Finding Meaning in Life, at Midlife and Beyond David Guttman, 2008-09-30 Having been mentored by Viktor E Frankl the founder of logotherapy Emeritus Professor David Guttman authored this book so general readers may understand this approach to finding meaning in life at the point when most of us begin deeply wondering over that question at midlife and beyond Especially in this day and age of multiple demands on our time and seemingly non-stop obligations we too often find that it is only when the dust settles after a work day or work week or even after retirement when we begin to wonder What is the meaning of life The purpose This book is a new millennium venture into those questions and their answers using logotherapy written by a sage understudy who recalls Frankl with his logotherapy as the epitome of his theory even at 80 years old wise and witty exuding an energy enthusiasm and youthful spirit that belied his years by decades Aging does not diminish our power our energy and our quest for life but reshapes it with new understandings goals and needs But says Guttman we live in a technical and machine based world now in which there is a danger of losing our souls Here readers find a new creative perspective on

aging and a fresh spiritual outlook This book will be of interest not only to general readers especially those at midlife and beyond but also to their families friends and students or professionals in the helping professions This unique work provides knowledge to find meaning in life derived from the fields of philosophy psychology religion and gerontology with case illustrations and vignettes to give readers both intellectual pleasure and practical guidance *Signifying and Understanding* Susan Petrilli, 2009-12-15 The theory of signifying signifiés formulated and introduced by Victoria Welby for the first time in 1890s is at the basis of much of twentieth century linguistics as well as in other language and communication sciences such as sociolinguistics psycholinguistics translation theory and semiotics Indirectly the origins of approaches methods and categories elaborated by analytical philosophy Wittgenstein himself Anglo American speech act theory and pragmatics are largely found with Victoria Lady Welby Indeed it is no exaggeration to say in addition that Welby is the founding mother of semiotics Some of Peirce's most innovative writings for example those on existential graphs are effectively letters to Lady Welby She was an esteemed correspondent of scholars such as Bertrand Russell Charles K Ogden Herbert G Wells Ferdinand S C Schiller Michel Br al Andr Lalande the brothers Henry and William James and Peirce as well as Frederik van Eeden Mary Everst Boole Ferdinand T nnies and Giovanni Vailati Her writings directly inspired the Signific Movement in the Netherlands important for psycholinguistics linguistics and semantics and inaugurated by van Eeden and developed by such authors as Gerrit Mannoury This volume containing introductions and commentaries presents a selection from Welby's published and unpublished writings delineating the whole course of her research through to developments with the Signifiés Movement in the Netherlands and still other ramifications contemporary and subsequent to her A selection of essays by first generation signifiés contributing to the Signific Movement in the Netherlands completes the collection testifying to the progress of signifiés after Welby and even independently from her This volume contributes to the reconstruction on both the historical and theoretical levels of an important period in the history of ideas The aim of the volume is to convey a sense of the theoretical topicality of signifiés and its developments especially in semiotics and in particular its thematization of the question of values and the connection with signs meaning and understanding therefore with human verbal and nonverbal behavior language and communication **The Christian Union** , 1886 Outlook Alfred Emanuel Smith, Francis Walton, 1878 Star Trek and Sacred Ground Jennifer E.
