BOOK JACKET **Screen Genealogies** Craig Buckley, Rüdiger Campe, Francesco Casetti, 2025-10-01 Against the grain of the growing literature on screens Screen Genealogies argues that the present excess of screens cannot be understood as an expansion and multiplication of the movie screen nor of the video display Rather screens continually exceed the optical histories in which they are most commonly inscribed As contemporary screens become increasingly decomposed into a distributed field of technologically interconnected surfaces and interfaces we more readily recognize the deeper spatial and environmental interventions that have long been a property of screens For most of its history a screen was a filter a divide a shelter or a camouflage A genealogy stressing transformation and descent rather than origins and roots emphasizes a deeper set of intersecting and competing definitions of the screen enabling new thinking about what the screen might yet become

Smart Chicks on Screen

Laura Mattoon D'Amore, 2014-09-08 While women have long been featured in leading roles in film and television the intellectual depictions of female characters in these mediums are out of line with reality Women continue to be marginalized for their choices overshadowed by men and judged by their bodies In fact the intelligence of women is rarely the focus of television or film narratives and on the rare occasion when smart women are showcased their portrayals are undermined by socially awkward behavior or their intimate relationships are doomed to perpetual failure While Hollywood claims to offer a different more evolved look at women these movies and shows often just repackage old character types that still downplay the intelligence and savvy of women In Smart Chicks on Screen Representing Women's Intellect in Film and Television Laura Mattoon D'Amore brings together an impressive array of scholarship that interrogates the portrayal of females on television and in movies Among the questions that the volume seeks to answer are In what ways are women in film and television limited or ostracized by their intelligence How do female roles reinforce standards of beauty submissiveness and silence over intellect problem solving and leadership Are there women in film and television who are intelligent without also being objectified The thirteen essays by international interdisciplinary scholars offer a wide range of perspectives examining the connections and disconnections between beauty and brains in film and television Smart Chicks on Screen will be of interest to scholars not only of film and television but of women's studies reception studies and cultural history as well

Cinéma&Cie. International Film Studies Journal Aa. Vv., 2016-01-19T00:00:00+01:00 The images of atrocity either analog or digital are always the trace of an encounter between the gaze of a photographer or a cameraman and a human being suffering from the painful effects of man made violence The archive images resulting from such an encounter raise some inevitable questions who took them and for what purpose Is it possible to retrace the process that led to these shots What do they hide behind what the eye can see This special issue of Cinéma&Cie will not only focus on the production of such images but also on their persistence on the synchronic level in the media newspapers magazines cinema television the Internet museums as well as on the diachronic level across time mutation re editing inversion From propaganda to counter propaganda from purposes of memory to artistic aims the circulation of these images proves that repetition always implies difference
