Cooper, 2017-03-16 During the 1920s and 1930s anthropologists and folklorists became obsessed with uncovering connections between African Americans and their African roots At the same time popular print media and artistic productions tapped the new appeal of black folk life highlighting African styled voodoo as an essential element of black folk culture A number of researchers converged on one site in particular Sapelo Island Georgia to seek support for their theories about African survivals bringing with them a curious mix of both influences The legacy of that body of research is the area s contemporary identification as a Gullah community This wide ranging history upends a long tradition of scrutinizing the Low Country blacks of Sapelo Island by refocusing the observational lens on those who studied them Cooper uses a wide variety of sources to unmask the connections between the rise of the social sciences the voodoo craze during the interwar years the black studies movement and black land loss and land struggles in coastal black communities in the Low Country What emerges is a fascinating examination of Gullah people s heritage and how it was reimagined and transformed to serve vastly divergent ends over the decades **First Fruits of Freedom** Janette Thomas Greenwood, 2010-03-01 A moving narrative that offers a rare glimpse into the lives of African American men women and children on the cusp of freedom First Fruits of

Freedom chronicles one of the first collective migrations of blacks from the South to the North during and after the Civil War. Janette Thomas Greenwood relates the history of a network forged between Worcester County, Massachusetts and eastern North Carolina as a result of Worcester regiments taking control of northeastern North Carolina during the war. White soldiers from Worcester, a hotbed of abolitionism, protected refugee slaves, set up schools for them, and led them north at war's end. White patrons and a supportive black community helped many migrants fulfill their aspirations for complete emancipation and facilitated the arrival of additional family members and friends. Migrants established a small black community in Worcester with a distinctive southern flavor. But even in the North, white sympathy did not continue after the Civil War. Despite their many efforts, black Worcesterites were generally disappointed in their hopes for full-fledged citizenship, reflecting the larger national trajectory of Reconstruction and its aftermath.
