion, and the works and historical context of El Greco, Velázquez, Rubens, and Van Dyck, the book offers a rich survey of the themes at the heart of Elliott's interests throughout a career distinguished by excellence and innovation. *Spanish Newsletter*, 1947. Scott's Lady of the Lake. With intr., notes, and appendices by A.E. Woodward Sir Walter Scott (bart.), 1896. Modern and Contemporary European History Jacob Salwyn Schapiro, 1918. Russian Notions of Power and State in a European Perspective, 1462-1725 Endre Sashalmi, 2022-10-25. Winner of the 2023 Marc Raeff Book Prize. A 2023 REFORC Book Award Longlist Title. This book highlights the main features and trends of Russian political thought in an era when sovereignty, state and politics as understood in Western Christendom were non-existent in Russia or were only beginning to be articulated. It concentrates on enigmatic authors and sources that shaped official perception of rulership or marked certain changes of importance of this perception. Special emphasis is given to those written and visual sources that point towards depersonalization and secularization of rulership in Russia. A comparison with Western Christendom frames the argument throughout the book both in terms of ideas and the practical aspects of state building, allowing the reader to ponder Russia's *differentia specifica*. **The Cumulative Book Index**, 1909. A world list of books in the English language. **Standard Catalog for Public Libraries** H.W. Wilson Company, 1929. **Monarchy, Aristocracy and State in Europe 1300-1800** Hillay Zmora, 2002-01-04. Monarchy, Aristocracy and the State in Europe 1300-1800 is an important survey of the relationship between monarchy and state in early modern European history. Spanning five centuries and covering England, France, Spain, Germany, and Austria, this book considers the key themes in the formation of the modern state in Europe. The relationship of the nobility with the state is the key to understanding the development of modern government in Europe. In order to understand the way modern states were formed, this book focusses on the implications of the incessant and costly wars which European governments waged against each other, which indeed propelled the modern state into being. Monarchy, Aristocracy and the State in Europe 1300-1800 takes a fascinating thematic approach, providing a useful survey of the position and role of the nobility in the government of states in early modern Europe. **The Hanoverian Dimension in British History, 1714-1837** Brendan Simms, Torsten Rott, 2007-02-08. For more than 120 years, 1714-1837, Great Britain was linked to the German Electorate, later Kingdom of Hanover, through Personal Union. This made Britain a continental European state in many respects and diluted her sense of insular apartness. The geopolitical focus of Britain was now as much on Germany on the Elbe and the Weser as it was on the Channel or overseas. At the same time, the Hanoverian connection was a major and highly controversial factor in British high politics and popular political debate. This volume was the first systematically to explore the subject by a team of experts drawn from the UK, US, and Germany. They integrate the burgeoning specialist literature on aspects of the Personal Union into the broader history of eighteenth

and early nineteenth century Britain Never before had the impact of the Hanoverian connection on British politics monarchy and the public sphere been so thoroughly investigated MODERN AND CONTEMPORARY EUROPEAN HISTORY
(1815-1923) J. SALWYN SCHAPIRO, 1923
