As If By Design Edward A. Wasserman, 2021-07-22 The eureka moment is a myth It is an altogether naive and fanciful account of human progress Innovations emerge from a much less mysterious combination of historical circumstantial and accidental influences This book explores the origin and evolution of several important behavioral innovations including the high five the Heimlich maneuver the butterfly stroke the moonwalk and the Iowa caucus

Such creations striking suitability to the situation and the moment appear ingeniously designed with foresight. However more often than not they actually arise as if by design. Based on investigations into the histories of a wide range of innovations Edward A Wasserman reveals the nature of behavioral creativity. What surfaces is a fascinating web of causation involving three main factors: context, consequence, and coincidence. Focusing on the process rather than the product of innovation elevates behavior to the very center of the creative human endeavor. *The Only Writing Series You'll Ever Need*

Allsville Emerging Darrell Moneyhon, 2011-09. What if we created a world one model community at a time that was committed to developing all humans' gifts and virtues instead of a world hellbent on making money scrambling for extrinsic forms of power or wallowing in meaningless comfort? What if we surrounded ourselves with a culture that helped us to discern and use spiritual principles no matter what religion or secular belief we practice? These are some of the questions addressed by the future citizens of a fictional town in the intriguing *Allsville Emerging* as they evolve from online think tanks to planning and building an actual community which exemplifies the values implied by those
