Eun Jang, 2016-11-09 This book explores the 1907 Korean Revival Movement from a self psychological perspective The examination of the psychological processes in the movement based on Heinz Kohut's self psychology can shed light on religious experiences as selfobject experiences by identifying the sense of defeatedness and helplessness that Korean people experienced under Japanese occupation as what Kohut calls self fragmentation of the Korean group self and explaining its therapeutic functions which facilitate potential for the narcissistic nourishment of the fragmented group self leading to renewed self esteem transformation and empowerment of the Korean people Korean people in the early 1900s experienced abuses and oppression by corrupt officials and exploitation by Japanese government Through religious experiences which emphasized the individual repentance the experience of God through the spirit emphasis on prayer and eschatological faith the Korean Revival Movement in 1907 enabled its followers to experience mirroring and idealizing selfobjects which function as a role of transforming the lower shape of narcissism into the higher one **Transforming Wisdom** Felicity Kelcourse, K. Brynolf Lyon, 2015-10-09 Transforming Wisdom offers an extensive multidisciplinary introduction to pastoral psychotherapy from some of the most respected practitioners in the field With special attention to theological perspectives on the practice of psychotherapy this collection of essays will be useful to students seeking an orientation to the art and science of pastoral psychotherapy as well as to seasoned professionals looking to refresh and renew their practice As the subtitle Pastoral Psychotherapy in Theological Perspective suggests this book is intended to represent the field of pastoral psychotherapy as a mental health discipline that maintains intentional dialogue with its theological roots Even as pastoral psychotherapy has developed from the ancient notion of the cure of souls to the current search for a psychology of happiness therapists grounded in faith communities seek a practice that is respectful of all persons mindful of the deep wisdom that emanates from the true self or soul While many contributors write from a psychoanalytic or psychodynamic perspective grounded in Christian theological idioms diverse theoretical perspectives including Emotionally Focused Couples Therapy Narrative Therapy Buddhist Mindfulness and Jungian understanding of individuation are represented *Progress in Self Psychology*, V. 15 Arnold I. Goldberg, 2013-06-17 Volume 15 of Progress in Self Psychology conveys the rich pluralism of contemporary self psychology with respect to a central theoretical and clinical issue the nature of the self and the manner in which it can best be studied This topic is initially addressed through a series of papers reassessing selfobject transferences and the selfobject function of interpretation It is then approached via the theory of psychoanalytic technique with papers that focus on boundaries and intimacy and on Surface Depth and the Isolated Mind And it culminates in two case studies that elicit animated discussion delineating different perspectives intersubjective motivational systems and self selfobject on the self in relation to the therapeutic process Two studies comparing Melanie Klein and Heinz Kohut a discussion of how current cultural attitudes affect parenting a relational view of the therapeutic partnership and an integration of Silvan Tomkin's affect theory with self psychology add breadth to this timely and provocative collection Volume 15 includes additional letters

from the Kohut Archives and a moving account of Kohut's struggle with his own impending death **Psychology in Nietzsche's Criticism of Religion** Jan-Olav Henriksen, 2022-11-14 Friedrich Nietzsche claimed to be a psychologist. This claim is substantiated in his criticism of religion. In this book Jan Olav Henriksen provides new perspectives on Nietzsche's contribution to such criticism by applying elements from attachment theory and self psychology. The result is that Nietzsche's insights into the problematic elements in religion point beyond what he was able to articulate based on the psychological resources available to him. Henriksen sheds new light on the psychological dimensions in Nietzsche's individualism, his understanding of God, morality, metaphysics, and emotions, and demonstrates how Nietzsche's criticism of religion is rooted in both psychological splitting and a profound loss of the orientational resources religion provided in his childhood.

Wesleyan Theology and Social Science M. Kathryn Armistead, Brad D. Strawn, Ronald W. Wright, 2009-12-14 Science and religion are living, organic, and creative traditions. Both see humans as profoundly interconnected and in some way responsible for our environs. This worldview is especially true for social science and Wesleyan religious tradition. While the dance between science and religion will always be complex, it can also be enjoyable and mutually satisfying. However, when couples dance, only one at a time can lead, and both have to acknowledge the importance of the other. This book is written with the conviction that theology and science can have a beneficial relationship if only both recognize their mutual value to the lives of persons. The Methodist tradition links the welfare of the body with care for the soul. Historically, ministry involved tending to physical and psychological needs of the Methodist band members but also to non-churched, poor, and imprisoned. Thus Methodists built places of worship, schools, orphanages, and hospitals. For John Wesley, the founder of Methodism, practical divinity always involved attention to whole persons, including their living conditions and basic physical needs. He sought to improve life for all. Therefore, throughout his life, Wesley was interested in theology but also scientific discovery as paths toward a better future. He believed that both were of value to help people move toward perfection. He even attended lectures and offered medical treatment in the first Methodist meeting hall in Bristol, England. As a scientific practitioner, Wesley wrote the best-selling book *Primitive Physic, or An Easy and Natural Method of Curing Most Diseases*, using the cutting-edge science of his day. Packed next to the Bible, this book traveled with countless pioneers as they settled the territories that became the United States. Methodism has a long tradition of using science and religion to carry out the biblical mandate to go into the world and make disciples for Jesus Christ. This book seeks to continue that legacy by bringing current trends in psychology into conversation with Wesleyan theology. Composed of essays that represent different psychologies and theological traditions, which trace their roots to Wesley, this book aims at creating a space where science and theology can partner and dance. In the book, readers will find positive psychology, self psychology, object relations, family systems, moral psychology, and neuroscience in conversation with various theologies. Under this canopy, the contributors see themselves as people called Methodists, seeking to follow the example of Wesley to use all available tools to enable persons to

live fully and well **Female Identity Formation and Response to Intimate Violence** Anne Kiome Gatobu, 2013-02-19

This book is a vital resource for intervention programs educators social workers counselors psychotherapists pastoral counselors and survivors of intimate violence and their families It gives the reader access to the inner emotions and psychological mechanisms of survivors of intimate violence in collective cultures that work to hold them captive in violent relationships The author integrates the psychological developmental theories of Heinz Kohut and Erik Erikson with social cultural and religious aspects to demonstrate the collusive power of what she calls the orienting system psychosocial and religious cultural force in the formation of a female sense of self to investigate the peculiar range of responses of females to intimate violence Using theoretical and empirical research the author claims that the demeanor and functionality of the female survivor of intimate violence is an adaptation that enables her to retain her socially prescribed roles which she appropriates as a social identity and sense of self A surprising aspect of this work is the transformative power of religion also resourced in the orienting system in transforming the psychic hold of survivors to cathected self objects to self images that approximate a self in healthy relationship with God Consequently the energies and investment released can be redirected to cohere in self identities that can optimize drive thrive and relationality
